Capitalist Regulation** *The US  
Experience*

# A Theory Of Capitalist Regulation The Us Experience Radical Thinkers

**Michel Aglietta**

## **A Theory Of Capitalist Regulation The Us Experience Radical Thinkers:**

**A Theory of Capitalist Regulation** Michel Aglietta, 2000 Aglietta's book is an attempt at a rigorous historical theory of the whole development of US capitalism from the Civil War to the Carter Presidency Data Capital Chunlei Tang, 2021-01-31 This book defines and develops the concept of data capital Using an interdisciplinary perspective this book focuses on the key features of the data economy systematically presenting the economic aspects of data science The book 1 introduces an alternative interpretation on economists observation of which capital has changed radically since the twentieth century 2 elaborates on the composition of data capital and it as a factor of production 3 describes morphological changes in data capital that influence its accumulation and circulation 4 explains the rise of data capital as an underappreciated cause of phenomena from data sovereign economic inequality to stagnating productivity 5 discusses hopes and challenges for industrial circles the government and academia when an intangible wealth brought by data and information or knowledge as well 6 proposes the development of criteria for measuring regulating data capital in the twenty first century for regulatory purposes by looking at the prospects for data capital and possible impact on future society Providing the first a thorough introduction to the theory of data as capital this book will be useful for those studying economics data science and business as well as those in the financial industry who own control or wish to work with data resources Economics and Climate Emergency Barry Gills, Jamie Morgan, 2022-08-22 This book explores a series of connected themes focused on the role economics and other influential forms of theory and thinking have played in creating the current predicament and the scope for alternatives and how they might be framed Thirty years have passed since the inception of the United Nations Framework Convention on Climate Change UNFCCC and the beginning of policy on climate change Thirty wasted years To most politicians long term collective interest has been denominated in meaningless units of time a never and forever that has continually delayed action From complacency has come potential disaster and we are now living in a time of climate emergency and ecological breakdown The next decade is a pivotal period requiring fundamental change But numerous impediments remain Continual material energy and economic growth on a planetary scale are manifestly impossible and yet economic theory takes these as a given and political leadership and policy seem unwilling to accept brute reality Instead they offer a series of implausible commitments and pledges rooted in technofixes without addressing the fundamental drivers of the problems the world faces The edited volume explores the issues and offers a variety of ways to think through the problems at hand from postgrowth degrowth and social ecological economics to policy assemblage and transversalism The chapters in this book were originally published in the journal Globalizations A Theory of Capitalist Regulation Michel Aglietta, 2015-09-01 Aglietta's path breaking book is the first attempt at a rigorous historical theory of the whole development of US capitalism from the Civil War to the Carter presidency A major document of the Regulation School of Marxist economics it was received as the boldest book in its field since the classic studies of Paul Baran Paul Sweezy and Harry

Braverman This edition includes a substantial new postface by Aglietta which brings regulation theory face to face with capitalism at the beginning of the new millennium *A Theory of Capitalist Regulation* Michel Aglietta, **American Studies**, 2000 **Urbane Transformationen** Martina Hekler, 2021 Wie gestalten sich die verkehrspolitischen und planerischen Prioritätensetzungen für einen Verkehr der Zukunft in den asiatischen Städten Seoul und Singapur unter dem Einfluss von urbaner Governance und Partizipation Die Studie analysiert die relevanten institutionellen Strukturen die Entscheidungsprozesse sowie die jeweils gewählten politischen Strategien Technologieoffenheit langfristige Planung und konsequente Realisierung sind zentrale Treiber der Entwicklungsstrategien in Seoul und Singapur **Psychedelic Humanities** Erika Dyck, Tehseen Noorani, Nicolas Langlitz, Alex Dymock, Anne Katrin Schlag, Oliver Davis, 2024-06-19 Psychedelics are part of a resurgence of interest in consciousness studies especially as altered states of consciousness are being re-examined in the context of psychedelic assisted therapies To date discussions about psychedelics in modern medicine have been dominated by studies in biomedicine However given that cultural factors play a significant role in the subjective effects of psychedelics psychedelics can be considered a uniquely powerful point of convergence between the cultural and biomedical Writers and artists alongside psychiatrists and pharmacologists have participated in shaping the psychedelic experience by drawing on a rich set of approaches that blend narrative arts and humanities concepts to explain and interpret psychedelic experiences and explore consciousness for creative purposes Psychedelic studies past and present emphasize the importance of set and setting or the context of psychedelic consumption and its paramount importance in shaping psychedelic experiences These non pharmacological factors rely on a different set of methods and interpretations that necessarily rely on studies conducted outside of the biomedical sciences *The Shadow of Unfairness* Jeffrey Edward Green, 2016 Many observers of Western democracies from Thomas Piketty in *Capital in the Twenty first Century* to proponents of campaign finance reform in the United States have lamented the rise of plutocracy claiming that putatively democratic capitalist societies are moving ever closer to rule by and for the wealthy These critics common understanding seems to be that the movement toward plutocracy is not only a pernicious and growing phenomenon but also one that might have been prevented In this sequel to his prize winning book *The Eyes of the People* Jeffrey Edward Green advances the polemical argument that plutocracy is a permanent feature of any liberal democratic regime Green draws on philosophy history social science and literature to ask what democracy can mean in a world where it is understood that socioeconomic status to some degree will always determine opportunities for civic engagement and career advancement Under this shadow of unfairness Green argues that the most advantaged are rightly subjected to compulsory public burdens And just as provocatively he urges ordinary citizens living in politics permanently darkened by plutocracy to acknowledge their second class status and the uncomfortable civic ethics that come with it specifically an ethics whereby the pursuit of egalitarianism is informed at least in part by indignation envy uncivil modes of discourse and even the occasional suspension of political

care The Shadow of Unfairness is likely to unsettle all sides of the political and educational systems will always be tainted by socioeconomic inequality from dust jacket      *Encyclopedia of Law and Society* David S. Clark, 2007-07-10 Introduction to and survey of the field of law and society Includes interdisciplinary perspectives on law from sociology criminology cultural anthropology political science social psychology and economics      *First World War* Frank Furedi, 2014-05-13 A brilliant examination of the Great War s ever lasting legacy      **Criminal Identities and Consumer Culture** Steve Hall, Simon Winlow, Craig Ancrum, 2013-06-17 This book offers the first in depth investigation into the relationship between today s criminal identities and consumer culture Using unique data taken from criminals locked in areas of permanent recession the book aims to uncover feelings and attitudes towards a variety of criminal activities investigating the incorporation of hearts and minds into consumer culture s surrogate social world and highlighting the relationship between the lived identities of active criminals and the socio economic climate of instability and anxiety that permeates post industrial Britain This book will be of interest to undergraduates postgraduates researchers and lecturers in all fields within the social sciences but especially criminology sociology social policy politics and anthropology      *Radical Philosophy* , 1984      *Bulletin of the Atomic Scientists* , 1979-03      **Congressional Record** , 1892      **The American Historical Association's Guide to Historical Literature** American Historical Association, 1995 Contains nearly 2 000 annotated citations primarily English language works divided into forth eight sections citations refer chiefly to works published between 1961 and 1992      **Congressional Record** United States. Congress, 1892      *Bulletin of the Atomic Scientists* , 1970-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world      *The Nation* , 2007

**Encyclopedia of Law & Society: F-O** David Scott Clark, 2007 Provides more than seven hundred alphabetical entries covering the interaction of law and society around the globe including the sociology of law law and economics law and political science psychology and law and criminology
