Hayes, 2023-10-16 This book examines incrementalism as a policymaking process in the USA It provides an overview of

incrementalism as a theoretical concept assesses historical and contemporary attitudes toward it and considers it as a viable alternative to rationality The book argues that incrementalism is both an inevitable and desirable method of policymaking despite seeming ill suited to the current system of highly ideological and polarized political parties It also advocates a return to realism in which policymakers on both the left and right recognize the superiority of incrementalism as well as a new system of partisan incrementalism through which political parties compete by offering distinctive incremental alternatives on major policy issues The book will appeal to scholars and students of American public policy public administration and politics

**Unequal Cities** Richard McGahey, 2023-01-10 Cities are central to prosperity they are hubs of innovation and growth However the economic vitality of wealthy cities is marred by persistent and pervasive inequality and deeply entrenched anti urban policies and politics limit the options to address it Structural racism suburban subsidies regional government fragmentation the hostility of state legislatures and federal policy all contribute to an unequal status quo that underfunds cities while preventing them from pursuing fairer outcomes Economist Richard McGahey explores how cities can foster equitable economic growth despite the obstacles in their way Drawing on economic and historical analysis as well as his extensive experience in government and philanthropy he examines the failures of public policy and conventional economic wisdom that have led to the neglect of American cities and highlights opportunities for reform Unequal Cities features detailed case studies of New York Detroit and Los Angeles tracing how their attempts to achieve greater equity foundered because of the fiscal and political constraints imposed on them McGahey identifies key lessons about the political coalitions that can overcome anti urban biases arguing that alliances among unions environmentalists and communities of color can help cities thrive But he warns that cities cannot solve inequality on their own political action at state and federal levels is necessary to achieve systemic change Shedding light on the forces that produced today's dysfunction and disparities Unequal Cities provides timely policy prescriptions to promote both growth and equity Report of the Task Force on Legal Services and Procedure ...
