A Study Of Interpersonal Relations:

A Study of Interpersonal Relations Patrick Mullahy, 1957 Conflict, Power, and Games James T. Tedeschi, Barry R. Schlenker, Thomas V. Bonoma, 2011-12-31 The technological revolution in the social sciences made available a set of research tools and data manipulation techniques that permit the study of complex social processes previously inaccessible or not amenable to our observational powers One important set of tools took the generic title experimental games which were characterized by the interactive protagonists pursuit of relatively well defined goals whose achievement is dependent on the behavior of others James T Tedeschi Barry R Schlenker and Thomas V Bonoma in this work explicate these highly structured interactions The grand strategy of scientific inquiry is the development of explanatory systems for natural phenomena The empirical tactics devised to manipulate control observe and measure events or processes of interest often require as much ingenuity and imagination as theory development itself Generally the situation is so structured that certain rules govern participant behavior Within these constraints the social psychological processes of conflict influence power bargaining and coalition formation can be studied Concerned with the more formal and technical aspects of games the authors explain how they are used for purposes of developing and testing scientific theory The emphasis throughout is on the development and empirical evaluation of a scientific theory of social influence and power in situations where the interests of the interacting parties are in conflict Experimental games have provided many of the concepts and the preponderance of evidence that have helped to unravel many of the complexities of social behavior In *Conflict Power and Games* the authors build a bridge between technical and non technical approaches in order to shed greater light on interpersonal relations **A Study of Interpersonal Relations Within Families** Craig House for Children, 1966 *A Study of Interpersonal Relations Among a Group of Adolescent Girls* Marian Agnes Leo, 1948 *Researching Interpersonal Relationships* Jimmie Manning, Adrienne Kunkel, 2013-03-22 *Researching Interpersonal Relationships* Qualitative Methods Studies and Analysis by Jimmie Manning and Adrienne Kunkel explores and demonstrates methodological tools and theories used to guide relationships research especially studies of interpersonal communication Featuring chapters illustrated by research studies conducted by leading communication scholars this book introduces both classic and cutting edge methodological approaches to qualitative inquiry and analysis Each chapter highlights a particular method context and analytical tool Through the methodological and analytical overviews illustrative research studies and post study interviews with the researchers readers can better understand how qualitative research approaches can expand and solidify understandings of personal relationships **A Study of Interpersonal Relations. New Contributions to Psychiatry. Edited and with an Introduction by P. Mullahy** Patrick MULLAHY, 1958 Interpersonal Relationships in Education Theo Wubbels, Perry den Brok, Jan van Tartwijk, Jack Levy, 2012-12-23 This book brings together recent research on interpersonal relationships in education Clearly positive teacher student relationships strongly contribute to student learning Problematic relationships on the other hand can be

detrimental to student outcomes and development Productive learning environments are characterized by supportive and warm interactions throughout the class teacher student and student student Similarly teacher learning thrives when principals facilitate accommodating and safe school cultures The contributions to this book are based on presentations at the first International Conference on Interpersonal Relationships in Education ICIRE 2010 held in Boulder Colorado the United States and include among others keynote addresses by Kathryn Wentzel Walter Doyle and Theo Wubbels The chapters help explain how constructive learning environment relationships can be developed and sustained Contributions come from among others educational and social psychology teacher and school effectiveness research and communication and language studies among other fields They cover relationships of teachers with individual students and among peers and relationships between teachers and teachers and principals Why Can't We All Just Get Along William N. Spencer, 2011-12-21 A study of interpersonal relationships in the workplace and everywhere else in life An open and honest look at what discriminations and problems face far too many American workers A comprehensive guide for all people regardless of their who what when or where to amicably co exist with one another **The Dynamics of Bureaucracy** Peter Michael Blau (Sociologue.), 1969

A Study of the Impact of Openness and Trust on the Quality of Interpersonal Relations Within Organizations Hardeep Singh Anant, 2016 Organizational efficiencies and effectiveness significantly depend on the motivation involvement and efforts of employees across all levels Employee performance however is affected by the quality of interpersonal communications within the organization which plays a key role in influencing relationships teamwork conflict resolution and motivation Therefore we need to study interpersonal communication within organizations in order to augment our understanding of the key issues within the field of Organizational Behavior This exploratory study of interpersonal communication involved 368 randomly selected employees across three different levels from ten service sector organizations The objective of the study was to investigate the role of several key variables that are known to affect interpersonal communication and to identify possible themes for future research The data quantitative and qualitative was collected with the help of elaborate questionnaires and interviews then tabulated and analysed by applying relevant tests like Chi Square ANOVA and Regression Analysis generating intriguing findings This paper focuses on the quality of the interpersonal relationships of the employees surveyed and the role of key variables like Trust and Openness in affecting the perceived quality of these relationships While the study found a positive relation between openness and the quality of interpersonal relationships within the organizations surprisingly it did not find a significant relation between trust and the quality of interpersonal relations This seems to suggest that within organizations the quality of interpersonal relationships across the levels is influenced more by perceptions of openness than by the levels of trust between employees The International Encyclopedia of Language and Social Interaction, 3 Volume Set Cornelia Ilie, Todd Sandel, 2015-06-08 The International Encyclopedia of Language and Social Interaction is an invaluable reference work featuring contributions from leading global

scholars available both online and as a three volume print set The definitive international reference work on a topic of major and increasing importance in a new series of sub disciplinary international encyclopedias Provides state of the art research for scholars in a highly interactive and accessible format available both online and as a three volume print set Covers key research topics in the field with contributions from a team of experienced global editors Successfully brings into a single source explication of all of the fascinating and ground breaking Language and Social Interaction work developing globally and across subjects Part of The Wiley Blackwell ICA International Encyclopedias of Communication series published in conjunction with the International Communication Association Online version available at www.wileyicaencyclopedia.com

Current Human and Social Sciences Research Redzep Škrijelj, Rasim Berker Bank, 2021-01-15 Current Human and Social Sciences Research **The Dynamics of Bureaucracy : a Study of Interpersonal Relations in Two Government Agencies** Peter Michael Blau, 1963 **Interpersonal Communication** Pamela J. Kalbfleisch, 2013-09-13 Interpersonal relationships are the core of our societal system and have been since before the dawn of civilization In today's world friends lovers companions and confidants make valuable contributions to our everyday lives These are the relationships whose members are not automatically participants as a result of their birth and kin affiliations The focus is on these relationships that must be forged from the sometimes indifferent and sometimes hostile world Yet there is still much that is not known about how these relationships evolve how partners communicate in on going relationships how people keep their relationships together and how they cope when they fall apart Primary to the focus of this book is the underlying theme of evolving interpersonal relationships from the initial encounter to the mature alliance The contributors to this volume provide a contemporary perspective for the study of interpersonal relationships Fresh areas of scholarly inquiry are presented and existing approaches are re examined Research in the introductory chapters breaks new ground and appraises the ultimate

question of what impact initial interactions have on further relational development The mid section of the volume concerns communication issues that confront the members of a relationship in process focusing on how conflict and jealousy are communicated to a relational partner This research considers relational development as well as obstacles and barriers to evolving relationships The concluding chapters probe the question Ultimately do all good things have to come to an end Employing innovative techniques to examine maturing and disengaging relationships the research presented here focuses on how interpersonal relationships become committed and mature

A Study of Interpersonal Relations in a Jamaican Community Yehudi A. Cohen, 1952 Communication Research Measures II, 2009 Expanding and building on the measures included in the original 1994 volume *Communication Research Measures II A Sourcebook* provides new measures in mass interpersonal instructional and group organizational communication areas and highlights work in newer subdisciplines in communication including intercultural family and health It also includes measures from outside the communication discipline that have been employed in communication research The measures profiled here are the best of the best from the early 1990s through today They are models for future scale development as well

Human Communication Theory and Research Robert L. Heath, Jennings Bryant, 2013-06-17 *Human Communication Theory and Research* introduces students to the growing body of theory and research in communication demonstrating the integration between the communication efforts of interpersonal organizational and mediated settings This second edition builds from the foundation of the original volume to demonstrate the rich array of theories theoretical connections and research findings that drive the communication discipline Robert L Heath and Jennings Bryant have added a chapter on new communication technologies and have increased depth throughout the volume particularly in the areas of social meaning critical theory and cultural studies and organizational communication The chapters herein are arranged to provide insight into the breadth of studies unique to communication acknowledging along the way the contributions of researchers from psychology political science and sociology Heath and Bryant chart developments and linkages within and between ways of looking at communication The volume establishes an orientation for the social scientific study of communication discussing principles of research and outlining the requirements for the development and evaluation of theories Appropriate for use in communication theory courses at the advanced undergraduate and graduate level this text offers students insights to understanding the issues and possible answers to the question of what communication is in all forms and contexts

Researching Interpersonal Relationships Jimmie Manning, Adrienne D. Kunkel, 2014 This title explores and demonstrates methodological tools and theories used to guide relationships research especially studies of interpersonal communication Featuring chapters illustrated by research studies conducted by leading communication scholars this book introduces both classic and cutting edge methodological approaches to qualitative inquiry and analysis Each chapter highlights a particular method context and analytical tool

Family Communication as... Exploring Metaphors for Family Communication Jimmie Manning, Jordan Allen, Katherine J

Denker, 2022-12-01 An innovative textbook that presents a novel and compelling examination of family communication studies. Family Communication as Exploring Metaphors for Family Communication presents a series of metaphors through which students explore the nuances and complexities of family interaction. With a unique approach to the foundational theories and real world practices of family communication, this easily accessible textbook helps students develop a clear understanding of what family communication is and what it can be. Contributions by both prominent and newer scholars theorize about family communication, offer new perspectives, challenge long held assumptions, and describe original research to provide students with an up to date representation of the leading thinking in the field. Each concise chapter focuses on a specific element of family life, engaging key metaphors to stimulate classroom discussion about family in contexts ranging from ritual and embodiment to estrangement and heteronormativity. Throughout the text, students examine family metaphorically as memory, as social identity, as estrangement, as loss, as resilience, as raced, and more. Presents a metaphorical examination of creating, materializing, contextualizing, politicizing, and complicating family communication. Offers an innovative alternative to standard textbooks on the subject. Features a thorough introduction advocating for the use of metaphors in teaching. Discusses the key topics and theoretical approaches that have defined the field. Includes detailed references, additional readings, and an instructor's companion website. Family Communication as Exploring Metaphors for Family Communication is an excellent textbook for advanced undergraduate and graduate students in courses including family communication, family studies, interpersonal communication, relational communication, and communication theory. It is also a highly useful resource for scholars in fields such as media studies, psychology, sociology, social work, counseling, and public health.
