Diversity, Equity, and Inclusive Education: A Voice from the Margins C.P. Gause, 2011-07-23 The United States is more ideologically philosophically culturally linguistically racially and ethnically diverse than she has been in any given point in her history however many of her citizens are currently living in a state of fear What stands out the most is how we allow this fear to take over our lives in multiple ways We fear our neighbors therefore we do not engage them We fear young people and the way they look therefore we do not have conversations with them We fear the possibility of terrorists attacks therefore we utilize eavesdropping and surveillance devices on our citizens There are some of us who fear the lost of gun rights therefore we stockpile weapons We fear anything that is different from who we are and what we believe This nation has at many points within our history become more united because of our fear however as our borders physical and virtual become less protective and the opportunities to connect more via the digital world expand we must educate our citizenry to not live in fear but in hope To teach learn and lead democratically requires the individual to engage in problem posing and in critiquing taken for granted narratives of power and privilege Critical change occurs with significant self sacrifice potential alienation rejection and costly consequences Educators must do justice to the larger social public and institutional responsibility of our positions and we must exercise courage in creating opportunities for change

Diversity Equity and Inclusive Education A Voice from the Margins provides the space and opportunity to move beyond a state of fear into a state of organic transformation a place where fear creates the energy to speak those things that are not as though they were

Critical Pedagogy in the Twenty-First Century Curry Malott, Brad J. Porfilio, 2011-03-01 This book simultaneously provides multiple analyses of critical pedagogy in the twenty first century while showcasing the scholarship of this new generation of critical scholar educators Needless to say the writers herein represent just a small subset of a much larger movement for critical transformation and a more humane less Eurocentric less paternalistic less homophobic less patriarchal less exploitative and less violent world This volume highlights the finding that rigorous critical pedagogical approaches to education while still marginalized in many contexts are being used in increasingly more classrooms for the benefit of student learning contributing however indirectly to the larger struggle against the barbarism of industrial neoliberal militarized destructiveness The challenge for critical pedagogy in the twenty first century from this point of view includes contributing to the manifestation of a truly global critical pedagogy that is epistemologically democratic and against human suffering and capitalist exploitation These rigorous democratic critical standards for measuring the value of our

scholarship including this volume of essays should be the same that we use to critique and transform the larger society in which we live and work

Living Indigenous Feminism Carolyn Ross Johnston, Terri McKinney Baker, 2025-06-15 Living Indigenous Feminism is a bricolage of historical research and historiography poetry interviews biographies memoirs and stories both traditional and contemporary This book poses the question of what southern and western history would look like if viewed through the eyes of a diverse sample of Indigenous women The answer is that these Indigenous women have been living feminism in ways that shed new light on these histories while showing how their lives and visions can offer fresh guidance for turbulent present and the shared future we are making now This book features Native women of many different nations cultures and regions including Cherokee Choctaw Comanche Seminole Seneca Iroquois Navajo Salish and Kootenai Kiowa Muscogee Creek Yankton Dakota Sioux Fort Sill Apache Cheyenne Red Lake Ojibwe Ho Chunk Seneca Tonawanda Band Standing Rock Sioux Lakota Sioux Blackfeet Laguna Pueblo and San Ildefonso Pueblo Indigenous women the authors contend have always lived a pattern of gender power and balance Indigenous feminism is traditional and at the same time a source of fresh insights about how we can sustain balanced inclusive meaningful lives through times of challenge and change Although traditional academic scholarship is an individualistic and solitary venture this approach is relational and organic with the living Indigenous women who shared their stories with them and with the Indigenous women who lived before them whom the authors met on the pages of scattered historical records Their stories suggest powerful new meanings to what living feminism can do when we do it together
