Roberts, Charles J. Elfer, 2018-07-01 Teaching and learning through Hollywood or commercial film productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century Purposeful and effective instruction through film however is not problem free and there are many challenges that accompany classroom applications of Hollywood motion pictures In response to the problems and possibilities associated with teaching through film we have collaboratively developed a collection of practical classroom ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms We believe that film can serve as a powerful tool in the social studies classroom and where appropriately utilized foster critical thinking and civic mindedness The College Career and Civic Life C3 framework represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking reading and writing We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute Our hope is that this edited book might play a small role in the larger project of supporting practitioners specifically K 12 teachers of United States history by offering a collection of classroom ready tools based on the Hollywood or History strategy and designed to foster historical inquiry through the careful use of historically themed motion pictures The book consists of K 5 and 6 12 lesson plans addressing the following historical eras Adapted from UCLA National Center for History in Schools

Does God Make a Difference? Warren Nord, 2010-11-10 Most public schools avoid teaching their students about religion and university students must enroll in religious studies courses in order to learn about it Warren Nord shows that these practices are not religiously neutral in fact they border on secular indoctrination Nord uses an examination of textbooks to make a case for the study of religion in schools and universities and explains how such study came to be neglected He puts forward a number of arguments for taking religion seriously in the curriculum most importantly that a liberal education and critical thinking require it

Debunking Howard Zinn Mary Grabar, 2019-08-20 Howard

Zinn's *A People's History of the United States* has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn*, which demolishes Zinn's Marxist talking points that now dominate American education. In *Debunking Howard Zinn*, you'll learn contra Zinn: How Columbus was not a genocidal maniac and was in fact a defender of Indians. Why the American Indians were not feminist, communist, sexual revolutionaries ahead of their time. How the United States was founded to protect liberty, not white males' ill-gotten wealth. Why Americans of the Greatest Generation were not the equivalent of Nazi war criminals. How the Viet Cong were not well-meaning community leaders advocating for local self-rule. Why the Black Panthers were not civil rights leaders. Grabar also reveals Zinn's bag of dishonest rhetorical tricks, his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If you care about America's past and our future, you need this book.

Data Book of Social Studies Materials and Resources, 1981 **New York Times Saturday Review of Books and Art**, 1970 *Keeping the Republic* Christine Barbour, Gerald C. Wright, 2025-02-22 *Keeping the Republic* draws students into the study of American politics, showing them how to think critically about who gets what and how, while exploring the twin themes of power and citizenship. Throughout the text and its features, authors Christine Barbour and Gerald C. Wright reveal how to effectively apply critical thinking skills to the political information encountered every day. With students living through one of the most challenging periods in American life, the Twelfth Edition is a much-needed resource to help them make sense of politics in America today and become savvy consumers of political information.

48 Liberal Lies About American History Larry Schweikart, 2008-09-04 A historian debunks four dozen PC myths about our nation's past. Over the last forty years, history textbooks have become more and more politically correct and distorted about our country's past, argues professor Larry Schweikart. The result, he says, is that students graduate from high school and even college with twisted beliefs about economics, foreign policy, war, religion, race relations, and many other subjects. As he did in his popular *A Patriot's History of the United States*, Professor Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted books by name and debunks forty-eight common myths. A sample: The founders wanted to create a wall of separation between church and state. Lincoln issued the Emancipation Proclamation only because he needed black soldiers. Truman ordered the bombing of Hiroshima to intimidate the Soviets with atomic diplomacy. Mikhail Gorbachev, not Ronald Reagan, was responsible for ending the Cold War. America's past, though not perfect, is far more admirable than you were probably taught. *American Book Publishing Record* R.R. Bowker Company, 1978
