Amnesia Other Short Stories Heare:

Adam's Eves and Other Short Stories by Don Wynne Don Wynne, Dimas Estrada, John Borowski, 2008-10-01 *You Are Not Here and Other Works of Buddhist Fiction* Keith Kachtick, 2006-04-24 2004 s Nixon Under the Bodhi Tree and Other Works of Buddhist Fiction was hailed as a milestone and an embarrassment of literary riches Its sequel proves that this new genre is here to stay Edited by Keith Kachtick the author of Hungry Ghost A Novel A New York Times Notable Book You Are Not Here and Other Works of Buddhist Fiction offers even more sparkling and transcendent work from some of fiction s famous names alongside names you ve never heard before but surely will again Book jacket *Burning Desire and Other Short Stories* Neil Butter, 2010-07-10 BURNING DESIRE and other short stories A mixture of Saki and Roald Dahl was the description by one reader of the author s previous collection But not for maiden aunts was another Now here are 20 more short stories and skits funny often scandalous and with a strong flavour of absurdity So feelings become inflamed in Burning Desire entrance to the Pearly Gates has unexpected rewards a Wedding Toast contains startling revelations and how do you deal with that suspicious package you find in someone else s car A psychiatrist is mystified by his strange patient a head teacher plans a remarkable way of getting rid of awful parents a catty dispute between neighbours gets increasingly irate a taxi driver discovers that he has a most unusual passenger a boy is torn between loving his teacher and loving her parrot a girl friend dumps her boy friend or does she Many of these and other stories and skits come with the author s speciality a twist **The Exotic Other and Negotiation of Tibetan Self** Kamila Hladíková, 2013-12-31 This study examines various representations of Tibet in Tibetan and Chinese fiction from the 1980s With its analysis of some of the first Tibetan short stories published approximately a decade after the end of the Cultural Revolution it greatly contributes to the scholarly research of the rise of modern Tibetan literature The image of Tibet that appears in the works of Tibetan authors is there compared with the Chinese representations of Tibet from the same period The analysis is informed by postcolonial theories of literature and is focused mainly on the stereotypes that appear in representation of Tibet both in China and in the west The primary aim of this study is to examine the influence of such stereotypes on Tibetan literary negotiations of their own newly reshaped identity Studie se zab v zobrazov n Tibetu v tibetsk a nsk literatu e o Tibetu z 80 let 20 stolet Prost ednictv m anal zy tibetsk ch pov dek vznikaj c ch v dob po te n ho formov n modern tibetsk literatury po skon en kulturn revoluce mapuje samotn vznik modern literatury v Tibetu Obraz Tibetu kter se objevuje v d lech tibetsk ch autor je zde srovn v n s vyobrazen m Tibetu v d le nsk ch autor tvo c ch ve stejn m obdob Anal za vych zej c z postkoloni ln teorie literatury se zam uje p edev m na stereotypy je panuj v zobrazov n Tibetu jak v n tak na Z pad a klade si za c l posoudit nakolik tyto stereotypy ovliv uj vlastn p edstavy autor o tibetskosti a nakolik se odr ej v nov utv en modern tibetsk identit Beware of the Other Side(s) Heike Schwarz, 2014-03-15 This interdisciplinary study examines the still vivid phenomenon of the most controversial psychiatric diagnosis in the United States multiple personality disorder now called dissociative identity disorder This syndrome

comprehends the occurrence of two or more distinct identities that take control of a person's behavior paired with an inexplicable memory loss. Synthesizing the fields of psychiatry and the dynamics of the disorder with its influential representation in American fiction, the study researches how psychiatry and fiction mutually shaped a mysterious syndrome and how this reciprocal process created a genre fiction of its own that persists until today in a very distinct self-referential mode.

Theory and Practice of Psychiatry Bruce J. Cohen, 2003-02-06 Based on years of teaching psychiatry to medical students and residents, this single-authored textbook offers a conversational yet detailed guide to modern psychiatric theory and practice. Exploring various approaches to psychiatric disorders including neurobiology, dimensional personality assessment, behavioral science, and psychodynamic and cognitive theories, it lucidly illustrates each approach's strengths and weaknesses and suggests how clinicians can interweave them in working with patients. Using clinical vignettes and recent research findings to illustrate the connections between phenomenology, pathophysiology, and treatment, it covers all of the major psychiatric disorders and includes tables listing their DSM-IV-TR diagnostic criteria. The book offers balanced coverage of subjects that receive scant attention in other introductory textbooks, including the limitations of the DSM-IV categorical approach to psychiatric diagnosis, controversies surrounding the dissociative disorders and recovered memories, and the prescription of stimulant medications to children with suspected attention deficit hyperactivity disorder. Later chapters provide practical guidelines for estimating a patient's risk of suicide and violence and for assessing competence to consent to medical or psychiatric treatment. In eschewing a dry recitation of clinical syndromes for an engaging discussion aimed at teaching the reader how to think psychiatrically, the book will appeal to medical students, psychiatric residents, mental health clinicians, and primary care physicians.

Monstrosity in Games and Play Sarah Stang, Mikko Meriläinen, Joleen Blom, Lobna Hassan, 2025-10-01 Monsters fascinate us. From ancient folklore to contemporary digital games, they are at the core of the stories we tell. They reflect our fears, deepest desires, and the monstrosity hidden within ourselves. Monsters hold a mirror to our contemporary society and reveal who we truly are. This edited collection examines monsters and monstrosity in games and play. Monsters are a key feature of most games: we fight, kill, and eat them, and sometimes we become them. However, monsters in games and play are not only entertaining but also a reflection of the monstrosity of our world. In this book, twenty-two scholars explore how themes such as mental health, colonialism, individualism, disability, gender, sexuality, racism, and exclusion are reflected in the monsters we interact with in games, play, and our daily lives, both online and offline. *Monstrosity in Games and Play* is recommended to readers interested in the monstrous in contemporary game cultures and their surrounding societies.

Hospital Corps Quarterly, 1945

Zen Physics David Darling, 2012-08 Acclaimed astrophysicist David Darling comes well armed with both science and mysticism to provide a theory of consciousness and its final conclusion. The science of death and the logic of reincarnation give pause to our current thinking process. Yet after reading this book, you can nod your head in understanding and move on more mature, perhaps in knowing we do live on in some sense.

Just not in the way we most wished for **Popular Science** ,1933-08 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better *The Complete Red Moon Trilogy science fiction, fantasy, time travel: Books 1-3* Micah Caida,2016-04-27 amazingly original and unexpected I loved every second of reading it Alexandra F 15 who has read The Book Thief The Hunger Games and Anna Karenina Note Entire series was updated in 2022 to make all point of views 3rd person we listened to readers who were confused with a mix of first and third person POVs Rayen awakened in a strange place called Albuquerque but had no memory of how she landed in a desert where she was captured While the authorities search for a way to identify her she s sent to an unusual institution where she s shocked to see real paper While stuck in a computer storage room with two arguing students a power inside Rayen manifests unexpectedly and opens a portal sending her and unlikely sidekicks to a place harboring a deadly secret that can destroy this world and the future All she wants is to regain her memory and go home The only person who can help her is a young elite fighter of the future who is trapped in a fantastical world where killing the enemy and surviving is all that matters With one impulsive action she believed would save a child she proves she is his enemy Micah Caida is a blend of two voices New York Times Bestseller Dianna Love and USA Today Bestseller Mary Buckham A breathtaking debut trilogy where Isaac Asimov meets Hunger Games Wonderfully written I ve never read anything like it Excellent Adam age 28 As the thrilling conclusion to the Red Moon series Time Lock does not disappoint and will leave you in awe perfection on paper Angela Catucci college student The last book in this trilogy blew my mind Drop the mic Walk away Goodreads **From the Couch to the Lab** Aikaterini Fotopoulou,Donald Pfaff,Martin A. Conway,2012-05-17 Can the psychodynamics of the mind be correlated with neurodynamic processes in the brain The book revisits a question that scientists and psychoanalysts have been asking for more than a century It brings together experts from Psychology Psychoanalysis Neuroscience Philosophy Psychiatry and Neurology to consider this question Progress in Episodic Memory Research Ekrem Dere,Armin Zlomuzica,Angelica Staniloiu,Hans J. Markowitsch,2016-05-25 Episodic memory refers to the ability to remember personal experiences in terms of what happened and where and when it happened Humans are also able to remember the specific perceptions emotions and thoughts they had during a particular experience This highly sophisticated and unique memory system is extremely sensitive to cerebral aging neurodegenerative and neuropsychiatric diseases The field of episodic memory research is a continuously expanding and fascinating area that unites a broad spectrum of scientists who represent a variety of research disciplines including neurobiology medicine psychology and philosophy Nevertheless important questions still remain to be addressed This research topic on the Progress in Episodic Memory Research covers past and current directions in research dedicated to the neurobiology neuropathology development measurement and treatment of episodic memory **Translating Memories of Violent Pasts** Claudia Jünke,Désirée Schyns,2023-08-31 This collection brings

together work from Memory Studies and Translation Studies to explore the role of interlingual and intercultural translation for unpacking transcultural memory dynamics focusing on memories of violent pasts across different literary genres The book explores the potential of a research agenda that links narrower definitions of translation with broader notions of transfer transmission and relocation across temporal and cultural borders investigating the nuanced theoretical and conceptual dimensions at the intersection of memory and translation The volume explores memories of violent pasts legacies of war genocide dictatorship and exile across different genres and media including testimony autobiography novels and graphic novels The collection engages in central questions at the interface of Memory Studies and Translation Studies including whether traumatic historical experiences that resist representation can be translated what happens when texts that negotiate such memories are translated into other languages and cultures and what role translation strategies translators and agents of translations play in memory across borders The volume will be of particular interest to students and scholars in Translation Studies Memory Studies and Comparative Literature

Gender and Environmental Education: Feminist and Other(ed) Perspectives Annette Gough, 2024-06-03 This timely book provides a starting point for critical analysis and discourse about the status of gendered perspectives in environmental education research Through bringing together selected writings of Annette Gough it documents the evolving discussions of gender in environmental education research since the mid 1990s from its origins in putting women on the agenda through to women's relationships with nature and ecofeminism as well as writings that engage with queer theory intersectionality assemblages new materialisms posthumanism and the more than human The book is both a collection of Annette Gough and her collaborators writings around these themes and her reflections on the transitions that have occurred in the field of environmental education related to gender since the late 1980s as well as her deliberations on future directions An important new addition to the World Library of Educationalists this book foregrounds women their environmental perspectives and feminist and other gendered research which have been marginalised for too long in environmental education

The Critic, 1881 **The Encyclopedia of Memory and Memory Disorders** Carol Turkington, Joseph Harris, 2002 More than 600 clear concise entries explore such topics as the anatomy of the brain the role of the brain in the central nervous system how thoughts feelings and memories develop the effects of brain injuries and the impact of major brain diseases The glossary bibliography and appendixes have also been thoroughly revised

Postmodern Fiction in Canada Theo D'Haen, Hans Bertens, 1992 *The Whole Mess and Other Stories* Jack Skillingstead, 2023-11-07 What does it mean to be human in a universe of shifting sometimes terrifying realities Eighteen stories from Jack Skillingstead's second decade of publishing feature intense and surprising explorations of who we are who we wish to be and who we can't be In *The Whole Mess* a genius math professor solves a multiverse equation only to find himself pursued by ancient Masters across the many iterations of his could have been lives Straconia gives us a Kafkaesque world where all the lost things go including people who must first find themselves before they can find a way back home

Tribute looks at a post NASA space race that goes nowhere until an unlikely pair of marooned astronauts find each other and the future Also included in this collection is The Writing Life a self reflection on memory ambition and imagination in the formation of one writer s journey **Critic and Good Literature** Jeannette Leonard Gilder, Joseph Benson Gilder, 1881
