Becoming the Lost Colony Charles R. Ewen, E. Thomson Shields, Jr., 2024-04-24 Headlines declare after each new hint of evidence that the Lost Colony the English colonists left on Roanoke Island in 1587 including Virginia Dare has been found None of these claims pass muster as the historical archaeological and literary evidence presented here demonstrate This book analyzes several hypotheses and demonstrates why none have been shown to be more probable than any of the others To understand how the 1587 colonists became The Lost Colony the authors recount the history of the English expeditions in the 1580s and the original searches for the colonists from 1590 until the 1620s The archaeological evidence gathered from the 19th through the 21st centuries is presented The book then examines how the disappearance of the colonists has been portrayed in pseudoscience fiction and popular culture from the beginnings until the present day In the end readers will have all the data they need to judge new claims concerning the fate of The Lost Colony

The Deerfield Massacre James L. Swanson, 2025-02-04 From the New York Times bestselling author of Manhunt now an Apple TV series and in the tradition of Empire of the Summer Moon comes a vivid account The Wall Street Journal of a forgotten chapter in American history the deadly confrontation between natives and colonists in Massachusetts in 1704 and the tragic saga that unfolded Once it was one of the most infamous events in early American history Today it has been nearly forgotten In an obscure two hundred year old museum in a little town in western Massachusetts there stands what once was the most revered relic from the history of early New England the massive tomahawk scarred door that came to symbolize the notorious Deerfield Massacre of 1704 This impregnable barricade known to early Americans as The Old Indian Door constructed from double thick planks of Massachusetts oak and studded with hand wrought iron nails to repel the tomahawk blades wielded by several attacking Native tribes is the sole surviving artifact from one of the most dramatic moments in colonial American history In the leap year of 1704 on the cold snowy night of February 29 hundreds of Indians and their French allies swept down on an isolated frontier outpost to slaughter or capture its inhabitants The sacking of Deerfield led to one of the greatest sagas of survival sacrifice family and faith ever told in North America One hundred and twelve survivors including their fearless minister the Reverend John Williams were captured and forced to march three hundred miles north into enemy territory in Canada Any captive who faltered or became too weak to continue the journey including Williams s own wife fell under the tomahawk or war club Survivors of the march willed themselves to live and endured captivity Ransomed by the royal governor of Massachusetts the captives later returned home

to Deerfield rebuilt their town and for the rest of their lives told the incredible tale The memoir of Rev Williams The Redeemed Captive published soon after his liberation became one of the first bestselling books in American history and remains a literary classic The Old Indian Door is a touchstone that conjures up one of the most dramatic and inspiring stories of colonial America Now in this immersive and memorable book and with his gifts of great storytelling and penetrating insight James Swanson has given us a compelling account of an unjustly forgotten episode in American history Jon Meacham Pulitzer Prize winning author of And There Was Light *Between Two Worlds* Malcolm Gaskill,2014 In the 1600s over 350 000 intrepid English men women and children migrated to America leaving behind their homeland for an uncertain future Whether they settled in Jamestown Salem or Barbados these migrants entrepreneurs soldiers and pilgrims alike faced one incontrovertible truth England was a very very long way away In *Between Two Worlds* celebrated historian Malcolm Gaskill tells the sweeping story of the English experience in America during the first century of colonization Following a large and varied cast of visionaries and heretics merchants and warriors and slaves and re *An Uncommon Cape* Eleanor Phillips Brackbill,2012-09-01 Three mysteries precipitate an investigation into an otherwise ordinary suburban property revealing a past inextricably woven into four centuries of American history When Eleanor Phillips Brackbill bought her suburban Westchester house in 2000 three mysteries came with it First from the former owner came the information that the 1930s house was a Sears house or something like that Thrilled to think it might be a Sears Roebuck Co mail order house Brackbill was determined to find evidence to prove it She found instead a house pedigree of a different sort Second and even more provocative was the discovery of several iron stakes protruding from the propertys enormous granite outcropping bigger in square footage than the house itself When queried about them the former owner told her Someone a long time ago kept monkeys there chained to the stakes Monkeys Was this some kind of suburban legend A third mystery came to light at closing when a building inspectors letter contained a reference to the house having had at one time a different address Why would the house have had another address Her curiosity aroused and intent upon finding the facts Brackbill gradually peeled back layers of history allowing the house and the land to tell their stories and uncovering a past inextricably woven into four centuries of American history At the same time she found thirty two owners across 350 years who had just one thing in common ownership of a particular parcel of land *An Uncommon Cape* not only tells the story of an eight year odyssey of fact finding and speculation but also answers the broader question What came before and through material presented in twenty two sidebars offers readers *Apalachicola Valley Archaeology, Volume 2* Nancy Marie White,2024-05 Apalachicola Valley Archaeology is a major holistic synthesis of the archaeological record and what is known or speculated about the ancient Apalachicola and lower Chattahoochee Valley region of northwest Florida southeast Alabama and southwest Georgia Volume 1 coverage spans from the time of the first human settlement around 14 000 years ago to the Middle Woodland period ending about AD 700 Author Nancy Marie White had devoted her career to this archaeologically neglected region and she notes that

it is environmentally and culturally different from better known regions nearby Early chapters relate the individual ecosystems and the types of typical and unusual material culture including stone ceramic bone shell soils and plants Other chapters are devoted to the archaeological Paleoindian Archaic Woodland periods Topics include migration settlement sites artifacts and material culture subsistence and lifeways culture and society economics warfare and rituals White s prodigious work reveals that Paleoindian habitation was more extensive than once assumed Archaic sites were widespread and those societies persisted through the first global warming when the Ice Age ended Besides new stone technologies pottery appeared in the Late Archaic period Extensive inland and coastal settlement is documented Development of elaborate religious or ritual systems is suggested by Early Woodland times when the first burial mounds appear Succeeding Middle Woodland societies expanded this mortuary ceremony in about forty mounds In the Middle Woodland the complex pottery of the concurrent Swift Creek and the early Weeden Island ceramic series as well as the imported exotic objects show an increased fascination with the ornate and unusual Native American lifeways continued with gathering fishing hunting subsistence systems similar to those of their ancestors The usefulness of the information to modern society to understand human impacts on environments and vice versa caps the volume
