Assessment Technologies Institute ATI exams are commonly used in many nursing programs as a tool to help predict success. At a private Midwestern university a retrospective study was conducted to determine if a relationship existed between performance on the ATI exams and NCLEX RN success. Two graduating classes n 37 of pre licensure students were studied to determine the accuracy of predicting NCLEX RN success using the ATI exams. Data were collected on student performance on ten ATI exam scores: Test of Essential Academic Skills (TEAS) test, Critical Thinking Composite, Fundamentals, Pharmacology, Pediatrics, Maternal Newborn, Mental Health, Medical Surgical, Community, and the Registered Nurse (RN) Predictor Exam. A questionnaire was sent to faculty administering the ATI to examine the emphasis placed on the exams. While the ATI exam scores strongly correlate with NCLEX RN success, the results do not appear to be predictive of NCLEX RN success within the sample size of this study.
