Bbc News Joseph Stalin:

In the Mind of Stalin James Greensmith, 2023-04-06 On 1 October 1939 Winston Churchill First Lord of the Admiralty and soon to be the UK's wartime leader described Russia as a riddle wrapped in a mystery inside an enigma The same can certainly be said of Stalin How can this paradox of a man who on the one hand had once exhibited great tenderness and kindness to his daughter Svetlana and on the other sent millions including members of his own family to their deaths be explained It is impossible to quantify the total number of deaths attributable to the policies of Stalin but the Excess Mortality i.e. deaths over and above what would normally have been expected during the period in question gives an approximate figure in excess of 40 million However this is only part of the story of the amount of misery inflicted by the Stalin regime through torture deliberate starvation neglect separation from loved ones cold and hypothermia e.g. in the prisons of Siberia which is unquantifiable and unimaginable Svetlana confessed that she would never undertake to explain what motivated all my father's actions simply because I do not possess the psychological genius of Russian novelist Dostoevsky who knew how to penetrate into another man's soul and examine it from within Stalin's Great Purge Noah Berlatsky, 2012-10-05 This book provides historical background on Stalin's purges and explores controversies surrounding the purges It offers first hand accounts from those who experienced the effects of Stalin's purges One account describes a Ukrainian childhood during the famine while another essayist recalls childhood under Stalin's terror Nikita Khrushchev decries Stalin and the purges A young Russian woman remembers the Gulag Your readers will be forever changed by this compelling book *Russia* Angela Black, Debbie Nevins, Oleg Torchinsky, 2015-07-15 Russia is the world's largest country It has a vast history dating back more than one thousand years During its existence it has seen many wars different leaders and political confrontations Today Russia is an independent nation with many traditions Its people are diverse This book takes an in depth look at Russia and describes how it became the country it is today All books of the critically acclaimed Cultures of the World series ensure an immersive experience by offering vibrant photographs with descriptive nonfiction narratives and interactive activities such as creating an authentic traditional dish from an easy to follow recipe Copious maps and detailed timelines present the past and present of the country while exploration of the art and architecture help your readers to understand why diversity is the spice of Life *Hitler's and Stalin's Misuse of Science* S. D. Tucker, 2023-12-30 S. D. Tucker delves into the Nazi and Soviet historical hijacking of science by extreme ideologies revealing the dangerous consequences of pseudoscientific narratives in today's world In today's world science itself which we are constantly being told is a neutral vehicle for wholly objective ideas and theories is increasingly being hijacked and abused by the toxic modern cult of identity politics of both left and right But should we be too surprised by any of this No because this exact same sorry process has happened time and again before under the rule of totalitarian political cults like the Nazis and the Soviets both of which vigorously promoted various pseudoscientific theories of Aryan Science and Marxist Science on the sole grounds that they were ideologically correct as

opposed to being factually so Nazi racial pseudoscience and belief in nonsense like the World Ice Theory which claimed that stars did not really exist and were actually just reflections of the sun off giant floating space icebergs were widely encouraged in the Third Reich and used for long term military weather forecasting purposes Likewise the ideas of the renegade biologist Trofim Lysenko who developed a deluded anti capitalist theory of genetics opposed to Darwin s were responsible for widespread famine in the USSR when Stalin allowed him to apply them practically towards the nation s crop harvests Those academics and functionaries who disputed these clearly false pseudoscientific notions often found themselves in deep trouble or ultimately dead In this incisive and challenging study author S D Tucker explores the often weird and fanciful theories that were proposed and took hold under these extreme regimes and in doing so sends a word of warning to the modern world of the internet and social media where similar bizarre ideas are expounded and consumed with frightening gullibility Everywhere from Western universities schools and hospitals to Vladimir Putin s Russia absurd stories of sexist glaciers racist gravity socialist trees and NATO backed mutant extra terrestrial potatoes are being promoted as items of politically mandated scientific fact by compliant collaborators and credulous social media followers Pseudoscientific narratives are even now used to justify the 2022 invasion of Ukraine much as they were once used to justify the Nazi conquest of Europe or the spread of Communist revolution across the globe Disintegration: Bad Love, Collective Suicide, and the Idols of Imperial Twilight Mark P. Worrell, 2020-02-17 Together again for the first time Marx and Durkheim join forces in the pages of Disintegration Bad Love Collective Suicide and the Idols of Imperial Twilight for a dialectical exploration of the moral economy of neoliberalism animated as it is not only by the capitalist chase for surplus value but also by an immortal vortex of sacred powers Classical sociology and psychoanalysis are reconstituted within Hegelian social ontology and dialectical method that differentiates between the ephemeral and free and the eternal and fixed aspects of modern life **Hundred Years of the Russian Revolution** Anuradha M. Chenoy, Archana Upadhyay, 2021-04-07 The book reflects upon the Russian Revolution of 1917 and the ensuing developments in Russia the rest of the former Soviet Union Central and Eastern Europe and elsewhere in the world It discusses the impact of the legacies of the Russian Revolution on political systems ideologies economic and social structures and culture The book answers some pertinent questions To what extent are these legacies relevant today for the contextualisation of memory politics social institutions and international relations How does an analysis of 1917 and its legacies contribute to the comparative study of revolutions and social change BBC World Service Gordon Johnston, Emma Robertson, 2019-11-14 This book is the first full length history of the BBC World Service from its interwar launch as short wave radio broadcasts for the British Empire to its twenty first century incarnation as the multi media global platform of the British Broadcasting Corporation The book provides insights into the BBC s working relationship with the Foreign Office the early years of the Empire Service and the role of the BBC during the Second World War In following the voice of the BBC through the Cold War and the contraction of the British empire the book

argues that debates about the work and purposes of the World Service have always involved deliberations about the future of the UK and its place in the world In current times these debates have been shaped by the British government's commitment to leave the European Union and the centrifugal currents in British politics which in the longer term threaten the integrity of the United Kingdom Through a detailed exploration of its past the book poses questions about the World Service's possible future and argues that for the BBC the question is not only what it means to be a global broadcaster as we enter the third decade of the twenty first century but what it means to be a national broadcaster in a divided kingdom *Kremlin Media Wars* Wendy Sloane, Aleksandra Raspopina, 2025-02-18 This unique volume brings together academics of Russian journalism and media with journalists and editors who reported or continue to report on the country to explore and reflect on the changing landscape for journalists in Russia or covering Russia and the increasing control exerted by the government on independent journalists Combining rigorous academic research with reflective practitioner essays the volume investigates the future of reporting in Russia and the implications for the future of the country It offers an understanding of the experience of independent journalists and media outlets in Russia as well as other individuals who experience censorship academics activists and examines how the current situation in Russia and people's experiences of censorship can inform both our theoretical understandings of censorship and information control in the context of the twenty first century digital technologies and the policymaking both inside and outside of Russia Offering important insight into what is happening within Russia's borders this volume will appeal to researchers and students of journalism political science international relations propaganda and censorship mass media as well as journalists and policymakers Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The European Union and Central Asia Alexander Warkotsch, 2010-10-25 In June 2007 the Council of the European Union EU adopted The EU in Central Asia Strategy for a New Partnership highlighting the growing importance of Central Asia to the EU This book examines the EU's policy towards the five Central Asian states of Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan in light of this Strategy The analysis focuses on the EU's Central Asia Strategy and provides an evaluation of the EU's performance in meeting its policy goals in the region It starts by looking at the EU as an actor and discusses the general framework of EU Central Asia cooperation The book goes on to focus on the Strategy's general strategic directions and in particular its set of concrete policy commitments and questions whether these are adequately designed and implemented so they are able to contribute to regional security and stability The book contributes to a better understanding for the pitfalls of overall stability in Central Asia as well as studies on European Union and International relations

CHENG, 2015-07-10 MAO Zedong was a Chinese communist leader and founder of the People's Republic of China He developed his own ideology and methodology known as Maoism or Mao Zedong Thought and his thought has a great influence in China or even overseas This

book aims at bringing together a group of scholars to address the uses of Mao in China PRC today with special reference to the Bo Xilai case It also provides insights and detail on how and what we know about modern China Contributing authors including a number of French scholars illustrate how Maoism influences and engages in government business sector or social life This timely volume will be of considerable interest to scholars journalists and those keen to better understand the changing values in China today Arguing with Socialists Glenn Beck,2020-04-07 A NEW YORK TIMES BESTSELLER The New York Times bestselling author of *The Great Reset* arms you to the teeth with information necessary to debunk the socialist arguments that have once again become popular and proves that the free market is the only way to go With his trademark humor Beck lampoons the resurgence of this bankrupt leftist philosophy with thousands of stories facts arguments and easy to understand graphics for anyone who is willing to ask the hard questions He shows that this new shiny socialism is just the same as the old one a costly and dangerous failure that leaves desperation poverty and bodies in its wake **The Long Shadow of World War II** Matthias Strohn,2021-08-31 2020 marks 75 years since the end of World War II yet even as the war slips from living memory its legacies continue to influence current political and military thinking This anthology will analyze these legacies for a number of countries and regions including China Russia the United States the Near East and Germany illustrating in detail how World War II is not merely a historical event but a defining moment for current military and political thinking around the globe This book will therefore be of interest for those interested in history but also political and military decision makers and followers of current political and military affairs **The Hidden Histories of War Crimes Trials** Kevin Heller,Gerry Simpson,2013-10 Several war crimes trials are well known to scholars but others have received far less attention This book assesses a number of these little studied trials to recognise institutional innovations clarify doctrinal debates and identify their general relevance to the development of international criminal law *Belarus* Patricia Levy,Michael Spilling,Caitlin Tessman,2018-04-15 Belarus as an official autonomous country only achieved independence in 1991 With its history full of conflict culture and many different rulers this former member of the Soviet Union must now face a future trying to balance influence and values from both the East and the West The people of Belarus have struggled to find a national identity but today they hold strong to their traditions language beliefs lifestyle and culture Readers will learn about historic and modern Belarus through detailed writing captivating photographs engaging sidebars and much more *Law, Rights and Ideology in Russia* Bill Bowring,2013-04-17 Law Rights and Ideology in Russia provides a rich examination of Russia's particular attitude to political liberalism the rule of law and rights The Dancer and the Devil John E. O'Neill,Sarah C. Wynne,2022-04-26 Communism must kill what it cannot control So for a century it has killed artists writers musicians and even dancers It kills them secretly using bioweapons and poison to escape accountability Among its victims was Anna Pavlova history's greatest dancer who was said to have God given wings and feet that never touched the ground But she defied Stalin and for that she had to die Her sudden death in Paris in 1931 was a mystery until

now *The Dancer and the Devil* traces Marxism's century long fascination with bioweapons from the Soviets leak of pneumonic plague in 1939 that nearly killed Stalin to leaks of anthrax at Kiev in 1972 and Yekaterinburg in 1979 from the leak of a flu in northeast China in 1977 that killed millions to the catastrophic COVID 19 leak from biolabs in Wuhan China. Marxism's dark past must not be a parent to the world's dark future. COMMUNIST CHINA PLAYED WITH FIRE AND THE WORLD IS BURNING. Nearly ten million people have died so far from the mysterious Covid 19 virus. These dead follow a long line of thousands of other brave souls stretching back nearly a century who also suffered mysterious natural deaths including dancers, writers, saints, and heroes. These honored dead should not be forgotten by amnesiac government trying to avoid inconvenient truth. The dead and those who remember and loved them deserve answers to two great questions: How? Why? *The Dancer and the Devil* answers these questions. It tracks a century of Soviet and then Chinese Communist poisons and bioweapons through their development and intentional use on talented artists and heroes like Anna Pavlova, Maxim Gorky, Raoul Wallenberg, and Alexis Navalny. It then tracks leaks of bioweapons beginning in Saratov, Russia in 1939 and Soviet Yekaterinburg in 1979 through Chinese leaks concluding in the recent concealed leak of the manufactured bioweapon Covid 19 from the military lab in Wuhan, China. Stalin, Putin, and Xi perpetrators of these vast crimes against humanity itself should not be allowed to escape responsibility. This book assembles the facts on these cowardly murderers, calling them to account for their heartless crimes against man, concluding in Covid 19. IR Theory, Historical Analogy, and Major Power War Hall Gardner, 2018-12-21. This book critically examines elements of America First nationalism, neo conservatism, neo realism, neo liberalism, environmental theories, and social constructionism by way of developing an alternative realist approach to the study of the origins of major power war. The author critiques concepts of polarity and sovereign decision making and diplomacy before developing the concept of highly uneven polycentrism. The book then develops a unique comparative historical approach that seeks to compare and contrast the pre World War I, pre World War II, and Cold War eras with the contemporary post Cold War period. It is argued that the US as it remains the leading global hegemon must fully engage in multilateral diplomacy with major friends and rivals alike in the establishment of differing forms of power sharing and joint sovereignty accords in order to prevent the global system from polarizing into two contending alliances more reminiscent of both the pre World War I and pre World War II periods than the new Cold War. **Nation-Building and Identity in the Post-Soviet Space** Rico Isaacs, Abel Polese, 2016-04-14. Nation building as a process is never complete and issues related to identity, nation state, and regime building are recurrent in the post Soviet region. This comparative inter disciplinary volume explores how nation building tools emerged and evolved over the last twenty years. Featuring in depth case studies from countries throughout the post Soviet space, it compares various aspects of nation building and identity formation projects. Approaching the issue from a variety of disciplines and geographical areas, contributors illustrate chapter by chapter how different state and non state actors utilise traditional instruments of nation construction in new ways while also developing

non traditional tools and strategies to provide a contemporary account of how nation formation efforts evolve and diverge

Conflict in the Nuba Mountains Samuel Totten, Amanda Grzyb, 2014-11-20 This book provides a comprehensive overview of the embattled Nuba Mountains of South Kordofan where the Government of Sudan committed genocide by attrition in the early 1990s and where violent conflict reignited again in 2011 A range of contributors scholars journalists and activists trace the genesis of the crisis from colonial era neglect to institutionalized insecurity emphasizing the failure of the 2005

Comprehensive Peace Agreement to address the political and social concerns of the Nuba people This volume is essential reading for anyone who wants to understand the nuances of the contemporary crisis in the Nuba Mountains and explore its potential solutions

The Downfall of America Jake Klausner, 2022-07-20 Far too often people are introduced to a caricature of the conservative movement before they've actually heard what the average conservative has to say In The Downfall of America Jake Klausner presents a conservative perspective on the forces currently working to tear down long standing American traditions and institutions The book outlines the ways in which the Left has waged war against traditional American values and even reality itself In an age of emotional appeals it makes the conservative argument using logic and statistics The challenge conveyed to the reader is simple but critical Don't let freedom be extinguished in your lifetime make sure that it's still there for your kids and theirs
