The Drone Age Michael J. Boyle, 2020 Over the last decade the rapid pace of innovation with drone technology has led to dozens of new and innovative commercial and scientific applications from Amazon drone deliveries to the patrolling of national parks with drones But what is less understood is how the spread of unmanned technology will change the patterns of war and peace in the future Will the use of drones produce a more stable world or will it lead to more conflict Will drones gradually replace humans on the battlefield or will they empower soldiers to act more precisely and humanely in crisis situations How will drones change surveillance around the world and at home The Drone Age traces the rise of unmanned technology and how it is reshaping our world The spread of drones is reordering geopolitical fault lines and providing new ways for states to test the nerves and strategic commitments of their rivals Drones are also allowing terrorist groups like the Islamic State to take to the skies and to level the playing field against their enemies Across the world the low financial cost of drones and the reduced risks faced by pilots is making drone technology an essential tool for militaries peacekeeping forces and even private companies From large surveillance drones to insect like micro drones unmanned technology is revolutionizing the way that states and non state actors compete with each other and is providing game changing benefits to those who can most rapidly adapt unmanned technology to their own purposes Yet peacekeeping and humanitarian organizations are also utilizing drones too An essential guide to a surprisingly complex disruptive force in world politics The Drone Age shows how the mastery of drone technology will become central to the ways that governments and non state actors seek power and influence in the coming decades *Banking on Beijing* Axel Dreher, Andreas Fuchs, Bradley Parks, Austin Strange, Michael J. ISRAEL AGAINST ALL ODDS Christopher H. K. Persaud, 2019-07-19 The Jewish people

have been and are indisputably the most persecuted people in the annals of history Today 53% of all hate crimes in the United States of America are directed at the Jewish People At the source of Jew hatred in its myriad forms is anti Semitism a sinister and vile mindset that has existed since Old Testament times or for thousands of years Anti Semites pervade social religious economic and political confines even mainstream Christianity and their dislike for people of Jewish ancestry often translate into mindless persecution and slaughter such as the atrocities perpetrated by the Nazis and their collaborators during the Second World War in the mid twentieth century whereby over six million Jews met their deaths in the Holocaust Anti Semitism instead of diminishing after the horrors of World War II showed no sign of abatement and it seems as though the entire world with a few exceptions like the Jewish nation of Israel itself and the United States of America is at loggerheads with Jews Even international peacekeeping and monitoring organizations like the United Nations and its numerous spinoff groups are known to discriminate sometimes barefacedly against Jews and Israel Middle Eastern Arabs and Muslims harbor intense loathing for Israel and Jews and notwithstanding their occupancy of over ninety nine percent of Middle Eastern territories seek to covet the less than one percent of land in which Israelis reside by any means necessary Despite the seemingly insurmountable hardships and challenges Jews have faced throughout the centuries they persist and even progress in today s societies They leave their enemies awe struck at their resilience and their will to survive It seems as though Israel and Jews in general enjoy a kind of divine providence ISRAEL and Jews around the world continue to stand tall today against all odds
