Report: Photocopier Costs

Of the three types of photocopiers, Carda, KD and Sebu, the purchase price of the Carda is the lowest. It is slightly more than \$600 but its expected running cost for the first two years is the highest with its warranty cost at the mid-level of the three photocopiers.

In comparison, the purchase price of the KD is a little more than that of the Carda which is \$700; whereas the expected running cost of the KD is much less than that of the Carda which is \$1,200. However, the KD's warranty cost is the highest of the three at \$200. In comparison the Sebu's purchase price is the highest of the three, i.e. \$1000, but it costs consumers the least in warranty and running for the first two years.

What's more, the expected total cost of the Carda for the initial 2-year period is \$1,900, more than that of both the Sebu and KD, \$1,800.

In conclusion it would be advisable to buy the KD photocopier which is generally more advantageous in cost than its competitors.
