The Forensic Psychologist's Report Writing

Guide Sarah Brown, Erica Bowen, David Prescott, 2017-05-08 The Forensic Psychologist's Reporting Writing Guide is the first book to provide both student trainees and practitioners with best practice guidance for one of the core skills of their role. Written and edited by an international range of experts from the UK, North America and Australasia, it provides clear advice on a range of assessments from psychometric tests to personality functioning and includes real life examples to illustrate key points. Uniquely, the book also offers guidance on the range of different client groups that forensic psychologists work with across both civil and legal contexts including juveniles, female clients, couples and those with cognitive impairments. From core principles to writing style to key issues, each chapter also includes a checklist of advice and further reading. Comprehensive and practical The Forensic Psychologist's Reporting Writing Guide is a user friendly companion to this critical and often overlooked skill and will be essential reading for both neophyte and experienced forensic psychologists alike.

Current Perspectives on the Anxiety Disorders Steven Taylor, Dean McKay, Jonathan S. Abramowitz, Gordon J. G. Asmundson, 2009-06-22 This book synthesizes the best of the new research related to anxiety disorders and how they are classified and diagnosed. Dr Dean McKay and his co editors have brought together leading authorities from multiple theoretical traditions to present the new directions and perspectives in the field of anxiety research. The contributors also discuss why current classification systems are inadequate and what revisions should be made. The book presents in depth discussions of how anxiety disorders are understood and assessed as well as potential new implications for DSM V. Key features: Covers the existing descriptive approach to the study of anxiety disorders, its adequacy in diagnosis and its limitations. Discusses the major theoretical and methodological approaches used to assess anxiety such as fear circuitry, psychometric methods, actigraphy, neuroscience and behavioral genetics. Reviews diagnostic and classification controversies that center on specific anxiety disorders such as obsessive compulsive disorder, social anxiety, posttraumatic stress disorder and worry. This book covers the full spectrum of theoretical and empirical approaches used in the study, diagnosis and classification of anxiety problems. In short, this volume serves as the authoritative reference book on the conceptualization and diagnosis of anxiety disorders.
