wives and servants struggled endlessly over authority Nor did some insidiously gendered public private distinction make the political subordination of women invisible Conflict Herzog argues doesn't corrode social order it's what social order usually consists in He uses the argument to impeach conservatives and their radical critics for sharing confused alternatives The social world Herzog brings vibrantly alive is much richer and much pricklier than many imagine div div *The Academy and Literature* ,1884 **American Education** ,1898
