

The background of the entire image is a dark, atmospheric photograph of a forest. Tall, slender, leafless trees stand in rows, their trunks creating a rhythmic pattern. The ground is covered in a layer of fallen leaves or low-lying vegetation. In the center of the image, a small, dark silhouette of a person stands, looking towards the viewer. The overall mood is mysterious and eerie.

The Shepherd of Hermas as Scriptura Non Grata Robert D. Heaton, 2023-04-24

Composed within the first Christian century by a Roman named Hermas the Shepherd remains a mysterious and underestimated book to scholars and laypeople alike Robert D Heaton argues that early Christians mainly received the Shepherd positively and accepted it unproblematically alongside texts that would ultimately be canonized requiring decisive actions to exclude it from the late emerging collection of texts now known as the New Testament Freshly evaluating the evidence for its popularity in patristic treatises manuscript recoveries and Christian material culture Heaton propounds an interpretation of the Shepherd of Hermas as a book meant to guide his readers toward salvation Ultimately Heaton depicts the loss of the Shepherd from the closed catalogue of Christian scriptures as a deliberate constrictive move by the fourth century Alexandrian bishop Athanasius who found it useless for his political theological and ecclesiological objectives and instead characterized it as a book favored by his heretical enemies While the book's detractors succeeded in derailing its diffusion for centuries the survival of the Shepherd today attests that many dissented from the church's final judgment about Hermas's text which portends a version of early Christianity that was definitively overridden by devotion to Christ himself rather than principally to his virtues
