Trenchless Technology Steven R. Kramer,2012-12-06 In the past decade the field of trenchless technology has expanded
rapidly in products equipment and utilization This expansion would not have occurred without a strong increase in economic
incentives to the user Because the operating environment has changed trenchless technology is often the preferred
alternative to traditional methods of digging holes and installing conduits The infrastructure in which we live has become
more congested and has to be shared by several users In addition the cost of restoring a road or landscaped area after
construction may be higher than the cost of installing the conduit These factors add to the need for trenchless technology the
ability to dig holes without disturbing the surface In some ways trenchless technology is a futuristic concept Ruth Krauss in a
children s book of definitions wrote A Hole Is to Dig But this statement is not necessarily true Today a hole could be to bore
