## **Business Studies September 2014 Question Paper From Eastern Cape:**

**Mobility and Migration Choices** Martin van der Velde, Ton van Naerssen, 2016-03-03 The crossing of national state borders is one of the most discussed issues of contemporary times and it poses many challenges for individual and collective identities This concerns both short distance mobility as well as long distance migration Choosing to move or not across international borders is a complex decision involving both cognitive and emotional processes This book tests the approach that three crucial thresholds need to be crossed before mobility occurs the individual s mindset about migrating the choice of destination and perception of crossing borders to that location and the specific routes and spatial trajectories available to get there Thus both borders and trajectories can act as thresholds to spatial moves The threshold approach with its focus on processes affecting whether when and where to move aims to understand the decision making process in all its dimensions in the hope that this will lead to a better understanding of the ways migrants conceive perceive and undertake their transnational journeys This book examines the three constitutive parts discerned in the cross border mobility decision making process people borders and trajectories and their interrelationships Illustrated by a global range of case studies it demonstrates that the relation between the three is not fixed but flexible and that decision making contains aspects of belonging instability security and volatility affecting their mobility or immobility

**Business and Social Crisis in Africa** Antoinette Handley, 2019-11-21 Much of the time when confronted with a crisis of national dimensions businesses do exactly what we expect them to do they look to their own survival Occasionally however firms in some contexts go beyond this Based on qualitative country based fieldwork in Eastern and Southern Africa Antoinette Handley examines how African businesses can be key responders to wider social and political crises often responding well in advance of the state She reveals the surprising ways in which business responses can be focused not on short term profits but instead on ways that assist society in resolving that crisis in the long term Taking African businesses in Kenya Uganda Botswana and South Africa as case studies this detailed exploration of the private sector response to crises including HIV AIDS and political violence crises introduces the concept of relative business autonomy exploring the conditions under which it can emerge and develop when and how it may decline and how it might contribute to a higher level of overall societal resilience

**Inclusive Businesses in Agriculture** Wytske Chamberlain, Ward Anseeuw, 2017-03-30 Inclusive business is hailed as a win win scenario for the development of poor communities yet there is little insight into how these inclusive businesses work and more importantly for whom This book aims for a thorough understanding of the range of inclusive businesses in agriculture by examining the structures they implement the actors involved and whether they are effectively inclusive of smallholders It presents a range of case studies and is therefore empirically based and practically oriented By offering a critical assessment of inclusive businesses overall it allows for a better perception of what works where and under which conditions It provides useful insights that will benefit smallholders agri businesses support groups policy makers and investors who are willing to promote

more inclusive businesses that foster a better integration of smallholders into commercial value chains and a more equitable and sustainable agricultural sector *Diverse Excursions in the Southeast: Paleozoic to Present* Ann E. Holmes, 2015-03-09

This volume contains field guides to the 2015 GSA Southeastern Section Meeting's field trips. The guides explore geologic history and visit four regional geologic provinces: the Nashville dome, Blue Ridge Valley, and Ridge and Cumberland Plateau.

Prisoners of the Past Steven Friedman, 2021-06-01 Building on the work of economic historian Douglass North and Ugandan political scholar Mahmood Mamdani, Friedman argues that the difficulties besetting South African democracy are legacies of the past, not products of the post-1994 era. South Africa's democracy is often seen as a story of bright beginnings gone astray: a pattern said to be common to Africa. The negotiated settlement of 1994, it is claimed, ended racial domination and created the foundation for a prosperous democracy, but greedy politicians betrayed the promise of a new society. In *Prisoners of the Past*, Steven Friedman astutely argues that this misreads the nature of contemporary South Africa. Building on the work of the economic historian Douglass North and the political thinker Mahmood Mamdani, Friedman shows that South African democracy's difficulties are legacies of the pre-1994 past. The settlement, which ushered in majority rule, left intact core features of the apartheid economy and society. The economy continues to exclude millions from its benefits, while racial hierarchies have proved stubborn. Apartheid is discredited, but the values of the pre-1948 colonial era, the period of British colonization, still dominate. Thus, South Africa's democracy supports free elections, civil liberties, and the rule of law, but also continues past patterns of exclusion and domination. Friedman reasons that this path dependence is not, as is often claimed, the result of constitutional compromises in 1994 that left domination untouched. This bargain was flawed because it brought not too much compromise but too little. Compromises extended political citizenship to all, but there were no similar bargains on economic and cultural change. Using the work of the radical sociologist Harold Wolpe, Friedman shows that only negotiations on a new economy and society can free South Africans from the prison of the past. *The Routledge Companion to Design Studies* Penny Sparke, Fiona Fisher, 2016-06-17 Since the 1990s, in response to dramatic transformations in the worlds of technology and the economy, design, a once relatively definable discipline complete with a set of sub-disciplines, has become unrecognizable. Consequently, design scholars have begun to address new issues, themes, and sub-disciplines, such as sustainable design, design for well-being, empathic design, design activism, design anthropology, and many more. The *Routledge Companion to Design Studies* charts this new expanded spectrum and embraces the wide range of scholarship relating to design, theoretical practice, related, and historical, that has emerged over the last four decades. Comprised of forty-three newly commissioned essays, the *Companion* is organized into the following six sections: Defining Design, Discipline, Process, Defining Design Objects, Spaces, Designing Identities, Gender, Sexuality, Age, Nation, Designing Society, Empathy, Responsibility, Consumption, the Everyday, Design and Politics, Activism, Intervention, Regulation, Designing the World, Globalization, Transnationalism, Translation. Contributors include both established and emerging scholars, and the essays offer an

international scope covering work emanating from and relating to design in the United Kingdom mainland Europe North America Asia Australasia and Africa This comprehensive collection makes an original and significant contribution to the field of Design Studies

**Political Economy of Post-apartheid South Africa** Gumede, Vusi, 2017-05-05 The book made up of three parts covers a wide spectrum of political economy issues on post apartheid South Africa Although the text is mainly descriptive to explain various areas of the political economy of post apartheid South Africa the first and the last parts provide illuminating insights on the kind of society that is emerging during the twenty one years of democracy in the country The book discusses important aspects of the political history of apartheid South Africa and the evolution of post apartheid society including an important recap of the history of southern Africa before colonialism The text is a comprehensive description of numerous political economy phenomena since South Africa gained its political independence and covers some important themes that have not been discussed in detail in other publications on post apartheid South Africa The book also updates earlier work of the author on policy and law making land and agriculture education and training as well as on poverty and inequality in post apartheid South Africa thereby providing a wide ranging overview of the socio economic development approaches followed by the successive post apartheid administrations Interestingly three chapters focus on various aspects of the post apartheid South African economy economic policies economic empowerment and industrial development Through the lens of the notion of democratic developmental state and taking apartheid colonialism as a point of departure the book suggests that so far post apartheid South Africa has mixed socio economic progress The author s extensive experience in the South African government ensures that the book has policy relevance while it is also theoretically sound The text is useful for anyone who wants to understand the totality of the policies and legislation as well as the political economy interventions pursued since 1994 by the South African Government

*Corporate governance practices promoting the sustainability of small, medium and microenterprises in South Africa* Medicine Magocha, Martha Matashu, 2025-02-21 Corporate governance practices promoting the sustainability of small medium and microenterprises in South Africa critically examines the intersection of corporate governance and the sustainability of small enterprises Addressing a significant gap in the literature this scholarly work explores whether and how corporate governance frameworks enhance the long term viability of small medium and microenterprises SMMEs Through rigorous analysis each chapter contributes unique insights to the ongoing discourse offering scholars a comprehensive understanding of governance mechanisms that foster resilience and growth in the SMME sector

Entrepreneurial Processes in the Era of Digital Transformation Diego Matricano, Laura Castaldi, William E. Jackson III, Lou Marino, 2023-10-24 The book deals with the issue of entrepreneurial processes in the era of digital transformation which is generating profound changes in the business environment blurring industry boundaries and creating unprecedented threats and opportunities for firms The phenomenon of digital transformation is simultaneously or alternatively observed from three different research perspectives The context in

which entrepreneurial processes take place and its impact on them The impact of digitalization on the initial phase of entrepreneurial processes The profiles and the roles of individuals in entrepreneurial processes considering the team dynamics as well The growth path addressed to carry out entrepreneurial processes      *Corruption Mocking at Justice* Alfred Sebahene, 2017-09-30 The church has a duty to fight corruption and injustice The increased awareness globally of corruption and the threat it poses to humanity has led many in the secular and Christian world to seek solutions to stamp out this scourge Recognizing the crisis caused by corruption in Tanzania his own country Dr Alfred Sebahene seeks to understand this social epidemic through the application of theological ethics As a result of the study the author identifies theological ethical guidelines that inform and add substance to the church's duty in the public sphere particularly in the fight against corruption and injustice      **Financial inclusion** Munacinga C. Simatele, 2022-02-15 Financial inclusion has been noted as a key driver of poverty alleviation and growth Yet most of the scholarly work that exists lacks a comprehensive discussion of how the poor interact with financial services and the channels through which such services can affect their livelihoods This book offers researchers who focus on financial inclusion and African economies a one stop resource for understanding the channels of transmission for financial inclusion as well as an application of these channels through original country specific empirical papers The book provides a back to basics presentation of the transmission of financial services to growth and poverty This theoretical discussion is complemented by an empirical presentation of the various services used by the poor with a focus on Africa Case studies of financial inclusion in six African countries cover a broad range of topics most important to African countries and highlight the unique African setting These empirical papers provide important learning points Firstly hybrid financial institutions such as cooperative financial institutions and financial social entrepreneurs are the best way to increase financial inclusion in Africa They provide important vehicles to circumvent the restrictive and exclusive bank based financial markets typical of African economies Secondly digital finance is a potent tool for improving financial access and usage in Africa and its impact on poverty operates through both traditional and nontraditional financial instruments Thirdly investment in infrastructure which supports complementary markets is critical and is likely to have a greater effect on credit rationing than direct provision of credit to small businesses      *Inclusive Growth and Development Issues in Eastern and Southern Africa* Musahara, Herman, 2016-06-13 This anthology presents issues challenges and progress in Rwanda Mauritius Ethiopia South Africa and Uganda towards Africa's acknowledgement through Agenda 2063 of the need for inclusive and sustainable development and its commitment to the Sustainable Development Goals Agenda 2030 of the United Nations Dictated by overall ever unfolding realities including economic social political technological issues the growth and development dictums have been reshaped and reframed continually in an effort to accommodate and respond to emerging issues Human development and inclusive growth and development within the overall theme of sustainable development are for example among the recent focuses of the global and national development agenda The background is that as individuals

communities and societies get richer the worrying levels of inequalities exclusion and disparities are becoming an area of concern drawing the attention of governments planners civil societies researchers and academia A predominant current issue has been an appreciation of high economic growth in the last 10 years which is nonetheless marred by pervasive levels of poverty and inequality The issues covered include trade rural urban linkages the dynamics of poverty vulnerability and welfare social policies for inclusive and sustainable development productivity and informality and financial direct support systems to the poor The chapters are based on first hand data secondary data from different databases and systematic reviews of academic literature Drawing on the findings and conclusions of the individual chapters the book distills together the key lessons and also puts forward recommendations for policy and practice It is a resource for researchers policy and decision makers academia and graduate students
