Totalmente orientale, totalmente occidentale Emanuela Ferreri, 2013 Kenosis and Feminist Theology Marta Frascati-Lochhead, 1998-02-26 This book addresses crucial issues that postmodern theory has raised for feminism and for feminist theology in particular Postmodern critiques of metaphysics question whether feminism is ultimately foundationalist and essentialist attributing an essential nature to woman and substituting a new metaphysical theory in place of the patriarchal foundationalism of Western thought Marta Frascati Lochhead develops this critique of metaphysics through a reading of the Italian philosopher Gianni Vattimo She shows how through his interpretation of Nietzsche and Heidegger Vattimo characterizes the violence of metaphysical thought and concludes that for emancipatory thought today nihilism is our sole opportunity Through a comparison of Vattimo and Derrida on the question of ontological difference and with reference to Donna Haraway's feminist analysis of cyborg culture the author demonstrates how Vattimo's perspective might inform an understanding of sexual difference Drawing on the connection that Vattimo makes between the dissolution of metaphysics in our time and the Christian understanding of kenosis the self emptying of God in the incarnation of Jesus Christ Frascati Lochhead examines contemporary feminist theology in order to identify the kenotic movement in its thought With specific reference to the works of Catherine Keller Rebecca Chopp Sallie McFague and Rosemary Radford Ruether she shows how contemporary feminist theology belongs to the metaphysical tradition that it would overcome while at the same time it moves in an emancipatory kenotic direction **The City of the Sun** Tommaso Campanella, 2023-04-28 Among Renaissance utopias The City of the Sun is perhaps second in importance only to More's more famous work There are striking similarities between Campanella's utopia and More's but also striking differences which reflect both changed historical circumstances and the highly original nature of Campanella's thought La città del sole is one of many books written by Tommaso Campanella philosopher scientist astrologer and poet while imprisoned in Naples for his part in rebellion against the Spanish and ecclesiastical authorities who ruled his native Calabria This first faithful and complete English translation by Daniel J Donno is presented opposite the critically established Italian text with essential explanatory notes and an introductory essay Students of Italian culture of the history of science and of political philosophical and religious thought will welcome the publication of this authoritative edition of Campanella's best known work This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981 Among Renaissance utopias The City of the Sun is perhaps second in importance only to More's more famous work There are striking similarities between Campanella's utopia and More's but also striking differences which reflect both changed historical

pubblicato or fa pochi mesi io ho dichiarato cos'è la intenzione del presente lavoro La Prolusione tratta della Nazionalità nella filosofia Sono possibili dopo il medio evo e nei tempi moderni tante filosofie nazionali quanti sono i popoli civili di Europa O invece quelle che si dicono filosofie nazionali non sono altro che momenti particolari dello sviluppo comune della filosofia moderna nelle diverse nazioni Si può dire però che ci sia una filosofia italiana essenzialmente diversa da una filosofia francese inglese tedesca come si dice che ci stata una filosofia greca essenzialmente diversa da una filosofia indiana *Plato's Timaeus*, 2020-11-23 Plato's Timaeus brings together a number of studies from both leading Plato specialists and up and coming researchers from across Europe The contributions cover a wide variety of topics ranging from the literary form of the work to the ontology of sense perception and the status of medicine in Timaeus account Although informed by a commitment to methodological diversity the collection as a whole forms an organic unity opening fresh perspectives on widely read passages while shedding new light on less frequently discussed topics The volume thus provides a valuable resource for students and researchers at all levels whether their interest bears on the Timaeus as a whole or on a particular passage

Luzzatto,2019-08-19 Socrates Or On Human Knowledge published in Venice in 1651 is the only work written by a Jew that contains so far the promise of a genuinely sceptical investigation into the validity of human certainties Simone Luzzatto masterly developed this book as a piece of theatre where Socrates as main actor has the task to demonstrate the limits and weaknesses of the human capacity to acquire knowledge without being guided by revelation He achieved this goal by offering an overview of the various and contradictory gnosiological opinions disseminated since ancient times the divergence of views to which he addressed the most attention prevented him from giving a fixed definition of the nature of the cognitive process This obliged him to come to the audacious conclusion of neither affirming nor denying anything concerning human knowledge and finally of suspending his judgement altogether This work unfortunately had little success in Luzzatto's lifetime and was subsequently almost forgotten The absence of substantial evidence from his contemporaries and that of his epistolary have thus increased the difficulty of tracing not only its legacy in the history of philosophical thought but also of understanding the circumstances surrounding the writing of his Socrates The present edition will be a preliminary study aiming to shed some light on the philosophical and historical value of this work's translation indeed it will provide a broader readership with the opportunity to access this immensely complicated work and also to grasp some aspects of the composite intellectual framework and admirable modernity of Venetian Jewish culture in the ghetto In principio era la meraviglia Enrico Berti,2011-04-16T00:00:00+02:00 I greci sono stati l'alpha e l'omega della filosofia Partendo da Aristotele Enrico Berti offre una appassionante introduzione al pensiero antico e ai suoi grandi problemi che sono in fondo gli eterni problemi della filosofia che cos'è l'essere Chi sono gli dèi Chi l'uomo Come possiamo raggiungere la felicità Che cosa ci attende dopo la morte Franco Volpi la Repubblica La meraviglia secondo Aristotele l'origine della filosofia ovvero della ricerca disinteressata di sapere Stato d'animo raro e prezioso la meraviglia la sola espressione della vera libertà Attraverso le domande e le risposte dei filosofi greci Enrico Berti racconta lo stupore dell'uomo di fronte al mondo *Dizionario della lingua italiana* Niccolò Tommaseo,1869
