*World War II Memory and Contested Commemorations in Europe and Russia* Jennifer A. Yoder, 2024-01-01 Instrumentalization of the wartime past for political gain is the subject of this study of eleven World War II commemorations Using a comparative conceptually original approach Yoder identifies the actors who manipulate memory surrounding wartime anniversaries such as the bombing of Dresden and ceremonies to honor fallen soldiers and fascist collaborators The cases of memory contestation span three geographic regions Western Europe Eastern Europe and Russia recognizing that each developed distinctive interpretations of the war and different patterns of memory politics This empirically rich study reveals the grievances that motivate memory challengers and their strategies for shaping the commemoration discourses and rituals The memory challengers toolkit includes varieties of emotional manipulation subtle distortion revisionism and full scale denial The study finds that while there are differences in context and strategy across cases and regions there are also areas of convergence Moreover a memory challenge in one country can spill over into others with serious consequences for foreign relations While *World War II Memory and Contested Commemorations in Europe and Russia* deals with debates and narratives about events in the last century its focus is on power persuasion and identity in the present

**A History of Jews in Germany Since 1945** Michael Brenner, 2018-11-01 A comprehensive account of Jewish life in a country that carries the legacy of being at the epicenter of the Holocaust Originally published in German in 2012 this comprehensive history of Jewish life in postwar Germany provides a systematic account of Jews and Judaism from the Holocaust to the early 21st Century by leading experts of modern German Jewish history Beginning in the immediate postwar period with a large concentration of Eastern European Holocaust survivors stranded in Germany the book follows Jews during the relative quiet period of the 50s and early 60s during which the foundations of new Jewish life were laid Brenner's volume goes on to address the rise of anti Israel sentiments after the Six Day War as well as the beginnings of a critical confrontation with Germany's Nazi past in the late 60s and early 70s noting the relatively small numbers of Jews living in Germany up to the 90s The contributors argue that these Jews were a powerful symbolic presence in German society and sent a meaningful signal to the rest of the world that Jewish life was possible again in Germany after the Holocaust This volume which illuminates a multi faceted panorama of Jewish life after 1945 will remain the authoritative reading on the

subject for the time to come *Frankfurter Allgemeine Zeitung* An eminently readable work of history that addresses an important gap in the scholarship and will appeal to specialists and interested lay readers alike *Reading Religion* Comprehensive meticulously researched and beautifully translated CHOICE *U.S. Army Area Handbook for Germany* Norman C. Walpole, 1964 *Structural Changes in West German Agriculture* Elfriede Anne Krause, 1972 *External Research List*, 1967 *Integration and Co-operation in Europe* Brigid Laffan, 1992 An ideal introductory text for students studying the EU The evolution and extent of European integration in areas ranging from industrial development to international relations is explained *Foreign Agriculture*, 1946 *Urban Education* Karen S. Johnson, Carleen Harriet Stoskopf, 2010 *Comparative Health Systems Global Perspectives* explores the health systems of 17 countries through comparative study Using a consistent framework the chapters offer an overview of each country's history
