The Holy Grail on Film Kevin J. Harty, 2015-02-28 This collection of new essays is the first to study film depictions of the quest for the Holy Grail the holy Christian relic of legend supposedly used by Jesus at the Last Supper Scholars from a range of disciplines discuss American Australian and European films that offer fresh perspectives on this enduring myth of the Arthurian world and Western culture including *The Silver Chalice* 1954 *Monty Python and the Holy Grail* 1975 *Excalibur* 1981 *The Road Warrior* 1981 *Indiana Jones and the Last Crusade* 1989 *The Fisher King* 1991 *The Da Vinci Code* 2006 *The Waterboy* 1998 and *Rosencrantz and Guildenstern Are Undead* 2009 MADONNA: Unstoppable! (Revised & Enlarged Edition) Pradeep Thakur, 2010-09-13 **Something Completely Different** Jeffrey S. Miller, 2000 Between Emma Peel and tire Ministry of Silly Walks British television had a significant impact on American popular culture in the 1960s and 1970s In *Something Completely Different* Jeffrey Miller offers the first comprehensive study of British programming on American television discussing why the American networks imported such series as *The Avengers* and *Monty Python's Flying Circus* how American audiences received these uniquely British shows and how the shows success reshaped American television Miller's lively analysis covers three genres spy shows costume dramas and sketch comedies In addition to his close readings of the series themselves Miller considers the networks packaging of the programs for American viewers and the influences that led to their acceptance including the American television industry's search for new advertising revenue and the creation of PBS **Mike Connolly and the Manly Art of Hollywood Gossip** Val Holley, 2010-06-28 In 1954 Mike Connolly the gay gossip columnist for the *Hollywood Reporter* from 1951 to 1966 was described by *Newsweek* as probably the most influential columnist inside the movie colony the one writer who gets the pick of trade items the industry rumors the policy and casting switches He was indeed one of the most talented and influential members of the Hollywood press of his time and his column for those who could read between the lines was a daily chronicle of gay goings on Fifty years later his cumulative output is a virtually untapped lode of gay Hollywood history Mike Connolly's life and work are the focus of this book It considers his formative years his pre World War II life at the University of Illinois and in Chicago and the ways in which the homosexual community in Hollywood lived lives both secretive and open in the forties fifties and sixties It also examines the literary merit power and newsworthiness of Connolly's *Rambling Reporter* column in the *Hollywood Reporter* and its significance as a chronicle of gay Hollywood life the previously unexplored role of Connolly's column in the Hollywood blacklist and how his anti Communist crusade was rooted in his earlier campaign to close down the brothels in his college town and how his life informed his column and his column shaped his life *Monty Python's Flying Circus* Marcia Landy, 2005-03-29 A comprehensive study examining the history content and context of the legendary comedy series *Monty Python's Flying Circus* One of the most innovative comedic programs to air on television *Monty Python's Flying Circus* was a mix of the carnivalesque and the critical The show has become famous for eschewing many of the conventions of situation comedy the

fully formed and coherent script narrative closure predictable characters and the decorum associated with presentation Its curious transatlantic popularity defied the assumption that comedy is regional and exclusive and the show s cult status still lives on in the United States and United Kingdom through reruns videos DVDs and continual reappearances by the show s now iconic stars Most written accounts of Monty Python s Flying Circus focus solely on members of the Pythons histories of the sketches or the development of other Monty Python projects leaving a dearth of scholarly and contextual analysis on the television show itself Marcia Landy s book is one of the rare studies available examining the Flying Circus within the context of its time analyzing the show s influence on 1960s and 1970s British television as well as British cultural influence on the show s legendary material Landy explores not only why the series complex form of comedy was important but also why it was so well received citing the Pythons amalgam of comedic material the unruly treatment of sexuality the mockery of religion and class and the critique of the medium of television The Flying Circus parodied both the lowbrow and the highbrow throwing many previously untouchable topics into the ring and here Landy deconstructs the impact of the show s risks and reception As informative as it is engaging and entertaining this book will appeal to film and media scholars popular culture enthusiasts and Monty Python fans alike

What Really Happened in the Garden of Eden? Ziony Zevit, 2013-11-26 A provocative new interpretation of the Adam and Eve story from an expert in Biblical literature The Garden of Eden story one of the most famous narratives in Western history is typically read as an ancient account of original sin and humanity s fall from divine grace In this highly innovative study Ziony Zevit argues that this is not how ancient Israelites understood the early biblical text Drawing on such diverse disciplines as biblical studies geography archaeology mythology anthropology biology poetics law linguistics and literary theory he clarifies the worldview of the ancient Israelite readers during the First Temple period and elucidates what the story likely meant in its original context Most provocatively he contends that our ideas about original sin are based upon misconceptions originating in the Second Temple period under the influence of Hellenism He shows how for ancient Israelites the story was really about how humans achieved ethical discernment He argues further that Adam was not made from dust and that Eve was not made from Adam s rib His study unsettles much of what has been taken for granted about the story for more than two millennia and has far reaching implications for both literary and theological interpreters Classical Hebrew in the hands of Ziony Zevit is like a cello in the hands of a master cellist He knows all the hidden subtleties of the instrument and he makes you hear them in this rendition of the profoundly simple story of Adam Eve the Serpent and their Creator in the Garden of Eden Zevit brings a great deal of other biblical learning to bear in a surprisingly light hearted book Jack Miles author of *God A Biography* *Contemporary Authors New Revision Series* ,2001-08 In response to the escalating need for up to date information on writers Contemporary Authors New Revision Series brings researchers the most recent data on the world s most popular authors These exciting and unique author profiles are essential to your holdings because sketches are entirely revised and up to date and completely replace the

Class, Self, Culture Beverley Skeggs, 2013-11-05 Class Self Culture puts class back on the map in a novel way by taking a new look at how class is made and given value through culture It shows how different classes become attributed with value enabling culture to be deployed as a resource and as a form of property which has both use value to the person and exchange value in systems of symbolic and economic exchange The book shows how class has not disappeared but is known and spoken in a myriad of different ways always working through other categorisations of nation race gender and sexuality and across different sites through popular culture political rhetoric and academic theory In particular attention is given to how new forms of personhood are being generated through mechanisms of giving value to culture and how what we come to know and assume to be a self is always a classed formation Analysing four processes of inscription institutionalisation perspective taking and exchange relationships it challenges recent debates on reflexivity risk rational action theory individualisation and mobility by showing how these are all reliant on fixing some people in place so that others can move
