**(Illustrated Edition)** Jules Verne, 2019-11-28 Verne 1828 1905 was a French novelist playwright and poet He quit his early profession as a lawyer to write for magazines and the stage and his collaboration with the publisher Pierre Jules Hetzel led to the creation of the Voyages extraordinaires a widely popular series of scrupulously researched adventure novels including Journey to the Centre of the Earth 1864 Twenty Thousand Leagues Under the Sea 1870 and Around the World in Eighty Days 1873 Whilst he is considered a major literary author in France and most of Europe his reputation is markedly different in English speaking countries where he is more often perceived as a writer of genre fiction or children s books largely because of the highly abridged and altered translations of his works First published in the original French as Sans dessus dessous in 1889 The Purchase of the North Pole is the third book in his Baltimore Gun Club series all featuring the same characters The previous two titles were From the Earth to the Moon 1865 and A Trip to the Moon and Around It 1870 This anonymous English translation includes three illustrations **The Purchase of the North Pole.
