Redmon, 2017-10-13 Throughout his directorial career Clint Eastwood s movies have presented sympathetic narratives of characters enduring personal trauma as they turn to violence to survive calamity or sustain social order a choice that leaves them marginalized rather than redeemed In this collection of new essays contributors examine his films from *The Outlaw Josey Wales* to *Sully* as studies on PTSD that expose the social conditions that tolerate or trigger traumatization and in his more recent work imagine a way through individual and collective trauma

Returning Soldiers and PTSD Barbara Krasner, 2017-07-15 One of the most painful and tragic legacies of the wars in Iraq and Afghanistan has been the trauma suffered by those who served and the far reaching consequences and after effects of their scarring combat experiences This very important volume looks at the issue of returning soldiers PTSD from multiple angles examining skyrocketing suicide rates the debates surrounding the quality and accessibility of health care the nature of and stigmas associated with a PTSD diagnosis the responsibility that government and society have to care for returning soldiers how welcoming protective and supportive the environment is to which soldiers return and the steep cost of war to the individual families and society at large Through the Crosshairs

Roger Stahl, 2018-06-21 Now that it has become so commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper s gun or from the perspective of a descending smart bomb But how did this weaponized gaze become the norm for depicting war and how has it influenced public perceptions *Through the Crosshairs* traces the genealogy of this weapon s eye view across a wide range of genres including news reports military public relations images action movies video games and social media posts As he tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence Parameters, 2017

Languages of Trauma Peter Leese, Julia Barbara Köhne, Jason Crouthamel, 2021-03-24 *Languages of Trauma* explores how and for what purposes trauma is expressed in historical sources and visual media Disability and the Posthuman Stuart Fletcher Murray, 2020-05-08 *Disability and the Posthuman* is the first study to analyse cultural representations and deployments of disability as they interact with posthumanist theories of technology and embodiment Working across a wide

range of texts many new to critical enquiry in contemporary writing film and cultural practice from North America Europe the Middle East and Japan it covers a diverse range of topics including contemporary cultural theory and aesthetics design engineering and gender the visualisation of prosthetic technologies in the representation of war and conflict and depictions of work time and sleep While noting the potential limitations of posthumanist assessments of the technologized body the study argues that there are exciting productive possibilities and subversive potentials in the dialogue between disability and posthumanism as they generate dissident crossings of cultural spaces Such intersections cover both fictional imagined and material grounded examples of disability and look to a future in which the development of technology and complex embodiment of disability presence align to produce sustainable yet radical creative and critical voices **Focus On: 100**

Most Popular Drama Films Based on Actual Events Wikipedia contributors, **Combat Trauma** Nadia Abu El Haj, 2022-09-27 Americans have long been asked to support the troops and care for veterans psychological wounds Who though does this injunction serve As acclaimed scholar Nadia Abu El Haj argues here in the American public s imagination the traumatized soldier stands in for destructive wars abroad with decisive ramifications in the post 9 11 era Across the political spectrum the language of soldier trauma is used to discuss American warfare producing a narrative in which traumatized soldiers are the only acknowledged casualties of war while those killed by American firepower are largely sidelined and forgotten In this wide ranging and fascinating study of the meshing of medicine science and politics Abu El Haj explores the concept of post traumatic stress disorder and the history of its medical diagnosis While antiwar Vietnam War veterans sought to address their psychological pain even as they maintained full awareness of their guilt and responsibility for perpetrating atrocities on the killing fields of Vietnam by the 1980s a peculiar convergence of feminist activism against sexual violence and Reagan s right wing war on crime transformed the idea of PTSD into a condition of victimhood In so doing the meaning of Vietnam veterans trauma would also shift moving away from a political space of reckoning with guilt and complicity to one that cast them as blameless victims of a hostile public upon their return home This is how in the post 9 11 era of the Wars on Terror the injunction to support our troops came to both sustain US militarism and also shields American civilians from the reality of wars fought ostensibly in their name In this compelling and crucial account Nadia Abu El Haj challenges us to think anew about the devastations of the post 9 11 era [Sleep and Combat-Related Post Traumatic Stress Disorder](#) Eric Vermetten, Anne Germain, Thomas C. Neylan, 2017-11-29 There are few clinical problems in the sleep medicine field that are more challenging than the sleep difficulties experienced by individuals suffering from post traumatic stress disorder PTSD This book offers a unique complete resource addressing all the basic concepts and clinical applications in sleep medicine in settings where combat related PTSD is commonplace Authored by leading international experts in the field of sleep military medicine Sleep and Combat Related Post Traumatic Stress Disorder is organized in six sections and provides a broad perspective of the field from the established theories to the most recent developments in research including

the latest neuroscientific perspectives surrounding sleep and PTSD The result is a full assessment of sleep in relation to combat related PTSD and a gold standard volume that is the first of its kind This comprehensive title will be of great interest to a wide range of clinicians from academics and clinicians working within or in partnership with the military health care system to veteran hospital physicians and all health personnel who work with war veterans Locating Classical Reception on Screen Ricardo Apostol, Anastasia Bakogianni, 2018-10-19 This volume explores film and television sources in problematic conversation with classical antiquity to better understand the nature of artistic reception and classical reception in particular Drawing inspiration from well theorized fields like adaptation studies comparative literature and film the essays in this collection raise questions fundamental to the future of reception studies The first section Beyond Fidelity deals with idiosyncratic adaptations of ancient sources the second section Beyond Influence discusses modern works purporting to adapt ancient figures or themes that are less straightforwardly ancient than they may at first appear while the last section Beyond Original uses films that lack even these murky connections to antiquity to challenge the notion that studying reception requires establishing historical connections between works As questions of audience interpretation and subjectivity are central to most contemporary fields of study this is a collection that is of interest to a wide variety of readers in the humanities

Frames of Minds Eelco F. M. Wijdicks, 2024 As a medium that aims to connect people through the communication and interpretation of experiences cinema is uniquely positioned to showcase cultural misunderstandings around issues of mental health Frames of Minds traces a history of psychiatry in film concentrating on the major paradigm shifts in neuropsychiatry over the last century Oftentimes representations of psychiatry mental illness and psychotic breakdown are reduced to tropes and used by filmmakers as a tool for plot progression Conversely films can be used as an avenue to voice common concerns about the missteps of psychiatry including

overdiagnosis and mistreatment Dr Eelco Wijdicks provides fresh insights into the minds of filmmakers and how they creatively tackle this complex topic How do filmmakers use psychiatry and what do they want us to see What is their frame of mind psychoanalytically biologically sociologically anthropologically Were they influenced by their own prejudices about the origins of mental illness How does this influence the direction of their films Examining the history of film alongside developments in neuropsychiatry Frames of Minds uncovers a cinematic language of psychiatry By taking chances to portray mental illness filmmakers aim to achieve a sense of reality and provide catharsis for viewers through the act of dramatization Ultimately the history of psychiatry in film is a history of the public perception of medicine and the ways psychiatry is understood by directors writers actors and audiences

Conflicted Isaac Blacksin, 2024-07-02 How is popular knowledge of war shaped by the stories we consume what are the boundaries of this knowledge and how are these boundaries policed or contested by journalists producing knowledge from war zones Based on years of fieldwork in Iraq Syria Lebanon Afghanistan and Ukraine Conflicted challenges normative conceptions of war by revealing how representational authority comes to be Turning the lens on journalists from The New York Times The Washington Post The Wall Street Journal and other prominent publications Isaac Blacksin shows why news coverage of contemporary conflict widely presumed to function as a critique of excessive violence instead serves to sanction official rationales for war Blacksin argues that journalism's humanitarian frame now hegemonic in conflict coverage serves to depoliticize and remoralize war transforming war from an effect of policy on populations to a matter of violence against the innocent Exploring the tension between experience and expression in conditions of violence and tracking how journalists respond to dominant expectations of reality Conflicted tells the story of war reporters and the consequences of their convergence As new wars and new reportage continue to shape our understanding of armed conflict this book makes visible both the power and the particularity of war reportage

Social Deviance Tim Delaney, 2017-06-16 The topic of social deviance is inherently intriguing People in general and college students in particular find the topic of deviant behavior fascinating This can be explained at least in part by a combination of the subject matter itself our own past deviant behaviors and our willingness and desire to evaluate and comment on the behaviors of others While the topic of deviant behavior seems straightforward at the surface the study of social deviance reveals how complicated it really is Although *Social Deviance* utilizes a textbook style approach in its coverage of deviant behavior this comprehensive straightforward and student friendly book maintains student interest because of the author s use of real life phenomena and current examples Each chapter includes chapter objectives an introductory story a glossary of key terms discussion questions and boxed material The boxed materials include A Closer Look box that zooms in on topics that warrant deeper explanation and a Connecting Social Deviance and Popular Culture box that shows how contemporary forms of popular culture illustrate deviant behavior
