**American Media Politics in Transition** Jeremy Mayer, 2007-01-04 Part of the McGraw Hill Critical Topics in American Government series American Media Politics in Transition blends coverage of the historical evolution of American political journalism with theories about its current practice and the emerging technological changes that have begun to bring media power back to the people Its flexible self contained chapters feature discussion questions suggestions for further readings online resources and a list of key terms and figures all of which come together to make this an ideal supplement for any introductory American Government course as well as courses on the media and communications The Media in

Transitional Democracies Katrin Voltmer, 2013-07-10 The last quarter of a century has seen an unprecedented wave of democratization around the globe In these transitions from authoritarian rule to a more democratic order the media have played a key role both by facilitating but frequently also inhibiting democratic practices to take root This book provides an accessible and systematic introduction to the media in transitional democracies It analyses the problems that occur when transforming the media into independent institutions that are able to inform citizens and hold governments to account The book covers the following topics normative conceptions of media and democracy the role of the past in the transition process the internet as a new space for democratic change the persistence of political interference in emerging democracies the interlocking power of media markets and political ownership the challenges to journalistic professionalism in post authoritarian contexts the role of the media in divided societies The book takes a global view by exploring the interplay of political and media transitions in different pathways of democratization that have taken place in Eastern Europe Latin America Africa and Asia It will be of interest to advanced students and scholars who want a better understanding of the media outside established Western democracies The book will also be of great value to policymakers and activists who are involved in strengthening the media in transitional democracies **Media Systems and Communication Policies in**

**Latin America** M. Guerrero, M. Márquez-Ramírez, 2014-10-07 Media Systems and Communication Policies in Latin America proposes tests and analyses the liberal captured model It explores to what extent to which globalisation marketization commercialism regional bodies and the nation State redefine the media s role in Latin American societies Media Power, Media Politics Mark J. Rozell, Jeremy D. Mayer, 2008-08-14 Media Power Media Politics Second Edition examines the role and influence of the media in every sphere of American politics Organized thematically the book analyzes the relationship between the media and key institutions political actors and nongovernmental entities as well as the role of the new media media ethics and foreign policy coverage Written clearly and concisely by leading scholars in the field the chapters serve as broad overviews to the issues while discussion questions and suggestions for further reading encourage deeper inquiry Updated throughout the second edition includes expanded coverage of the evolving role of new media a new chapter on terrorism and the media and new pedagogical exercises and featured interviews with journalists bloggers and media advisers

**De-Westernizing Media Studies** James Curran, Myung-Jin Park, 2005-07-05 De Westernizing Media Studies brings together leading media critics from around the world to address central questions in the study of the media How do the media connect to power in society Who and what influence the media How is globalization changing both society and the media

**Human and Mediated Communication around the World** Marieke de Mooij, 2013-10-07 This book is unique in the sense that it offers a comprehensive review and analysis of human communication and mediated communication around the world This is one of the first attempts to do so in a systematic comprehensive way It challenges the assumption that Western theories of human communication and mass communication have universal applicability It surveys the applicability of mass communication theories to other than Western cultures The book explains the influence of culture on all forms of communication behavior be it personal mediated or mass communication It presents communication theories from around the world incorporating a vast body of literature from Europe Asia Africa and Latin America This updated information on important international perspectives that includes both interpersonal and mediated communication is presently not readily available in other sources The book offers an integrated approach to understanding the working of electronic means of communication that are hybrid media combining human and mediated communication These new media that are often presented as universal are even more culture bound than the traditional media

**Business, Human Rights, Technology, and Transitional Justice in Latin America** Sebastian Smart, 2025-09-30 This book offers theoretical arguments and empirical studies that demonstrate why focusing on the interrelations of technology and transitional justice from a business and human rights approach is crucial to achieve basic objectives in terms of truth justice memory reparation and non repetition measures in post conflict settings This book elaborates a theoretical framework to analyze these topics and applies the framework through case studies to examine potential influence of technology in transitional justice mechanisms In this sense it contributes with information and legal economic political and institutional arguments in the agenda that interrelate these three main topics

**Journalism Pedagogy in Transitional Countries** Diana Garrisi, Xianwen Kuang, 2022-12-04 This book explains what it means to teach journalism in countries with limited media freedom in the post pandemic era It digs into the social and historical factors underpinning the development of journalism university degrees and courses in a selection of illustrative case studies taken from Africa Asia Europe and Latin America This work assesses both the limitations and creative opportunities arising from teaching journalism under constraints Topics include but are not limited to the application of Western theoretical frameworks in new transnational universities in China the historical and political roots of the gap between industry and academia in Slovenia ideological clashes and classism in higher education in the Arab region scholar activism in Turkey decolonizing journalism curricula in South Asia journalism students as research partners in the Philippines and the repression of the student press in Mexico Although this book focuses broadly on the Global South the theoretical and practical implications of its findings and related discussion will inform the challenges facing journalism

training today as a whole      *Media Capture in Africa and Latin America* Hayes Mawindi Mabweazara, Bethia Pearson, 2024-11-20 How can current debates on media capture be understood within the contexts of Africa and Latin America This edited collection provides a nuanced exploration of media capture a critical yet contested concept that examines and illuminates how media can become skewed in favour of power while also highlighting spaces and strategies of resistance By adopting a South South perspective it brings together scholars focused on these issues in both regions featuring a dialogue between two leading scholars Herman Wasserman and Silvio Waisbord in the Foreword The book not only demonstrates how media practices in Africa and Latin America are influenced by the political economy of their media systems but also contributes significantly to advancing empirical theoretical and comparative research on media in non Western settings      Political Culture, Social Movements and Democratic Transitions in South America in the XXth Century Fernando Devoto, Torcuato S. Di Tella, 1997 Questo volume intende fornire un contributo alla riflessione sulla storia politica e sociale dell'America Latina illustrando la grande varietà delle ideologie e delle storie politiche delle nazioni latino americane dall'inizio del nostro secolo sino al periodo più recente Annotation Supplied by Informazioni Editoriali      *The Media In Latin America* Lugo, Jairo, 2008-04-01 Looks at important media systems in Central and Latin America This book includes media history organization structure the interrelationship of media and state and the relationship between media culture and society It focuses on an aspect of the media specific to each country eg soap opera in Brazil and violence against journalists in Chile      **Transitions Environments Translations** Joan W. Scott, Cora Kaplan, Debra Keates, 2013-10-18 The essays in *Transitions Environments Translations* explore the varied meanings of feminism in different political cultural and historical contexts They respond to the claim that feminism is Western in origin and universalist in theory and to the assumption that feminist goals are self evident and the same in all contexts Rather than assume that there is a blueprint by which to measure the strength or success of feminism in different parts of the world these essays consider feminism to be a site of local national and international conflict They ask What is at stake in various political efforts by women in different parts of the world What meanings have women given to their efforts What has been their relationship to feminism as a concept and as an international movement What happens when feminist ideas are translated from one language one political context to another

**Presidential Impeachment and the New Political Instability in Latin America** Aníbal Pérez-Liñán, 2007-07-09 Documents the emergence of a pattern of political instability in Latin America Traditional military coups have receded in the region but elected presidents are still ousted from power as a result of recurrent crises Anibal Pérez Liñan shows that presidential impeachment has become the main constitutional instrument employed by civilian elites to depose unpopular rulers Based on detailed comparative research in five countries and extensive historical information the book explains why crises without breakdown have become the dominant form of instability in recent years and why some presidents are removed from office while others survive in power The analysis emphasizes the erosion of presidential approval resulting

from corruption and unpopular policies the formation of hostile coalitions in Congress and the role of investigative journalism This book challenges classic assumptions in studies of presidentialism and provides important insights for the fields of political communication democratization political behaviour and institutional analysis Social and Political Transitions During the Left Turn in Latin America Karen Silva-Torres, Carolina Rozo-Higuera, Daniel S. Leon, 2021-09-09 Social and Political Transitions During the Left Turn in Latin America provides fourteen contributions to understand from a multidisciplinary perspective processes of socio political reconfigurations in the region from the early 2000s to the mid 2010s The Left Turn was the regional shift to left of center governments and social movements that sought to replace the neoliberal policies of the 1990s This volume aims to answer the overarching research question how do state and societal national and transnational actors trigger and shape processes of political and socio economic transitions in Latin America from the rise to the decline of the Left Turn The book presents case studies in which transitions are moments of change and uncertainty which one cannot predict their definitive outcomes The various case studies presented in the book place actors and processes in specific historical and socio political contexts which are influenced directly or indirectly by the historical trajectory of Latin America s Left Turn This book is essential reading for students and scholars of Social and Political History Latin American History and those interested in the social and political developments in Latin America more broadly **The Right in Latin America** Barry Cannon, 2016-04-14 Most current analysis on Latin American politics has been directed at examining the shift to the left in the region Very little attention however has been paid to the reactions of the right to this phenomenon What kind of discursive policy and strategic responses have emerged among the right in Latin America as a result of this historic turn to the left Have there been any shifts in attitudes to inequality and poverty as a result of the successes of the left in those areas How has the right responded strategically to regain the political initiative from the left And what implications might such responses have for democracy in the region The Right in Latin America seeks to provide answers to these questions while helping to fill a gap in the literature on contemporary Latin American politics Unlike previous studies Barry Cannon s book does not simply concentrate on party political responses to the contemporary challenges for the right in the region Rather he uses a wider more comprehensive theoretical framework grounded in political sociology in recognition of the deep social roots of the right among Latin America s elites in a region known for its startling inequalities Using Michael Mann s pioneering work on power he shows how elite dominance in the key areas of the economy ideology the military and in transnational relations has had a profound influence on the political strategies of the Latin American right He shows how left governments especially the more radical ones have threatened elite power in these areas influencing right wing strategic responses as a result These responses he persuasively argues can vary from elections through street protests and media campaigns to military coups depending on the level of perceived threat felt by elites from the left In this way Cannon uncovers the dialectical nature of the left right relationship in contemporary Latin American politics while simultaneously

providing pointers as to how the left can respond to the challenge of the right's resurgence in the current context of left retrenchment Cannon's multi-faceted inter-disciplinary approach including original research among right-leaning actors in the region makes the book an essential reference not only for those interested in the contemporary Latin American right but for anyone interested in the region's politics at a critical juncture in its history

Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

**The History and Political Transition of Zimbabwe** Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti-colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self-styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe's ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics

*Political Regimes and the Media in Asia* Krishna Sen, Terence Lee, 2008-02-25 This book analyzes the relationship between political power and the media in a range of nation states in East and Southeast Asia focusing in particular on the place of the media in authoritarian and post-authoritarian regimes It discusses the centrality of media in sustaining repressive regimes and the key role of the media in the transformation and collapse of such regimes It questions in particular the widely held beliefs that the state can have complete control over the media consumption of its citizens that commercialization of the media necessarily leads to democratization and that the transnational liberal dimensions of western media are crucial for democratic movements in Asia Countries covered include Burma China Indonesia Malaysia Singapore Thailand the Philippines and Vietnam

*Building the Fourth Estate* Chappell Lawson, 2002-08-05 Building the Fourth Estate reveals the crucial part played by the Mexican media in the country's remarkable recent political transformation Based on an in-depth examination of Mexico's print and broadcast media over the

last twenty five years Chappell Lawson traces the role of the media in that country s move toward democracy demonstrating the reciprocal relationship between changes in the press and changes in the political system In addition to illuminating the nature of political change in Mexico Lawson s findings have broad implications for understanding the role of the mass media in democratization around the world from back cover

**A Violent Peace** Christine Hong, 2020-08-11 A Violent Peace offers a radical account of the United States transformation into a total war state As the Cold War turned hot in the Pacific antifascist critique disclosed a continuity between U S police actions in Asia and a rising police state at home Writers including James Baldwin Ralph Ellison and W E B Du Bois discerned in domestic strategies to quell racial protests the same counterintelligence logic structuring America s devastating wars in Asia Examining U S militarism s centrality to the Cold War cultural imagination Christine Hong assembles a transpacific archive placing war writings visual renderings of the American concentration camp Japanese accounts of the atomic bombing of Hiroshima black radical human rights petitions Korean War era G I photographs Filipino novels on guerrilla resistance and Marshallese critiques of U S human radiation experiments alongside government documents By making visible the way the U S war machine waged informal wars abroad and at home this archive reveals how the so called Pax Americana laid the grounds for solidarity imagining collective futures beyond the stranglehold of U S militarism
