American Sniper Truth:

America's Addiction to Terrorism Henry A. Giroux, 2016 In the United States today the term terrorism conjures up images of dangerous outside threats religious extremists and suicide bombers in particular Harder to see but all the more pervasive is the terrorism perpetuated by the United States itself whether through military force overseas or woven into the very fabric of society at home Henry Giroux in this passionate and incisive book turns the conventional wisdom on terrorism upside down demonstrating how fear and lawlessness have become organizing principles of life in the United States and violence an acceptable form of social mediation He addresses the most pressing issues of the moment from officially sanctioned torture to militarized police forces to austerity politics Giroux also examines the ongoing degradation of the education system and how young people in particular suffer its more nefarious outcomes Against this grim picture Giroux posits a politics of hope and a commitment to accurate and radical historical memory He draws on a long distinguished career developing the tenets of critical pedagogy to propose a cure for our addiction to terrorism a kind of public pedagogy that challenges the poisoned narratives of America's dis imagination machine *Focus On: 100 Most Popular Drama Films Based on Actual Events*

Wikipedia contributors, *Origins of the Warfare State* Carl Boggs, 2016-08-12 The post World War II emergence of a full blown state of perpetual war is arguably the most important feature of contemporary American politics This book examines the warfare state in terms of a broad ensemble of structures policies and ideologies permanent war economy national security state global expansion of military bases merger of state corporate and military power an imperial presidency the nuclear establishment and superpower ambitions Carl Boggs makes the argument that the Good War led to an authoritarian system that has expanded throughout the post war decades undermining liberal democratic institutions and values in the process He goes on to suggest that current American electoral politics show no sign of rolling back the warfare state and in fact may push it to a new threshold bordering on American fascism **Marine Scout Snipers** Lena Sisco, 2016-09-01

Author Lena Sisco a former Department of Defense Military Interrogator and U S Navy officer takes the reader through the missions and personal lives of U S Marines who have been forward deployed in hostile environments all across the Middle East She shows how they use the mastery of their sniper skills to mitigate threats and negate the enemy's ability to disrupt U S operations Her book lets you feel the stress and anxiety of their operational tempo you witness their successes and failures their struggles and lessons learned Snipers are highly trained brave silent killers They undergo specialized training and operate independently with little support from their parent commands close to enemy positions Snipers are chosen based on their marksmanship mental stability patience and physical ability They stalk the enemy while concealed in their operational overwatches to protect our checkpoints and convoys and to direct action missions Despite the renown of Chris Kyle and the extraordinary success of the book and movie American Sniper snipers do not have lead lives of glory and fame their lives are a struggle Serving as a sniper requires that you do your job successfully every time because the consequences of not being

successful include the loss of innocent lives or living with other consequences that can haunt a shooter till the day he dies In the end just like any other service members they put their lives on the line willingly to defend our freedom and liberties and our country

Through the Crosshairs Roger Stahl,2018-06-21 Now that it has become so commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper s gun or from the perspective of a descending smart bomb But how did this weaponized gaze become the norm for depicting war and how has it influenced public perceptions Through the Crosshairs traces the genealogy of this weapon s eye view across a wide range of genres including news reports military public relations images action movies video games and social media posts As he tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence

Docu-Fictions of War Tatiana Prorokova,2019-05-01 Historical writing and fiction are not the same thing though historians often creatively manipulate material in imposing plot structures selecting starting and ending points and fashioning compelling literary characters from historical figures In Docu Fictions of War Tatiana Prorokova argues that the opposite is also true war fiction offers a kind of history that both documents its subjects and provides a snapshot of the cultural representation of the United States most recent military involvements She covers a largely neglected body of cinematic and literary texts about the First Gulf War the Balkan War the Afghanistan War and the Iraq War to open a fresh analysis of cultural texts on war Prorokova contends that these texts are not pure fiction but docu fictions works of imagination that can document their subjects while disclosing the social political and historical link between war and culture during the last three decades Docu Fictions of War analyzes how these representational narratives have highlighted a humanitarian rationale behind American involvement in each war whether the stated goals were to free the oppressed from tyranny stop genocide or rid the world of terrorism The book explores the gap between history what allegedly happened and the cultural mythology that is both true and inexact tangible and sensed recognized and undocumented
