American Sniper When On Dvd:

Hollywood's Imperial Wars Armando José Prats, 2024-04-16 When the Vietnam War punctured the myth of American military invincibility Hollywood needed a new kind of war movie The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando Jos Prats explores in Hollywood s Imperial Wars The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood s earlier representations of Americans at war from the mythic heroism of a film like Sands of Iwo Jima to the rupture of that myth in films such as The Deer Hunter Apocalypse Now and Platoon As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats s analysis were forever altered by the loss in Vietnam Even movies like American Sniper that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts *Combat Death in Contemporary American Culture* Agnieszka Soltysik Monnet, 2020-12-16 *Combat Death in Contemporary American Culture* Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination *Crafting Media Personas* Jon Leon Torn, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Media brings us many things But of all the things that media exposes us to by far the most prevalent is other people The vast majority of media content revolves around the human world human experience and human behaviour Whether these humans that we are invited to examine via

the media are real or fictional doesn't often matter. We watch, we judge and we learn by witnessing through media the actions of people who we never have met personally and most likely never will. This volume examines two important aspects of this media personascap: which at first glance may appear far removed from one another: celebrities and war films. Both these areas nonetheless share a focus on how humans behave in extreme situations and how media consumers judge them and learn from them. Readers will attain a new appreciation of the importance of the persona across multiple media formats.

The Transformations of Tragedy Fionnuala O'Neill, Erik Tonning, Jolyon Mitchell, 2019-11-26. The Transformations of Tragedy: Christian Influences from Early Modern to Modern explores the influence of Christian theology and culture upon the development of post-classical Western tragedy. The volume is divided into three parts: early modern, modern and contemporary. This series of essays by established and emergent scholars offers a sustained study of Christianity's creative influence upon experimental forms of Western tragic drama. Both early modern and modern tragedy emerged within periods of remarkable upheaval in Church history, yet Christianity's diverse influence upon tragedy has too often been either ignored or denounced by major tragic theorists. This book contends instead that the history of tragedy cannot be sufficiently theorised without fully registering the impact of Christianity in transition towards modernity. Films Based on Actual Events Wikipedia contributors, **The Backside of Hollywood** Julio Camino, 2017-05-09. After the fall of the Berlin Wall and the collapse of the Soviet Union, socialism should have passed into history along with Marxism. Marxism is not a science as declared by the academics of the Communist Party in Moscow, but an enormous senseless absurdity full of contradictions. And socialism in practice far from being a paradise on earth is itself a terrible hell. But none of this has gone away. On the contrary, the left is alive and defiant. And they are much worse than they were during the last century. Now they are reinforced with environmentalism and red feminism, multiculturalism, the LGBT agenda and all the postmodernist paraphernalia of political correctness. To help build the new liberal right, Venezuelan journalist Julio Camino brings his offering. With extensive experience in government, the press, in the Congress of Venezuela and on the international scene, each of his books is a blow to overthrow Marxist myths, both old and new, and at the same time it is a brick to fortify our strength to free us from ideological nonsense and political hell. His books are an instructive guide to combat the left and while providing illuminating solutions in different areas. The first was *History and Future* (2013), followed by *The Dis-United States of America* (2014) and then *Comrade Obama and Che* (2015). Published in English and Spanish in print and digital. And now *Hollywood from the Inside*, revealing the most formidable propaganda machine in the world working against capitalism in service to socialism. Do not miss any of it. Going Scapegoat David A. Buchanan, 2016-09-12. Since 9/11, war literature has become a key element in American popular culture, spurring critical debate about depictions of combat. Who can write war literature? When can they do it? This book presents a new way to closely read war narratives, questioning the idea of combat gnosticism, the belief that the experience of war is impossible to communicate to those who

have not seen it that has dominated the discussion Adapting Kenneth Burke's scapegoat mechanism to the criticism of literature and film the author examines three novels from 2012 Ben Fountain's *Billy Lynn's Long Halftime Walk* David Abrams's *FOBBIT* and Kevin Powers' *The Yellow Birds* that represent the U.S. military responses to 9/11 *Troubling Masculinities* Glen Donnar, 2020-07-23 *Troubling Masculinities* Terror Gender and Monstrous Others in American Film Post 9/11 is the first multigenre study of representations of masculinity following the emergence of violent terror as a plot element in American cinema after September 11, 2001 Across a broad range of subgenres including disaster melodrama monster movies postapocalyptic science fiction discovered footage and home invasion horror action thrillers and frontier westerns author Glen Donnar examines the impact of terror Others from Arab terrorists to giant monsters especially in relation to cinematic representations in earlier periods of national turmoil Donnar demonstrates that the reassertion of masculinity and American national identity in post 9/11 cinema repeatedly unravels across genres Taking up critical arguments about Hollywood's attempts to resolve male crisis through Orientalizing figures of terror he shows how this failure reflects an inability to effectively extinguish the threat or frightening difference of terror The heroes in these movies are unable to heal themselves or restore order often becoming as destructive as the threats they are supposed to be fighting Donnar concludes that interrelated anxieties about masculinity and nationhood continue to affect contemporary American cinema and politics By showing how persistent these cultural fears are the volume offers an important counternarrative to this supposedly unprecedented moment in American history *American Cinema in the Shadow of 9/11* Terence McSweeney, 2016-12-05 *American Cinema in the Shadow of 9/11* is a ground breaking collection of essays by some of the foremost scholars writing in the field of contemporary American film Through a dynamic critical analysis of the defining films of the turbulent post 9/11 decade the volume explores and interrogates the impact of 9/11 and the War on Terror on American cinema and culture In a vibrant discussion of films like *American Sniper* 2014 *Zero Dark Thirty* 2012 *Spectre* 2015 *The Hateful Eight* 2015 *Lincoln* 2012 *The Mist* 2007 *Children of Men* 2006 *Edge of Tomorrow* 2014 and *Avengers: Age of Ultron* 2015 noted authors Geoff King Guy Westwell John Shelton Lawrence Ian Scott Andrew Schopp James Kendrick Sean Redmond Steffen Hantke and many others consider the power of popular film to function as a potent cultural artefact able to both reflect the defining fears and anxieties of the tumultuous era but also shape them in compelling and resonant ways *The Hell of War Comes Home* Owen W. Gilman Jr., 2018-02-09 Owen W. Gilman Jr. stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II's literature and film Like few other books Gilman's volume studies these new texts among them Kevin Powers's debut novel *The Yellow Birds* and Phil Klay's short stories *Redeployment* along with

the films *The Hurt Locker*, *American Sniper* and *Billy Lynn's Long Halftime Walk*. For perspective Gilman also looks at some touchstones from the Vietnam War. Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion. Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact. He contends that Americans' inclination to demand distraction limits learning from these compelling responses to war in the past decade. According to Gilman, where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding.

The Civilian Lives of U.S. Veterans Louis Hicks, Eugenia L. Weiss, Jose E. Coll, 2016-12-05. In this book 50 experts study the lives of U.S. veterans at work at home and in American society as they navigate issues regarding health, gender, public service, substance abuse, and homelessness. The aftermath of modern war includes a population of veterans whose needs last for many decades far longer than the war itself. This in-depth study looks at life after the military, considering the dual conundrum of a population benefiting from the perks of their duty yet continuing to deal with trauma resulting from their service and of former servicemen and servicewomen trying to fit into civilian life in a system designed to keep them separate. Through two comprehensive volumes, essays shed light on more than 30 topics involving or affecting former servicemen and servicewomen, offering a blueprint for the formal study of U.S. veterans in the future. Contributions from dozens of experts in the field of military science cover such issues as unemployment, homelessness, disability, access to higher education, health, media portrayal, criminal justice, substance abuse, guns, suicide, and politics. Through information gleaned from surveys, interviews, participant observations, secondary analyses, and content analyses, the chapters reveal how veterans are able to successfully contribute to civilian life and show how the American workforce can benefit from their unique set of skills.

Clint Eastwood Ian

Nathan,2023-09-21 Clint Eastwood is Hollywood's elder statesman and its conscience. He is the standard by which other films and filmmakers are judged. He represents both classical Hollywood and an entirely modern uncompromising and unfussy directorial presence. There are those who adore him as a cowboy, a superstar, the rugged unyielding yet introspective face of American machismo. There are those who read him as a great American auteur fashioning uncompromising fascinating intellectual films about his country, about life, about whatever the hell takes his fancy. No single figure in all of Hollywood operates so freely outside of the strictures of commercial pressure. And yet, or perhaps that is because he makes hit after hit. Separation of actor and director is almost impossible. They are intimately related, cross-pollinating, but he has become in the latter half of his career to be viewed as one of the great American artists. While drawing connections from his wider work as an actor and those who have influenced him, it is his identity as a director that this book will celebrate. This is not a career; it is a landscape. *Focus On: 100 Most Popular English-language Film Directors* Wikipedia contributors, **Hollywood**

Remembrance and American War Andrew Rayment, Paul Nadasdy, 2020-08-31 *Hollywood Remembrance and American War* addresses the synergy between Hollywood war films and American forms of war remembrance. Subjecting the notion that war films ought to be considered the war memorials of today to critical scrutiny, the book develops a theoretical understanding of how Hollywood war films as rhetorical sites of remembering and memory reflect, replicate, and resist American modes of remembrance. The authors first develop the framework for and elaborate on the co-evolution of Hollywood war cinema and American war memorialization in the historical, political, and ideological terms of remembrance and the parallel synergistic relationship between the aesthetic and industrial status of Hollywood war cinema and the remembering of American war on film. The chapters then move to analysis of Hollywood war films covering The Great War, World War II, The Korean War, The Vietnam War, The Cold War, and the wars in Afghanistan and Iraq, and critically scrutinize the terms upon which a film could be considered a memorial to the war it represents. Bringing together the fields of film studies and memory studies, this book will be of interest to scholars and students in not just these areas but those in the fields of history, media, and cultural studies more broadly too. *Studying The Hurt Locker* Terence McSweeney, 2019-07-02 In this vibrant and dynamic book, length study drawing on a broad tapestry of research, Terence McSweeney offers an exploration of *The Hurt Locker* 2009, its stylistic and narrative devices, its cultural impact, its reception, and its relationship to the genre of the war film. McSweeney places the film in a richly textured historical, political, and industrial context, arguing that *The Hurt Locker* is part of a long tradition of films about American wars that play a considerable role in how audiences come to understand the conflicts that they depict. Thus, films about a nation's wars are never only a movie but rather should be considered a cultural battleground themselves on which a war of representation is waged. *The Hero and the Victim* Gregory Brazeal, 2024-10-08 How American fiction represents soldiers and soldier criminality in depictions of the Iraq War. *Tough Ain't Enough* Lester D.
