## **American Sublime Poems:**

**American Sublime** Elizabeth Alexander, 2005-10 A fourth collection of poems by the author recalls over a century of African American traditions knitting together a blend of history biography personal experience pop culture and dreamscape

**Women Poets and the American Sublime** Joanne Feit Diehl, 1990-11-22 This is the best book on American women poets I have yet seen American Literature sophisticated and eloquently argued analysis of a female counter sublime Sandra Gilbert strong readings of Dickinson and Moore and a vital polemic on behalf of feminist criticism Harold Bloom This brilliant re evaluation of major American women poets will be indispensable reading A stunning and a magisterial achievement Susan Gubar a powerful thesis a book that is as rich as it is dense in meaning The Women's Review of Books Employing current work in gender studies psychoanalysis and literary criticism and focusing on Emily Dickinson Marianne Moore Elizabeth Bishop Sylvia Plath and Adrienne Rich the author delineates an alternative tradition of American women poets what Diehl calls the American Counter Sublime

**The American Sublime** Mary Arensberg, 1986-06-30 American poetics has been radicalized in recent years by revisionist theories which replay and ground poets against their Romantic precursors Beginning with the sublime politics of Emerson and ending with women poets who renounce the authority of gender The American Sublime represents the various modes of recent critical thinking

*The Best American Poetry 2011* David Lehman, Kevin Young, 2011-09-20 An anthology of contemporary poets presents works that reflect the diversity in American poetry

**American Sublime** Rob Wilson, 1991 Tracing ideas of the sublime in American literature from Puritan writings to the postmodern epoch Rob Wilson demonstrates that the North American landscape has been the ground for political as well as aesthetic transport He takes a distinctly historical approach and explores the ways in which experiences of the American landscape instill desire for other kinds of vastness self expansion national expansion and American political power As Wallace Stevens put it the American will takes dominion everywhere Wilson sets the stage for his genealogy with a discussion of the classical notion of the sublime taken primarily from Longinus and the ways that notion was pragmatically transformed by its American setting and appropriated by American poets He follows this transformation in successive chapters on the Puritans Bradstreet through the Naturalists Livingston and Bryant from the epitome of the American sublime Whitman to the greatest of the modernists Stevens and its present day incarnations Ashbery and others Writing today under the sign of Hiroshima contemporary writers must struggle with the concept of the sublime within a context of spiralling technologies and nuclear force that calls into question the long standing American sacralization of power Throughout American Sublime Wilson engages in an original theoretical inquiry into the sublime as term topic complex and controversial idea in literary and critical history Furthermore he undertakes his historical study from an avowedly postmodern perspective one that draws on and extends the work of Jameson Lyotard Foucault Lentricchia Harold Bloom and others

**Poets and Poems** Harold Bloom, 2009 Presents a compilation of Bloom's introductions to the Modern critical views and Modern critical interpretations

series of books focusing on poets and poems      **The American Sublime** Matthew Gasda,Jonathan Canel,Kelly Swope,2013-10-01 The American Sublime offers a lyrical argument for the centrality of imaginative power in contemporary life and for the restorative power of poetry itself The book expands upon the modern tradition of Hart Crane Wallace Stevens A R Ammons and John Ashbery it contends that meaning is not something that we construct from rational principles but rather that meaning is something that we recover from a deep awareness of our emotions and our memories The American Sublime is the third book in the Vitalist Series by LL Press      *The Cambridge Companion to Nineteenth-Century American Poetry* Kerry Larson,2011-12-01 This Companion is the first critical collection of its kind devoted solely to American poetry of the nineteenth century It covers a wide variety of authors many of whom are currently being rediscovered A number of anthologies in the recent past have been devoted to the verse of groups such as Native Americans African Americans and women This volume offers essays covering these groups as well as more familiar figures such as Dickinson Whitman Longfellow and Melville The contents are divided between broad topics of concern such as the poetry of the Civil War or the development of the poetess role and articles featuring specific authors such as Edgar Allan Poe or Sarah Piatt In the past two decades a growing body of scholarship has been engaged in reconceptualizing and re evaluating this largely neglected area of study in US literary history this Companion reflects and advances this spirit of revisionism      *Wallace Stevens* Harold Bloom,1980 Offers authoritative readings of the major long poems and sequences exploring their relationship to one another and to the works of Stevens precursors      **Encyclopedia of American Poetry: The Twentieth Century** Eric L. Haralson,2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author s career entries on individual works which offer closer explication of the most resonant poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States      **Harold Bloom (Routledge Revivals)** Peter De Bolla,2014-06-03 Since the 1960s the literary critic Harold Bloom has been producing some of the most powerful criticism in the United States This large body of work has since the publication of *The Anxiety of Influence* in 1973 increasingly distanced itself from all critical vogues be they psychoanalytic post structuralist or new formalist in favour of a highly idiosyncratic poetic theory First published in 1988 this title was the first to engage with this unique approach in order to extend and amplify its most crucial insights about the nature of rhetoric as it functions both in poetry and in poetic theory The underlying argument is for a historical conception of rhetoric for an extension of Bloom s diachronic rhetoric towards historical rhetoric      *The Oxford Book of American Poetry* David Lehman,2006 Redefines the great canon of American poetry from its origins in the 17th century right up to the present      *Analysis of Four Poems* by

*Elizabeth Alexander* Marc Hempel, 2011-03 Seminar paper from the year 2010 in the subject English Language and Literature Studies Literature grade 2 0 RWTH Aachen University Institut für Anglistik Amerikanistik und Romanistik course Modern and Contemporary American Poetry language English abstract The current President of the United States of America Barack Obama was one of the few who in his inauguration ceremony in January 2009 had a poet read an inaugural poem This delightful tradition that had only been included by three presidents before but that in many ways supports and promotes the art of contemporary American poets was kept alive by Elizabeth Alexander one of the best known and most successful recent African American women poets Her Praise Song For The Day despite some sporadic criticism was a suitable and thoughtful composition for this occasion and it was then that I heard for the first time of Elizabeth Alexander an African American poet Her work and background fascinated me especially because she is a contemporary and her work is so recent and still going on Therefore I decided to examine four of her poems in the term paper at hand Emancipation Ars Poetica 28 African Leave Taking Disorder Race and Ars Poetica 92 Marcus Garvey on Elocution During my research I had to learn that sadly there is a significant lack of research and literature on this and other contemporary authors and therefore this term paper largely consists of my own findings regarding the poems Due to the reason that her personal background and her life have influenced the poems to a notable extent I will start off with a short biographical section on Elizabeth Alexander herself and point out further biographical traits while interpreting the poems in their respective chapters I will finally summarize my findings and present my personal conclusion as regards her way of tackling her topics and her art of writing

Another Throat Ryan Sharp, 2024-10-29 The early twenty first century has seen a sharp rise in Black US poets employing the mask of persona often including and interrogating archival materials as they do so While some have observed this rise and noted its connection to historical figures Ryan Sharp explores it more deeply as a project based historical and poetic practice Sharp examines its sustained use of historical persona and capacity for conjuring Black speakers as a countermeasure against the archival silencing and misrepresentation of Black voices and histories a tactic he theorizes as poetic fabulation through the poetry of Elizabeth Alexander Cornelius Eady Adrian Matejka Patricia Smith Natasha Trethewey and Frank X Walker This poetic practice is not only about looking back but about critically and creatively re imagining the past to expand the possibilities for Black presents and futures Through his argument Sharp demonstrates how the unique aesthetic and rhetorical license afforded to poetry along with the interiority of persona empowers such historically minded projects to be concurrently invested in the curation of Black narratives and identities

*The Collected Poems of Robert Penn Warren* Robert Penn Warren, 1998-10-01 Winner of the C Hugh Holman Award A central figure in twentieth century American literature Robert Penn Warren 1905 1989 was appointed by the Library of Congress as the first Poet Laureate of the United States in 1985 Although better known for his fiction especially his novel All the King s Men it is mainly his poetry spanning sixty years fifteen volumes of verse and a wide range of styles that reveals Warren to be one of America s foremost men of

letters In this indispensable volume John Burt Warren s literary executor has assembled every poem Warren ever published with the exception of Brother to Dragons including the many poems he published in The Fugitive and other magazines as well as those that appeared in his small press works and broadsides Burt has also exhaustively collated all of the published versions of Warren s poems which in some cases appeared as many as six different times with substantive revisions in every line as well as his typescripts and proofs And since Warren never seemed to reread any of his books without a pencil in his hand Burt has referred to Warren s personal library copies This comprehensive edition also contains textual notes lists of emendations and explanatory notes Warren was born and raised in Guthrie Kentucky where southern agrarian values and a predilection for storytelling were ingrained in him as a young boy By 1925 when he graduated from Vanderbilt University he was already the most promising of that exceptional set of poets and intellectuals known as the Fugitives Warren devoted most of the 1940s and 1950s to writing prose and literary criticism but from the late 1950s he composed primarily poetry with each successive volume of verse that he penned demonstrating his rigorous and growing commitment to that genre The mature visionary power and technical virtuosity of his work in the 1970s and early 1980s emanated from his strongly held belief that only insofar as the work of art establishes and expresses a self can it engage us Many of Warren s later poems which he deemed some of my best rejoice in the possibilities of old age and the poet s ability for continually expanding in a vital process of definition affirmation revision and growth a process that is the image we may say of the life process

**Quotation and Modern American Poetry** Elizabeth Gregory,1996-07 In this volume Elizabeth Gregory addresses a number of key issues surrounding the formation of the American poetic canon Taking as her primary examples T S Eliot s Waste Land William Carlos Williams Paterson and selected poems by Marianne Moore she examines the ways in which modern American writers struggled with questions of literary authority and cultural identity in relation to pre existing European models Gregory focuses on these issues through analysis of the use of quotation in modern and postmodern literature a practice that was strikingly divergent from the accepted use of literary allusion Her introduction traces a history of quotation as it has been practiced in literature from classical to modern times She then focuses on the texts of Eliot Williams and Moore three central figures of American modernism whose work the author believes represents a spectrum of responses to the established European model of poetical discourse Gregory s selection of Moore also allows her to deal with feminist concerns as they emerge in the more general modernist dialogue How was a female writer to make use of a literary canon that traditionally excluded female participation The implications of Gregory s argument will surely be of especial interest to feminist scholars of American poetry Lois Parkinson Zamora University of Houston

**Wallace Stevens** James Longenbach,1991 *Wallace Stevens and the Limits of Reading and Writing* Bart Eeckhout,2002 Often considered America s greatest twentieth century poet Wallace Stevens is without a doubt the Anglo modernist poet whose work has been most scrutinized from a philosophical perspective Wallace Stevens and the Limits of Reading and Writing both synthesizes and extends the critical understanding of Stevens s poetry in this respect Arguing that a concern with the establishment and transgression of limits goes to the heart of this poet s work Bart Eeckhout traces both the limits of Stevens s poetry and the limits of writing as they are explored by that poetry Stevens s work has been interpreted so variously and contradictorily that critics must first address the question of limits to the poetry s signifying potential before they can attempt to deepen our appreciation of it In the first half of this book the limits of appropriating and contextualizing Stevens s *The Snow Man* in particular are investigated Eeckhout does not undertake this reading with the negative purpose of disputing earlier interpretations but with the more positive intention of identifying the intrinsic qualities of the poetry that have been responsible for the remarkable amount of critical attention it has received
