Americas Assembly Line By David E Nye Feb 15 2013:

America's Assembly Line David E. Nye, 2013-02-15 From the Model T to today's lean manufacturing the assembly line as crucial yet controversial agent of social and economic transformation The mechanized assembly line was invented in 1913 and has been in continuous operation ever since It is the most familiar form of mass production Both praised as a boon to workers and condemned for exploiting them it has been celebrated and satirized We can still picture Chaplin's little tramp trying to keep up with a factory conveyor belt In *America's Assembly Line* David Nye examines the industrial innovation that made the United States productive and wealthy in the twentieth century The assembly line developed at the Ford Motor Company in 1913 for the mass production of Model Ts first created and then served an expanding mass market It also transformed industrial labor By 1980 Japan had reinvented the assembly line as a system of lean manufacturing American industry reluctantly adopted the new approach Nye describes this evolution and the new global landscape of increasingly automated factories with fewer industrial jobs in America and questionable working conditions in developing countries A century after Ford's pioneering innovation the assembly line continues to evolve toward more sustainable manufacturing

Building Engines for War Edward M. Young, 2023-11-13 Dive into the heart of wartime innovation and manufacturing through this groundbreaking book unveiling a riveting narrative of technological mastery and organizational ingenuity This meticulously researched work challenges conventional views of wartime production offering a fresh perspective on the incredible efforts that drove the Allies to victory Young's insightful analyses illuminate the strategic collaboration between the aerospace and automotive industries showcasing their collective adaptation that created the engines powering victory Spanning continents Young examines the transformation of aircraft engine manufacturing during World War II Unearthing the operations of key players such as the Bristol Aeroplane Company Pratt it is a critical foundation for understanding the dynamics of wartime production that continue to influence our world today Edward Young's reconstruction and analysis of the Allies' massive World War II aircraft engine programs is priceless unique thorough and critical all at once Philip Scranton Professor Emeritus History of Industry and Technology Rutgers University ISBN 9781468606645 ISBN 9781468606652 ISBN 9781468606669 DOI 10.4271.9781468606652 **Dream Car** Dimitry Anastakis, 2024-03-26 *Dream Car* tells the story of entrepreneur Malcolm Bricklin's fantastical 1970s era Safety Vehicle 1 SV1 audaciously launched during a tumultuous breakpoint in postwar history The tale of the sexy yet safe SV1 reveals the influence of automobiles on ideas about the future technology entrepreneurship risk safety showmanship politics sex gender business and the state as well as the history of the auto industry's birth decline and rebirth Written as an open road the book invites readers to travel a narrative arc that unfolds chronologically and thematically *Dream Car*'s seven chapters have been structured so that they can be read in any order determined by whichever theme each reader finds most interesting The book also includes a musical playlist of car songs from the era and songs about the SV1 itself Cultural Techniques Jörg Dünne, Kathrin Fehrer, Kristina

Kuhn,Wolfgang Struck,2020-08-24 This volume presents the preliminary results of the work carried out by the interdisciplinary cultural techniques research lab at the University of Erfurt Taking up an impulse from media studies its contributions examine from a variety of disciplinary perspectives the interplay between the formative processes of knowledge and action outlined within the conceptual framework of cultural techniques Case studies in the fields of history literary and media studies and the history of science reconstruct seemingly fundamental demarcations such as nature and culture the human and the nonhuman and materiality and the symbolical order as the result of concrete practices and operations These studies reveal that particularly basic operations of spatialization form the very conditions that determine emergence within any cultural order Ranging from manual and philological paper work to practices of opening up and closing off spaces and collective techniques of assembly these case studies replace the grand narratives of cultural history focusing on micrological examinations of specific constellations between human and nonhuman actors

The Technology Trap Carl Benedikt Frey,2019-06-18 A look at the history of technological progress and how it has radically shifted the distribution of economic and political power among society s members The Industrial Revolution was a defining moment in history but few grasped its enormous consequences at the time Frey demonstrates that in the midst of another technological revolution the lessons of the past can help us to more effectively face the present
