Waltz,2014-11 Grappling with centuries old feuds defeating a shrewd insurgency and navigating the sometimes paralyzing bureaucracy of the U S military are issues that prompt sleepless nights for both policy makers in Washington and soldiers at war albeit for different

reasons Few however have dealt with these issues in the White House situation room and on the front line Michael G Waltz has done just that working as a policy advisor to Vice President Richard B Cheney and also serving in the mountains of Afghanistan as a Green Beret directly implementing strategy in the field that he helped devise in Washington In Warrior Diplomat A Green Beret s Battles from Washington to Afghanistan Waltz shares his unique firsthand experiences revealing the sights sounds emotions and complexities involved in the war in Afghanistan Waltz also highlights the policy issues that have plagued the war effort throughout the past decade from the drug trade to civilian casualties to a lack of resources in comparison to Iraq to the overall coalition strategy At the same time he points out that stabilizing Afghanistan and the region remains crucial to national security and that a long term commitment along the lines of South Korea or Germany is imperative if America is to remain secure *Special Warfare* ,2004 **The Challenge of Nation-Building** Rebecca Patterson,2014-09-17 In the last decades the United States Army has often been involved in missions other than conventional warfare These include low intensity conflicts counterinsurgency operations and nation building efforts Although non conventional warfare represents the majority of missions executed in the past sixty years the Army still primarily plans organizes and trains to fight conventional ground wars Consequently in the last ten years there has been considerable criticism regarding the military s inability to accomplish tasks other than conventional war Failed states and the threat they represent cannot be ignored or solved with conventional military might In order to adapt to this new reality the U S Army must innovate This text examines the conditions that have allowed or prevented the U S Army to innovate for nation building effectively By doing so it shows how military leadership and civil military relations have changed Nation building refers to a type of military occupation where the goal is regime change or survival a large number of ground troops are deployed and both military and civilian personnel are used in the political administration of an occupied country with the goals of establishing a productive economy and a stable government Such tasks have always been a challenge for the U S military which is not normally equipped or trained to undertake them Using military effectiveness as the measurement of innovative success the book analyzes several U S nation building cases including post World War II Germany South Korea from 1945 1950 the Vietnam War and Operation Iraqi Freedom By doing so it reveals the conditions that enabled military innovation in one unique case Germany while explaining what prevented it in the others This variation of effectiveness leads to examine prevailing military innovation theories threat based accounts quality of military organizations and civil military relations This text comes at a critical time as the U S military faces dwindling resources and tough choices about its force structure and mission orientation It will add to the growing debate about the role of civilians military reformers and institutional factors in military innovation and effectiveness *The Terrorism Threat and U.S. Government Responses* USAF Institute for National Security Studies,2001 The dual mission of the USAF Institute for National Security Studies is to promote national security research for the Department of Defense within the military academic community and to support the Air Force national
