American Cinema of the 2010s Dennis Bingham,2021-12-10 The 2010s might be remembered as a time of increased polarization in American life The decade

contained both the Obama era and the Trump era and as the nation's political fissures widened so did the gap between the haves and have nots. Hollywood reflected these divisions choosing to concentrate on big franchise blockbusters at the expense of mid budget films while new players like Netflix and Amazon offered fresh opportunities for low budget and independent filmmakers. As the movie business changed films ranging from American Sniper to Get Out found ways to speak to the concerns of a divided nation. The newest installment in the Screen Decades series American Cinema in the 2010s takes a close look at the memorable movies, visionary filmmakers and behind the scenes drama that made this decade such an exciting time to be a moviegoer. Each chapter offers an in depth examination of a specific year covering a wide variety of films from blockbuster superhero movies like Black Panther and animated films like Frozen to smaller budget biopics like I Tonya and horror films like Hereditary. This volume introduces readers to a decade in which established auteurs like Quentin Tarantino were joined by an exceptionally diverse set of new talents taking American cinema in new directions.

The Greatest Navy SEAL Stories Ever Told Laurence J. Yadon, 2018-09-01. The Greatest Navy SEAL Stories Ever Told is the first book to place side by side extraordinary stories of SEALs who put their lives on the line and then go out and do it again the next day. They illustrate the SEAL maxim: The person who will not be defeated cannot be defeated. SEALs in action: men of courage and ingenuity from the rice paddies and hills of Vietnam to the plains and mountains of Afghanistan, Iraq and Pakistan appear in these pages. These stories cover the most significant overt and covert operations conducted since the U.S. Navy established Sea, Land and Air Teams. SEALs established in January 1962. The one common denominator in these chapters is the courage and ingenuity of those who proudly call themselves Navy SEALs. Sometimes SEALs and other participants in these stories recall differing versions of the same events as recounted here for the reader to make his own judgments. So far as I know, no previously classified or sensitive information is revealed in these pages.

Hold It Real Still Lawrence P. Jackson, 2022-09-20. The author examines actor Clint Eastwood's influence on the Western film as a genre as well as how that genre continues to operate into the twenty-first century as an ideological channel for ideas about race and imperialism.

Hollywood's Imperial Wars Armando José Prats, 2024-04-16. When the Vietnam War punctured the myth of American military invincibility, Hollywood needed a new kind of war movie. The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years. How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando José Prats explores in *Hollywood's Imperial Wars*. The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war from the mythic heroism of a film like *Sands of Iwo Jima* to the rupture of that myth in films such as *The Deer Hunter*, *Apocalypse Now* and *Platoon*. As early as the mid 1940s, Prats suggests, fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth, anxieties reflected in the insistent aggressive patriotism in films of the period. In this context, Prats

considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats's analysis were forever altered by the loss in Vietnam Even movies like American Sniper that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts

Screening Love and War in Troy: Fall of a City Antony Augoustakis, Monica S. Cyrino, 2022-01-13 This is the first volume of essays published on the television series Troy Fall of a City BBC One and Netflix 2018 Covering a wide range of engaging topics such as gender race and politics international scholars in the fields of classics history and film studies discuss how the story of Troy has been recreated on screen to suit the expectations of modern audiences The series is commended for the thought provoking way it handles important issues arising from the Trojan War narrative that continue to impact our society today With discussions centered on epic narrative cast and character as well as tragic resonances the contributors tackle gender roles by exploring the innovative ways in which mythological female figures such as Helen Aphrodite and the Amazons are depicted in the series An

examination is also made into the concept of the hero and how the series challenges conventional representations of masculinity We encounter a significant investigation of race focusing on the controversial casting of Achilles Patroclus Zeus and other series characters with Black actors Several essays deal with the moral and ethical complexities surrounding warfare power and politics The significance of costume and production design are also explored throughout the volume

Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet, 2020-12-16 *Combat Death in Contemporary American Culture* Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination

The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 *The Oxford History of the Novel in English* is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film

television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

Locating Classical Receptions on Screen Ricardo Apostol, Anastasia Bakogianni, 2018-10-19 This volume explores film and television sources in problematic conversation with classical antiquity to better understand the nature of artistic reception and classical reception in particular Drawing inspiration from well theorized fields like adaptation studies comparative literature and film the essays in this collection raise questions fundamental to the future of reception studies The first section Beyond Fidelity deals with idiosyncratic adaptations of ancient sources the second section Beyond Influence discusses modern works purporting to adapt ancient figures or themes that are less straightforwardly ancient than they may at first appear while the last section Beyond Original uses films that lack even these murky connections to antiquity to challenge the notion that studying reception requires establishing historical connections between works As questions of audience interpretation and subjectivity are central to most contemporary fields of study this is a collection that is of interest to a wide variety of readers in the humanities

The New American War Film Robert Burgoyne, 2023-10-10 A look at how post 9 11 cinema captures the new face of war in the twenty first century While the war film has carved out a prominent space within the history of cinema the twenty first century has seen a significant shift in the characteristics that define it Serving as a roadmap to the genre s contemporary modes of expression *The New American War Film* explores how in the wake of 9 11 both the nature of military conflict and the symbolic frameworks that surround it have been dramatically reshaped Featuring in depth analyses of contemporary films like *The Hurt Locker* *Zero Dark Thirty* *Eye in the Sky* *American Sniper* and others *The New American War Film* details the genre s turn away from previously foundational themes of heroic sacrifice and national glory instead emphasizing the procedural violence of advanced military technologies and the haptic damage inflicted on individual bodies Unfolding amid an atmosphere of profound anxiety and disillusionment the new American war film demonstrates a breakdown of the prevailing cultural narratives that had come to characterize conflict in the previous century With each chapter highlighting a different facet of war s cinematic representation *The New American War Film* charts society s shifting attitudes toward violent conflict and what is broadly considered to be its acceptable repercussions Drawing attention to changes in gender dynamics and the focus on war s lasting psychological effects within these recent films Robert Burgoyne analyzes how cinema both reflects and reveals the makeup of the national imaginary
