Michael J. Smith Sr.,2010-08-05 This is a fictional work that encompasses modern counterterrorism with current terrorist tactics that have been thwarted or investigated by respected counterterrorism agencies These scenarios are linked together with the formation of a special privately owned terrorism task force that is designed to counter the weakening of the United States government and growth of a more sinister radical Islamic faction These all take place in real locations with a cast of characters building as the book progresses The title Casting Shadows has multiple meanings first of which is the casting or formation of both groups second it refers to the methods used by these organizations to move forward and lastly it refers to the shadows and images of people burned on buildings after several nuclear explosions Casting Shadows is a suspense thriller with law enforcement and military leanings twisting back and forth between sides This story line gets a little more complicated when more sides appear Its not just a good guy meets bad guy book but has many dimensions of good and evil and the perception of either may be different depending on the angle youre witnessing Who are the real bad guys The time line carries the reader through the development of the most sinister plot in the history of mankind Complex and very involved the plot destroys believers and nonbelievers alike The sacrifice of their own people provides a screen that ultimately weakens their objective Islamic radical factions from around the world bond together to create the ultimate union this union called Al Infitar is attempting to finish the jihad their forefathers have started With just a small force with perfect resolve funds and opportunity they attempt to complete their jihad Total Islam is their goal and total destruction is their tool Acquiring nukes for the black market the brothers embark on a slow methodical plan to destroy the Western world as we know it Is this book really fiction Your call The techniques are real The targets are real the motivation is real and the desire is real Even more frightening than that the plots are real and are being attempted as you read this Islamic radicals have stepped up attempts to

destroy our way of life The inner jihad they seek or the total acceptance of Allah by Muslims have now become an outward call for war against Western civilization and all non Muslims Jihad is being called in mosques throughout the world and groups are forming for the final push The Koran calls all Muslims to jihad which by definition is the inner struggle of an individual to fight evil the sort of yin and yang of Muslims The radical leaders interpret this differently and call for the death of any nonbeliever Who are they speaking of Who are the nonbelievers As you read this book pay particular attention to the dates because in the beginning the planning stages cover several years and locations This is typical of radical plots and the formation of cells by their recruiters takes time and large sums of money What allows the fertile ground to produce such plots to blossom is the weakened state of the United States and European governments This weakness will always be exploited as the enemy will be constantly vigilant for such cracks in the armor Enjoy this book the way it was intended not to terrify but to enlighten and make these attempts public Yes they can happen Yes they are trying And yes we can stop them So is this really a fictional book or a book that hedges on insanity Is this book a recipe for disaster or too far fetched to believe Read it and make your own decision This book like real life will continue The plots will always be there and the desire will continue The will to survive is stronger than humans can comprehend For a nation to survive it sometimes takes continuous vigilance and strength When one or the other is lacking then evil creeps in to steal what it can After 9 11 *The Storied Actor: Denzel Washington's Cultural Impact and Legacy* Abigail Jane Brooks, Dive into the extraordinary career of one of Hollywood s most beloved actors Denzel Washington This captivating biography goes beyond the red carpets and awards ceremonies to unveil the man behind the iconic roles From his humble beginnings in Mount Vernon New York to his meteoric rise to international fame you ll experience Denzel s journey as a gifted storyteller who has captivated audiences for over four decades Delve into the depth of his acting prowess explore the transformative power of his iconic roles in films like Malcolm X Training Day and Flight and gain a deeper understanding of the man whose unwavering commitment to his craft has redefined the landscape of Hollywood You ll uncover The pivotal moments that shaped his career Discover the inspiring journey from early stage performances to groundbreaking cinematic achievements The techniques that make him a master of his craft Witness Denzel s unique approach to character development and his dedication to portraying complex and nuanced characters The impact he s had on culture Explore how Denzel has become a cultural icon breaking down barriers and championing diversity in Hollywood The man behind the legend Gain intimate insights into Denzel s personal life his values and his enduring influence on generations of artists and fans This is not just a biography it s an exploration of the power of storytelling and a celebration of an extraordinary artist who has left an indelible mark on the world Bradley Cooper Kerrily Sapet,2020-09-21 Lights camera action Bradley Cooper is one of the world s most famous movie actors He has played a tough soldier a demanding chef a country music star and even a cranky alien raccoon This exciting book takes you behind the scenes to discover the real life of this legendary actor *The Sniper Encyclopaedia* John Walter,2020-11-12 The Sniper

Encyclopaedia is an indispensable alphabetical topic by topic guide to a fascinating subject. It is intended as a companion volume to John Walter's *Snipers at War* (Greenhill Books 2017) and is another addition to the Greenhill Sniper Library which includes a series of first person memoirs. This is a comprehensive work that covers virtually every aspect of sniping. The work contains personal details of hundreds of snipers including world renowned gurus such as Vasiliy Zaytsev and Chris Kyle as well as many crack shots generally overlooked by history. Among them are some of more than a thousand Red Army snipers men and a surprising number of women who amassed sufficient kills to be awarded the Medal for Courage and later the Order of Glory. Some of the best known victims of snipers are identified and the veracity of some of the most popular myths is explored. The book pays special attention to the history and development of the many specialist sniper rifles some more successful than others that have served the world's armies since the American Wars of the nineteenth century to today's technology based conflicts. Attention too is paid to the progress made with ammunition without which of course precision shooting would be impossible and the development of aids and accessories from camouflage clothing to laser rangefinders. Finally, *The Sniper Encyclopaedia* examines place and specific campaigns the way marksmen have influenced the course of the individual battles and locations which have played a crucial part in the history of sniping from individual sites to sniper schools and training grounds. The book contains authors' biographies, a critical assessment of the many books and memoirs from the world of the sniper and a guide to research techniques.

American Sniper Chris Kyle, Scott McEwen, Jim DeFelice, 2013-10-15. The 1 New York Times bestselling memoir of U.S. Navy SEAL Chris Kyle and the source for Clint Eastwood's blockbuster Academy Award nominated movie. An amazingly detailed account of fighting in Iraq, a humanizing brave story that's extremely readable.

PATRICIA CORNWELL New York Times Book Review. Jaw dropping. Undeniably riveting.

RICHARD ROEPER Chicago Sun Times. From 1999 to 2009 U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors whom he protected with deadly precision from rooftops and stealth positions during the Iraq War called him The Legend, meanwhile the enemy feared him so much they named him al Shaitan, the devil, and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war, including the deaths of two close SEAL teammates, and in moving first person passages throughout his wife Taya speaks openly about the strains of war on their family as well as on Chris. Gripping and unforgettable. Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

The Oxford Handbook of the Bible in America Paul C. Gutjahr, 2017 Early Americans have long been considered A People of the Book Because the nickname was coined primarily to invoke close associations between Americans and the Bible it is easy to overlook the central fact that it was a book not a geographic location a monarch or even a shared language that has served as a cornerstone in countless investigations into the formation and fragmentation of early American culture Few books can lay claim to such powers of civilization altering influence Among those which can are sacred books and for Americans principal among such books stands the Bible This Handbook is designed to address a noticeable void in resources focused on analyzing the Bible in America in various historical moments and in relationship to specific institutions and cultural expressions It takes seriously the fact that the Bible is both a physical object that has exercised considerable totemic power as well as a text with a powerful intellectual design that has inspired everything from national religious and educational practices to a wide spectrum of artistic endeavors to our nation s politics and foreign policy This Handbook brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview rich with bibliographic resources to those interested in the Bible s role in American cultural formation
