The Films of Clint Eastwood Matt Wanat, Leonard Engel, 2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood's 2014 *American Sniper* a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the collection address his films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work As a collection these essays show that none of these themes account for Eastwood's entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives

American Cinema of the 2010s Dennis Bingham, 2021-12-10 The 2010s might be remembered as a time of increased polarization in American life The decade contained both the Obama era and the Trump era and as the nation's political fissures widened so did the gap between the haves and have nots Hollywood reflected these divisions choosing to concentrate on big franchise blockbusters at the expense of mid budget films while new players like Netflix and Amazon offered fresh opportunities for low budget and independent filmmakers As the movie business changed films ranging from *American Sniper* to *Get Out* found ways to speak to the concerns of a divided nation The newest installment in the Screen Decades series *American Cinema in the 2010s* takes a close look at the memorable movies visionary filmmakers and behind the scenes drama that made this decade such an exciting time to be a moviegoer Each chapter offers an in depth examination of a specific year covering a wide variety of films from blockbuster superhero movies like *Black Panther* and animated films like *Frozen* to smaller budget biopics like *I, Tonya* and horror films like *Hereditary* This volume introduces readers to a decade in which established auteurs like Quentin Tarantino were joined by an exceptionally diverse set of new talents taking American cinema in new directions

Mission Unaccomplished Alan Nadel,2025 Throughout his career prominent film scholar Alan Nadel has explored the idea of cultural narratives and how every social unit sees and explains the world through the stories we tell In this book he identifies how the war film genre has changed in the 21st century after 9 11 and more specifically Bush s announcement of Mission Accomplished He explains how the traditional war film narrative in which soldiers have a specific mission or objective to achieve in battle changed to one in which war is treated as a daily occupation with no larger mission that will lead even in the long run to peace He examines how films such as Saving Private Ryan at the end of the 20th century have morphed into films such as Jarhead The Hurt Locker and The Green Zone With the indefinite and ill planned occupation of Afghanistan and Iraq including the privatization of many military services through contractors this new situation has led to films in which we follow soldiers day to day lives as they go through their duties or even after they ve come home as in American Sniper Another change in war films during the Global War on Terror puts the emphasis on just surviving and getting out such as in Hacksaw Ridge which even carries over to films about for example WWII such as Dunkirk Again combatants have no specific goal other than escaping or helping others to escape or just surviving long enough to go home Nadel shows how this change has also affected non war films such as Sully Captain Phillips Deepwater Horizon and Get Out and even the television series Lost Nadel deftly moves between political history and film analysis with this wide ranging lucid examination of the changing nature and role of war films

Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet,2020-12-16 *Combat Death in Contemporary American Culture* Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination

Demanding Witness Erika L. Weiberg,2024 *Demanding Witness* argues that we need to reconsider the stories we tell about war s aftermath and its traumatic effects on soldiers and civilians Many homecoming stories from antiquity to today focus on a trauma hero who returns home and overcomes pain and injury Yet this story excludes many others harmed by war including noncombatants and fails to question why soldiers are going to war in the first place Several Greek tragedies

explore the traumatic effects of war on the home This book shifts the focus to the representation and reception of women s expressions of trauma in these plays to expose the ripple effects of war even on individuals and communities distant from the fighting

Hollywood's Imperial Wars Armando José Prats, 2024-04-16 When the Vietnam War punctured the myth of American military invincibility Hollywood needed a new kind of war movie The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando Jos Prats explores in Hollywood s Imperial Wars The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood s earlier representations of Americans at war from the mythic heroism of a film like Sands of Iwo Jima to the rupture of that myth in films such as The Deer Hunter Apocalypse Now and Platoon As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical

and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Pratts analysis were forever altered by the loss in Vietnam Even movies like American Sniper that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Pratts calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts We're Doomed. Now What? Roy Scranton, 2018-07-17 An American Orwell for the age of Trump Roy Scranton faces the unpleasant facts of our day in 15 insightful honest essays on war climate change and violence Our moment is one of alarming and bewildering change the breakup of the post 1945 global order a multispecies mass extinction and the beginning of the end of civilization as we know it Not one of us is innocent not one of us is safe Now what We're Doomed Now What addresses the crisis that is our time through a series of brilliant moving and original essays on climate change war literature and loss from one of the most provocative and iconoclastic minds of his generation Whether writing about sailing through the melting Arctic preparing for Houston's next big storm watching Star Wars or going back to the streets of Baghdad he once patrolled as a soldier Roy Scranton handles his subjects with the same electric philosophical demotic touch that he brought to his groundbreaking New York Times essay Learning How to Die in the Anthropocene *Docu-Fictions of War* Tatiana Prorokova, 2019-05-01 Historical writing and fiction are not the same thing though historians often creatively manipulate material in imposing plot structures selecting starting and ending points and fashioning compelling literary characters from historical figures In *Docu Fictions of War* Tatiana Prorokova argues that the opposite is also true war fiction offers a kind of history that both documents its subjects and provides a snapshot of the cultural representation of the United States most recent military involvements She covers a largely neglected body of cinematic and literary texts about the First Gulf War the Balkan War the Afghanistan War and the Iraq War to open a fresh analysis of cultural texts on war Prorokova contends that these texts are not pure fiction but docu fictions works of imagination that can document their subjects while disclosing the social political and historical link between war and culture during the last three decades *Docu Fictions of War* analyzes how these representational narratives have highlighted a humanitarian rationale behind American involvement in each war whether the stated goals were to free the oppressed from tyranny stop genocide or rid the world of terrorism The book explores the gap between history what allegedly happened and the cultural mythology that is both true and inexact tangible and sensed recognized and undocumented **The Routledge Introduction to American War Literature** Jennifer Haytock, 2018-05-11 War and violence have arguably been some of the strongest influences on literature but the relation is complex more than just a subject for story telling war tends to reshape literature and culture Modern war literature necessarily engages with national ideologies and this volume looks at the specificity of how American literature deals with

the emotional intellectual social political and economic contradictions that evolve into and out of war Raising questions about how American ideals of independence and gender affect representations of war while also considering how specifically American experiences of race and class interweave with representations of combat this book is a rich and coherent introduction to these texts and critical debates
