Houston, 2018-08-01 The entertainment industry has long been dominated by legendary screenwriter William Goldman's *Nobody Knows Anything* mantra which argues that success is the result of managerial intuition and instinct This book builds the case that combining such intuition with data analytics and rigorous scholarly knowledge

provides a source of sustainable competitive advantage the same recipe for success that is behind the rise of firms such as Netflix and Spotify but has also fueled Disney's recent success. Unlocking a large repertoire of scientific studies by business scholars and entertainment economists, the authors identify essential factors, mechanisms, and methods that help a new entertainment product succeed. The book thus offers a timely alternative to *Nobody Knows* decision making in the digital era while coupling a good idea with smart data analytics and entertainment theory cannot guarantee a hit; it systematically and substantially increases the probability of success in the entertainment industry. Entertainment Science is poised to inspire fresh new thinking among managers, students of entertainment, and scholars alike.

Thorsten Hennig-Thurau and Mark B. Houston, two of our finest scholars in the area of entertainment marketing, have produced a definitive research-based compendium that cuts across various branches of the arts to explain the phenomena that provide consumption experiences to capture the hearts and minds of audiences. Morris B. Holbrook, W. T. Dillard, Professor Emeritus of Marketing, Columbia University, Entertainment Science is a must-read for everyone working in the entertainment industry today where the impact of digital and the use of big data can't be ignored anymore. Hennig-Thurau and Houston are the scientific frontrunners of knowledge that the industry urgently needs.

Michael K. Imel, media entrepreneur and Honorary Professor of Media Economics at University of Leipzig, Entertainment Science's winning combination of creativity theory and data analytics offers managers in the creative industries and beyond a novel, compelling, and comprehensive approach to support their decision making. This ground-breaking book marks the dawn of a new Golden Age of fruitful conversation between entertainment scholars, managers, and artists.

Vigilantes Kevin Grant, 2020-01-03 For many people, the cinematic vigilante has been shaped by Charles Bronson's character in *Death Wish* and its sequels. But screen vigilantes have taken many guises, from Old West lynch mobs and rogue police officers to rape avengers and military-trained equalizers. This book recounts the varied representations of such characters in films like *The Birth of a Nation*, which celebrated the violence of the Ku Klux Klan, and *Taxi Driver*, *Falling Down*, and *You Were Never Really Here*, in which the vigilante impulse was symptomatic of mental instability. Also considered is the extent to which fictional vigilantism functions as social commentary and to what degree it is simply stoking popular fears.

The New American Crime Film Matthew Sorrento, 2012-09-26 The American crime film has recently enjoyed a surge in popularity and proliferation, making it the most pervasive genre in contemporary cinema. Though it now tackles current issues, it continues to reference the classic narratives and archetypes established in the great crime pictures of past decades. The titles explored in this critical survey feature a variety of themes and show that the crime film genre has fused with other genres to create fascinating hybrids. Focusing on character and plot construction, the author highlights the gangster and film

noir traditions that still run strongly through recent American cinema Among the many filmmakers analyzed within these pages are David Lynch Gus Van Sant David Mamet Werner Herzog Sam Raimi David Cronenberg and the Coen Brothers Stuart Gordon director of the cult classic *Re Animator* provides the lively and incisive foreword **Clint Eastwood** Ian Nathan,2023-09-21 Clint Eastwood is Hollywood's elder statesman and its conscience He is the standard by which other films and filmmakers are judged He represents both classical Hollywood and an entirely modern uncompromising and unfussy directorial presence There are those who adore him as a cowboy a superstar the rugged unyielding yet introspective face of American machismo There are those who read him as a great American auteur fashioning uncompromising fascinating intellectual films about his country about life about whatever the hell takes his fancy No single figure in all of Hollywood operates so freely outside of the strictures of commercial pressure And yet or perhaps that is because he makes hit after hit Separation of actor and director is almost impossible They are intimately related cross pollinating but he has become in the latter half of his career to be viewed as one of the great American artists While drawing connections from his wider work as an actor and those who have influenced him it is his identity as a director that this book will celebrate This is not a career it is a landscape **Tough Ain't Enough** Lester D. The Hell of War Comes Home Owen W. Gilman Jr.,2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II's literature and film Like few other books Gilman's volume studies these new texts among them Kevin Powers's debut novel *The Yellow Birds* and Phil Klay

s short stories Redeployment along with the films The Hurt Locker American Sniper and Billy Lynn's Long Halftime Walk. For perspective, Gilman also looks at some touchstones from the Vietnam War. Compared to a few of the big Vietnam books and films, this new material has mostly been read and watched by small audiences and generated less discussion. Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact. He contends that Americans' inclination to demand distraction limits learning from these compelling responses to war. In the past decade, according to Gilman, where there should be clarity and depth of knowledge, we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding.
