American Sniper Walmart:

God, Guns, Gold and Glory Lauren Langman, George Lundskow, 2016-09-12 America beginning as a small group of devout Puritan settlers ultimately became the richest most powerful Empire in the history of the world but having reached that point is now in a process of implosion and decay This book inspired by Frankfurt School Critical Theory especially Erich Fromm offers a unique historical cultural and characterological analysis of American national character and its underlying psychodynamics Specifically this analysis looks at the persistence of Puritan religion as well as the extolling of male toughness and America's unbridled pursuit of wealth Finally its self image of divinely blessed exceptionalism has fostered vast costs in lives and wealth But these qualities of its national character are now fostering both a decline of its power and a transformation of its underlying social character This suggests that the result will be a changing social character that enables a more democratic tolerant and inclusive society one that will enable socialism genuine participatory democracy and a humanist framework of meaning This book is relevant to understanding America's past present and future

Gorgeous War Tim Blackmore, 2019-10-29 *Gorgeous War* argues that the Nazis used the swastika as part of a visually sophisticated propaganda program that was not only modernist but also the forerunner of contemporary brand identity When the United States military tried to answer Nazi displays of graphic power it failed In the end the best graphic response to the Nazis was produced by the Walt Disney Company Using numerous examples of US and Nazi military heraldry *Gorgeous War* compares the way the American and German militaries developed their graphic and textile design in the interwar period The book shows how social and cultural design movements like modernism altered and were altered by both militaries It also explores how nascent corporate culture and war production united to turn national brands like IBM Coca Cola and Disney into multinational corporations that had learned lessons on propaganda and branding that were being tested during the Second World War What is the legacy of apparently toxic signs like the swastika The answer may not be what we hoped Inheritors of the post Second World War world increasingly struggle to find an escape from an intensely branded environment to find a place in their lives that is free of advertising and propaganda This book suggests that we look again at how it is our culture makes that struggle into an appealing *Gorgeous War*

The Hell of War Comes Home Owen W. Gilman Jr., 2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel *The Yellow Birds* and Phil Klay s short stories *Redeployment* along with the films *The Hurt Locker* *American Sniper* and *Billy Lynn s Long Halftime Walk* For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding

Warmonger Jeremy Kuzmarov, 2023-12-01 During the 2016 presidential election many younger voters repudiated Hillary Clinton because of her husband's support for mass incarceration banking deregulation and free trade agreements that led many U S jobs to be shipped overseas Warmonger How Clinton's Malign Foreign Policy Launched the Trajectory from Bush II to Biden shows that Clinton's foreign policy was just as bad as his domestic policy Cultivating an image as a former anti Vietnam War activist to win over the aging hippie set in his early years as president Clinton bombed six countries and by the end of his first term had committed U S troops to 25 separate military operations compared to 17 in Ronald Reagan's two terms Clinton further expanded America's covert empire of overseas surveillance outposts and spying and increased the budget for intelligence spending and the National Endowment for Democracy NED a CIA offshoot which promoted regime change in foreign nations The latter was not surprising because according to CIA operative Cord Meyer Jr Clinton had been recruited into the CIA while a Rhodes Scholar at Oxford and as Governor of Arkansas in the 1980s he had allowed clandestine arms and drug flights to Nicaraguan counter revolutionaries Contras backed by the CIA to be taken from Mena Airport in the western part of the state Rather than being a time of tranquility when the U S failed to pay attention to the gathering storm of terrorism as New York Times columnist David Brooks frames it the Clinton presidency saw rising tensions among the U S China and Russia because of Clinton's malign foreign policies and U S complicity in terrorist acts In so many ways Clinton's presidency set the groundwork for the disasters that were to follow under Bush II Obama Trump and Biden It was Clinton building off of Reagan who first waged a War on Terror ridden with double standards one that adopted terror tactics including extraordinary rendition bombing and the use of drones It was Clinton who cried wolf about human rights abuses and the need to protect beleaguered peoples from genocide to justify military intervention in a post Cold War age And it was Clinton's administration that pressed for regime change in Iraq and raised public alarm about the mythic WMDs all while relying on fancy new military technologies and private military contractors to distance US shady military interventions from the public to limit dissent

Zombology Brian Anse Patrick, 2014 In films television books games pornography and now even in firearms and ammunition being sold to the American public zombies are one of the mainstays of the popular culture of our time Far from being only a passing curiosity Brian Patrick dissects the zombie showing it as the articulation of deep seated fears within the Western psyche a symbol in fact for the growing dehumanization that many of us observe or perhaps sense without fully realizing it in modern civilization Patrick connects the zombie phenomenon to previous historical occurrences drawing on both religion and psychology to show how such symbolic tropes that lodge in the collective unconscious of a culture are reflective of the psychological needs of large numbers of people in times of crisis Patrick likewise shows how zombiedom has manifested particularly in American gun culture and how this relates to the

growth of a large scale citizens activist movement in favor of gun rights Also included are practical tips on how to stay out of the clutches of zombiedom Zombology is more than just a book about zombies however The zombie for Patrick is a peculiarly Western phenomenon and as such he examines how it can be seen as a manifestation of not so abstract forces battling for the future of our civilization will collectivization or the individual dream or reality win out Patrick offers his own diagnosis At the very least the zombie adds some much needed psychic contrast to the cold to the grey and to the unending It also provides a face albeit necrotic to the seemingly impersonal sociological forces that undermine the West for in a near perfect correspondence with the zombie the West itself appears to be necrotic in a galloping way Both need brains to ease the pain p 48
