Digital Initiatives for Literacy Development in Elementary Classrooms: Emerging Research and Opportunities Brown, Sally Ann, 2017-08-11 Children of today are growing up in technology rich environments and spend countless hours engaged with digital tools It is essential that educators take advantage of children's technological skills once they enter the classroom Digital Initiatives for Literacy Development in Elementary Classrooms Emerging Research and Opportunities is an essential reference work featuring the latest scholarly research on the benefits of technology integration into classrooms to enhance learning experiences Including coverage on a number of topics and perspectives such as multimodal literacy cloud based writing and social semiotics this publication is ideally designed for educators media specialists instructional technology coaches literacy coaches and academics seeking current research on classroom literacy practices *Participatory Literacy Practices for P-12 Classrooms in the Digital Age* Mitchell, Jessica S., Vaughn, Erin N., 2019-10-11 The ability to effectively communicate in a globalized world shapes the economic social and democratic implications for the future of P 12 students Digitally mediated communication in an inclusive classroom increases a student's

familiarity and comfortability with multiple types of media used in a wider technological culture. However, there is a need for research that explores the larger context and methodologies of participatory literacy in a digital educational space. *Participatory Literacy Practices for P-12 Classrooms in the Digital Age* is an essential collection of innovative research on the methods and applications of integrating digital content into a learning environment to support inclusive classroom designs. While highlighting topics such as game-based learning, coding education, and multimodal narratives, this book is ideally designed for practicing instructors, pre-service teachers, professional development coordinators, instructional facilitators, curriculum designers, academicians, and researchers seeking interdisciplinary coverage on how participatory literacies enhance a student's ability to both contribute to the class and engage in opportunities beyond the classroom. **Handbook of Research on Adapting Remote Learning Practices for Early Childhood and Elementary School Classrooms**

Courtney-Dattola, Ashley, 2021-12-17 Teaching is a demanding profession as there is constant fluctuation and evolution. A portion of teaching is the ability to be able to adapt to various environments, especially shifting from in-person instruction to online practices. Over the last few years, early childhood and elementary school classrooms have been thrust into hybrid and remote learning environments, and it is vital that educators and institutions adapt to new practices and create various outlets for teachers to be able to more adequately reach their young audience. *The Handbook of Research on Adapting Remote Learning Practices for Early Childhood and Elementary School Classrooms* is a critical resource to assist teachers as they develop online teaching practices and work to cater to young students so that they can receive the strongest benefits from their education. Through coverage of topics such as hybrid learning and parental involvement, paired with sample lesson plans, course formats, concepts, ideas, and additional components to further the body of research pertaining to remote learning, this book is tremendously beneficial to administrators, researchers, academicians, practitioners, instructors, and students.

Creativity and Technology in Mathematics Education Viktor Freiman, Janet Lynne Tassell, 2018-09-03 This volume provides new insights on creativity while focusing on innovative methodological approaches in research and practice of integrating technological tools and environments in mathematics teaching and learning. This work is being built on the discussions at the mini-symposium on Creativity and Technology at the International Conference on Mathematical Creativity and Giftedness (ICMCG) in Denver, USA, 2014, and other contributions to the topic. The book emphasizes a diversity of views, a variety of contexts, angles, and cultures of thought, as well as mathematical and educational practices. The authors of each chapter explore the potential of technology to foster creative and divergent mathematical thinking, problem solving, and problem posing; creative use of dynamic, multimodal, and interactive software by teachers and learners; as well as other digital media and tools while widening and enriching transdisciplinary and interdisciplinary connections in the mathematics classroom. Along with ground-breaking innovative approaches, the book aims to provide researchers and practitioners with new paths for diversification of opportunities for all students to become more creative and innovative mathematics learners. A framework

for dynamic learning conditions of leveraging mathematical creativity with technology is an outcome of the book as well

Amplify Katie Muhtaris, Kristin Ziemke, 2015 **Strategies That Work** Stephanie Harvey, Anne Goudvis, 2023-10-10

Since the first publication of *Strategies That Work* numerous new books on reading comprehension have been published and more educators than ever are teaching comprehension. In this third edition of their groundbreaking book, authors Stephanie Harvey and Anne Goudvis bring you *Strategies That Work: Teaching Comprehension for Understanding, Engagement, and Building Knowledge*. This new edition is organized around three sections: Part I: Starting with the Foundation of Meaning; these chapters provide readers with a solid introduction to reading comprehension instruction, including principles that guide practice, suggestions for text selection, and a review of recent research. Part II: Putting these principles into practice for all areas of reading comprehension. Part III: This section shows you how to integrate comprehension instruction across the curriculum and the school day with a focus on science and social studies. In addition, this new version includes updated bibliographies, including the popular *Great Books for Teaching*, content online resources, and fully revised chapters focusing on digital reading strategies for integrating comprehension and technology and comprehension across the curriculum. Harvey and Goudvis tackle close reading, close listening, text complexity, and critical thinking and demonstrate how your students can build knowledge through thinking-intensive reading and learning. This third edition is a must-have resource for a generation of new teachers and a welcome refresher for those with dog-eared copies of this timeless guide to reading comprehension. Best Practices in Literacy Instruction, Sixth Edition Lesley Mandel Morrow, Linda B.

Gambrell, 2018-11-23 Many tens of thousands of preservice and inservice teachers have relied on this highly regarded text from leading experts; now in a revised and updated sixth edition, the latest knowledge about literacy teaching and learning is distilled into flexible strategies for helping all PreK-12 learners succeed. The book addresses major components of literacy: the needs of specific populations, motivation, assessment approaches to organizing instruction, and more. Each chapter features bulleted previews of key points, reviews of the research evidence, recommendations for best practices in action, including examples from exemplary classrooms and engagement activities that help teachers apply the knowledge and strategies they have learned. New to This Edition: Incorporates the latest research findings and instructional practices; Chapters on new topics: developmental word study and the physiological, emotional, and behavioral foundations of literacy learning; Chapters offering fresh, expanded perspectives on writing and vocabulary; Increased attention to timely issues: classroom learning communities, teaching English learners, and the use of digital tools and multimodal texts. **The Music Technology**
