Crisafulli, Gilberta Golinelli, 2019-05-21 The volume investigates the voice of women writers in the development of literary studies and interrogates how scholars read and teach women's literary texts. These issues are still crucial for women's and gender studies today and deserve to be properly investigated and constantly updated. The various essays collected here examine how and to what extent women across time and space experimented with new genres or forms of expression in order to transform, question, resist, or paradoxically consolidate gender discriminations and dominant ideologies: patriarchy, colonialism, slavery, and racism, imperialism, religion, and hetero sexuality. *Women's Voices and Genealogies in Literary Studies in English* is addressed to MA and PhD students in women's and gender studies and to all those students or young scholars who are interested in gender methodologies as a mode of practice in literary criticism and analysis. The authors of the volume share a long standing experience in women's and gender studies and in teaching English, women's literature, literary criticism, and feminist methodologies and theories to students from different national origins. *The Psychology of Teen Violence and Victimization*

Michele A. Paludi, 2011-10-20 This compilation of original essays does more than just illuminate the serious problem of teen violence and victimization; it also provides resources that parents and teachers can use to address issues of violence with their teens and make a difference. While it's widely known that hate crimes represent a serious issue among today's adolescent population, most parents and perhaps even some educators may be unaware that gender-based violence is the most prevalent type of hate crime committed by and experienced by teens, and that adolescent girls are exposed to more violence than boys. A complete understanding of the nature of the problem is fundamental to curtailing problems like cyberbullying and sexual harassment. *The Psychology of Teen Violence and Victimization* is a two-volume set that fills a gap in the current literature on teen violence by addressing the incidence, psychological explanations, and impact of all forms of teen violence. The author, a psychologist who has focused upon interpersonal problems centered on violence, harassment, and gender, provides in-depth discussion of the various types of violence committed by and against teens. The set offers actionable prevention strategies for parents and teachers as well as individuals involved in community programs. Special attention is given to the impact of violence on adolescents' emotional and physical health, interpersonal relationships, career development, and self-concept. *The Everything Creative Writing Book*
