Anselm of Canterbury , 2024-12-16 This volume explores important aspects of the life and writings of Anselm of Canterbury His is a world in which the created order with its hierarchies of natures and roles manifests a divine order that proceeds from the divine nature Individual chapters examine Anselm s understanding of rectitude truth justice and redemption the relationship of free will and grace and of faith and reason whether and how we can speak of or reject the divine Anselm s approach to death his understanding of the superiority of monasticism in the social and spiritual order and the role that angels play in his metaphysical and theological arguments

God and the Problem of Logic Andrew Dennis Bassford, 2023-06-08 Classical theists hold that God is omnipotent But now suppose a critical atheologian were to ask Can God create a stone so heavy that even he cannot lift it This is the dilemma of the stone paradox God either can or cannot create such a stone Suppose that God can create it Then there s something he

cannot do namely lift the stone Suppose that God cannot create the stone Then again there s something he cannot do namely create it Either way God cannot be omnipotent Among the variety of known theological paradoxes the paradox of the stone is especially troubling because of its logical purity It purports to show that one cannot believe in both God and the laws of logic In the face of the stone paradox how should the contemporary analytic theist respond Ought they to revise their belief in theology or their belief in logic Ought they to lose their religion or lose their mind The Platonic Mind Peter D.

Larsen,Vasilis Politis,2024-11-26 Plato is one of the most widely read and studied philosophers of all time A pivotal figure in the history of philosophy his work is foundational to the Western philosophical tradition The Platonic Mind provides an extensive survey of his work not only placing it in its historical context but also exploring its contemporary significance Comprising over 30 specially commissioned chapters by an international team of contributors the volume is divided into three clear parts Reading Plato s Dialogues Themes From Plato Plato s Influences and Significance Within these sections key topics are addressed including the nature of reality and the physical world human cognition including knowledge sense perception and affective states society politics and law his method of inquiry and literary style his influence on subsequent thinkers and traditions and studies on a wide range of individual Platonic dialogues Plato s work is central to the study of ancient philosophy Greek philosophy history of philosophy metaphysics philosophy of mind political philosophy epistemology philosophy of science ethics philosophy of language legal philosophy and philosophy of religion As such The Platonic Mind is essential reading for all students and researchers in philosophy It will also be of interest to those studying Plato in related disciplines such as politics law ancient history literature and religious studies Anthropocentrism and Its Discontents Gary Steiner,2005-11-06 Anthropocentrism and Its Discontents is the first ever comprehensive examination of views of animals in the history of Western philosophy from Homeric Greece to the twentieth century In recent decades increased interest in this area has been accompanied by scholars willingness to conceive of animal experience in terms of human mental capacities consciousness self awareness intention deliberation and in some instances at least limited moral agency This conception has been facilitated by a shift from behavioral to cognitive ethology the science of animal behavior and by attempts to affirm the essential similarities between the psychophysical makeup of human beings and animals Gary Steiner sketches the terms of the current debates about animals and relates these to their historical antecedents focusing on both the dominant anthropocentric voices and those recurring voices that instead assert a fundamental kinship relation between human beings and animals He concludes with a discussion of the problem of balancing the need to recognize a human indebtedness to animals and the natural world with the need to preserve a sense of the uniqueness and dignity of the human individual

Ecological Ethics and the Philosophy of Simone Weil Kathryn Lawson,2024-05-13 This book places the philosophy of Simone Weil into conversation with contemporary environmental concerns in the Anthropocene The book offers a systematic interpretation of Simone Weil making her ethical philosophy more accessible to non Weil scholars Weil s work has been

influential in many fields including politically and theologically based critiques of social inequalities and suffering but rarely linked to ecology Kathryn Lawson argues that Weil's work can be understood as offering a coherent approach with potentially widespread appeal applicable to our ethical relations to much more than just other human beings She suggests that the process of decreation in Weil is an expansion of the self which might also come to include the surrounding earth and a vast assemblage of others This allows readers to consider what it means to be human in this time and place and to contemplate our ethical responsibilities both to other humans and also to the more than human world Ultimately the book uses Weil's thought to decenter the human being by cultivating human actions towards an ecological ethics This book will be useful for Simone Weil scholars and academics as well as students and researchers interested in environmental ethics in departments of comparative literature theory and criticism philosophy and environmental studies For further discussion on the book please check out the following podcast and book launch links below <https://youtu.be/oOUEeSiMrh8> https://youtu.be/sLc1jIw_CW8 <https://youtu.be/xQPeW4iK8vC3pnA> <https://youtu.be/jf12ZVRr3oY> <https://youtu.be/z7Z9xRdEn8fhaMGY>

The Plant-based and Vegan Handbook Yanoula Athanassakis, Renan Larue, William O'Donohue, 2024-09-17 The Plant-based and Vegan Handbook is the first of its kind to bring together interlocking and sometimes conflicting perspectives focused on veganism and plant-based living As an interdisciplinary volume the noted contributors are from the fields of medicine psychiatry environmental studies sociology marine ecology philosophy agriculture psychology animal studies religion economics literature business and law Despite a range of individual preferences these authors advance a scientific argument for a societal move away from the current model of human and nonhuman animal relationships In our Anthropocene era experts not only debate about how human beings will survive on Earth but more particularly are more concerned with how they will thrive As evidenced by the authors in this collection it will involve a reconsideration of the way our species relates to the planet and to other species This volume can serve as a critical reference work especially for students and scholars working in both emerging and established fields such as psychology medicine animal studies food studies environmental studies philosophy animal ethics and marine ecology

Reexamining Love of Wisdom Juan Carlos Flores, 2016-09-30 What is philosophy Why does it matter How have philosophy and its relation to religion and science changed from the ancient to the medieval and modern periods and beyond What are the central philosophical ideas from Socrates to Nietzsche Reexamining Love of Wisdom addresses these questions It offers a new perspective by organizing the material under the theme of philosophical desire and shows the timeless importance of philosophy understood as the love of wisdom Flores provides an historical introduction to philosophy suitable for college students that is a resource for more advanced students or scholars interested in the history and nature of philosophy

Divine Ideas Thomas M. Ward, 2020-09-03 This Element defends a version of the classical theory of divine ideas the containment exemplarist theory of divine ideas The classical theory holds that God has ideas of all possible creatures that these ideas partially explain why God

s creation of the world is a rational and free personal action and that God does not depend on anything external to himself for having the ideas he has The containment exemplarist version of the classical theory holds that God s own nature is the exemplar of all possible creatures and therefore that God s ideas of possible creatures are in some sense ideas of himself Containment exemplarism offers a monotheism fit for metaphysics insofar as it is coherent simple and explanatorily powerful and offers a metaphysics fit for monotheism insofar as it leaves God truly worthy of the unconditional worship which Christians along with Jews and Muslims aspire to offer to God

History of Ethics Daniel Star,Roger Crisp,2019-05-06

Is there an objective moral standard that applies to all our actions To what extent should I sacrifice my own interests for the sake of others How might philosophers of the past help us think about contemporary ethical problems As the most recent addition to the Blackwell Readings in Philosophy series History of Ethics Essential Readings with Commentary brings together rich and varied excerpts of canonical work and contemporary scholarship to span the history of Western moral philosophy in one volume Editors Star and Crisp noted scholars in their fields expertly introduce the readings to illuminate the main philosophical ideas and arguments in each selection and connect them to broader themes These detailed and incisive editorial commentaries make the primary source texts accessible to students while guiding them chronologically through the history of Western ethics Structured around a thematic table of contents divided into three distinct sections History of Ethics charts patterns in the development of ethical thought across time to highlight connections between intellectual movements Selections range from the work of well known figures such as Plato Aristotle Nietzsche and Mill to the work of philosophers often overlooked by such anthologies including Butler Smith Sidgwick Anscombe Foot and Frankena Star and Crisp skillfully arrange the collection to connect readings to contemporary issues and interests by featuring examples such as Aquinas on self defense and the doctrine of double effect Kant on virtue and Mill s The Subjection of Women Written for students and scholars of ethics History of Ethics is a comprehensive collection of readings with expert editorial commentary that curates the most important and influential work in the history of ethics in the Western world

A Humane Case for Moral Intuition Benjamin S. Llamzon,2022-04-25 The book contends that contrary to accepted interpretation moral intuition rather than any other form of reasoning least of all formal logic is the moral method found in the ethics of Aristotle Aquinas Kant and Dewey the first four chapters of the book These four thinkers represent a dialectical selection of ethical relativism and absolutism as well as a chronological succession from ancient to contemporary thought The fifth and concluding chapter is a major presentation of the author s thesis on moral intuition as the exact antidote against the dilemma ethics approach which is widely used today with rapidly diminishing effect and interest This chapter is a detailed illustration of how moral intuition works out concretely in the lived world It stresses the unity of moral experience even as this is clouded over by our relatively fewer but overdramatized confrontations on some moral issues

A

Philosophy of Belonging James Greenaway,2023-08-15 James Greenaway offers a philosophical guide to understanding

affirming and valuing the significance of belonging across personal political and historical dimensions of existence A sense of belonging is one of the most meaningful experiences of anyone's life Inversely the discovery that one does not belong can be one of the most upsetting experiences In *A Philosophy of Belonging* Greenaway treats the notion of belonging as an intrinsically philosophical one After all belonging raises intense questions of personal self understanding identity mortality and longing it confronts interpersonal sociopolitical and historical problems and it probes our relationship with both the knowable world and transcendent mystery Experiences of alienation exclusion and despair become conspicuous only because we are already moved by a primordial desire to belong Greenaway presents a hermeneutical framework that brings the intelligibility of belonging into focus and discusses the works of various representative thinkers in light of this hermeneutic The study is divided into two main parts Presence and Communion In the first Greenaway considers the abiding presence of the cosmos as the context of personhood and the world followed by the presence of persons to themselves and others by way of consciousness and embodiment culminating in a discussion of the unrestricted horizon of meaning that love makes present in persons In the second part belonging in community is explored as a crucial type of communion that is both politically and historically structured Moreover communion has direction and a quality of sacredness that offers itself for consideration Greenaway concludes with a discussion of the consequences of refusing presence and communion and what is involved in the repudiation of belonging

Identity and Coherence in Christology Paul S. Scott, 2023-09-29 This book explores a number of closely related logical and metaphysical questions relating to the identity of Jesus Christ In particular it considers What does Jesus Christ name and How may Jesus Christ be the subject of both divine and human attributes given their apparent incompatibility The author draws on analytic and scholastic influences and integrates them into a rehabilitation of the neglected habitus theory of the hypostatic union The theory maintains a real identity between Christ and the Word and emphasises the instrumental or possessory dimension of Christ's relationship to his human nature This approach allows for an account of the hypostatic union that is true to the indispensable articles of classical Christology and which satisfies the demands of logical coherence Yet at no point is the mystery of the Incarnational event reduced to the strictures of creaturely comprehension The book will be of particular interest to scholars of Christology analytic theology and the philosophy of religion

Metaphors of Mind Brad Pasanek, 2015-07 Promoting critical and creative anachronism *Metaphors of Mind* redefines the notion of an archive in the age of Amazon and Google Books

Schooling, Human Capital and Civilization Bruce Moghtader, 2023-08-18 This book explores the formation of human capital in education interrogating its social and ethical implications and examining its role in generating policies and practices that govern curriculum studies as an academic field Using an inquiry approach and offering an intellectual history of human capital theory through a genealogical methodology the author begins by contextualizing the formation of the theory and explores its correlation with the history of imperialism Tracing the concept of human capital from ancient slave societies to colonial empires the book arrives at the

modern formulations of the concept in education systems and explores its impact on curriculum and pedagogy in the digital age Asking whether an approach that represented slaves machines animals and property in its history is appropriate for forward looking democratic societies the author then uncovers crucial implications for educational equity and teacher development Presenting a unique genealogy of schooling humans as economic resources and offering a descriptive and critical analysis of its impact on education as lived experience the author excavates ideas and mentalities by which we think about modern schooling processes This approach supports the intellectual development of teachers and offers a critical assessment of power knowledge relations in curriculum studies Discerning associations between the human capital theory of education and technological progress with implications for ethics in the digital age it will be an outstanding resource for scholars and graduates working across comparative and international education the history of education curriculum studies digital education and curriculum theory

A History of Western Philosophy C. Stephen Evans, 2018-10-09 Plato Aristotle Augustine Hume Kant Hegel Every student of philosophy needs to know the history of the philosophical discourse such giants have bequeathed us Philosopher C Stephen Evans brings his expertise to this daunting task as he surveys the history of Western philosophy from the Pre Socratics to Nietzsche and postmodernism and every major figure and movement in between

Liberal Perspectives on Inclusion Joseph Mintz, 2024-10-28 Providing a theoretical underpinning for the idea of inclusion within education this book recognizes the fundamental role political values play in our understanding of inclusion in the classroom providing a philosophical lens on the inherent tensions that exist within sociological perspectives on social justice equity and diversity Chapters address value tensions from the perspective of classical liberalism and the extent to which this can be reconciled with values pluralism and Berlin s notions of negative and positive liberty The book argues for a re framing of inclusion as a process of negotiation between teachers parents children and young people which involves a recognition of the complex tradeoffs involved in working with difference in the classroom These tensions are explored through a series of case studies of real world dilemmas in the classroom ultimately serving to highlight the ways in which varying political value positions including liberalism are inescapably embedded within the practice in education Considering topics such as decolonization of the curriculum freedom of speech and social justice this seminal volume will be highly relevant for researchers scholars and postgraduate students in the fields of inclusive education special educational needs philosophy of education social justice and education and critical theory The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Regeneration, Revival, and Creation Chris Chun, Kyle C. Strobel, 2020-07-06 Jonathan Edwards 1703-58 is considered one of the greatest theologians and philosophers of evangelicalism who also served as a pastor missionary and revival leader By underscoring Regeneration Revival and Creation in Edwards s thought this volume uniquely captures the need to delve into Edwards s theological and philosophical rationale for the revivals alongside key questions

concerning the historical context and Edwards's standing in his own tradition. This book gathers the work of scholars working in the areas of historical systematic and analytic theology, church history, psychology, and biology. It contains papers presented at the inaugural conference of the Jonathan Edwards Center at Gateway Seminary (JEC West). Bringing together some of the leading authorities as well as up and coming Edwards scholars working today, this collection advances the questions of regeneration, revival, and creation in fresh new ways. With contributions from Adriaan Neele, Douglas Sweeney, Chris Woznicki, Obbie Tyler, Todd Peter Jung, Michael Haykin, Ryan J. Martin, Mark Rogers, Allen Yeh, Oliver Crisp, Walter Schultz, John Shouse, Rob Boss, Lianne Winslow, and Robert Caldwell.

Existence and the Good Franklin I. Gamwell, 2012-01-02. Morals and politics depend on a metaphysical backing. All reality is marked by certain necessary features and a divine purpose inherent in all reality defines the good to which all human life should be directed. These are bold assertions in a climate where the credibility of metaphysics is widely denied. Indeed, for the past two centuries, Western philosophy has been marked by a consensus that questions about moral and political life should be considered separately from questions about ultimate reality. In this challenging work, Franklin I. Gamwell defends metaphysical necessity against both modern and postmodern critiques. The metaphysics vindicated is not the traditional form both critiques typically have in view; however, instead, Gamwell outlines a neoclassical project for which Alfred North Whitehead and Charles Hartshorne are the main philosophical resources. As it maintains the significance of theistic metaphysics, the book makes no appeal to religious authority but solely to common human experience and on this basis articulates principles of human purpose and democratic justice.
