Archetype of the Apocalypse Edward F. Edinger, 1999 A Jungian psychologist provides an explanation of the psychic forces underlying contemporary issues such as the violence in our society the psychological meaning of AIDS and the increase in world terrorism 20 photos 20 illustrations Archetype of the Apocalypse Edward F. Edinger, 2002 The collective belief in Armageddon has become more powerful and widespread in the wake of recent terrorist attacks Edward Edinger looks at the chaos predicted by the Book of Revelation and relates it to current trends including global violence AIDS and apocalyptic cults Jung and the Jungians on Myth Steven F. Walker, 2002 In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth He defines key terms and distinguishes dream from fantasy in psychological experience He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition Walker fills a conspicuous gap in the current literature on Jung from back cover Confrontation with the Unconscious Scott J. Hill, 2019-06-05 An exploration of the use of psychedelics and Jung's work on trauma the shadow psychosis and psychospiritual transformation Carl Gustav Jung pioneered the transformative potential of the deep unconscious Psychedelic substances provide direct and powerful access to this inner world How then might Jungian psychology help us to better understand the nature of psychedelic experiences And how might psychedelics assist the movement toward psychological transformation described by Jung Jungian depth psychology and psychedelic psychotherapy are both concerned with coming to terms with unconscious drives complexes and symbolic images Unaware of significant evidence for the safe clinical use of psychedelic drugs Jung himself remained wary of psychedelics and staunchly opposed their therapeutic use His bias has prevented Jungians from objectively considering the benefits as well as the risks of using psychedelics for psychological healing and growth Confrontation with the Unconscious intertwines psychedelic research personal accounts of psychedelic experiences and C G Jung's work on trauma the shadow psychosis and psychospiritual transformation including Jung's own confrontation with the unconscious to show the relevance of Jung's penetrating insights to the work of Stanislav Grof Ann Shulgin Ronald Sandison Margot Cutner among other psychedelic and transpersonal researchers and to demonstrate the great value of Jung's penetrating insights for understanding difficult psychedelic experiences and promoting safe and effective psychedelic exploration and psychotherapy

Jung and the Jungians on Myth Steven Walker, 2014-04-08 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company **A Depth Psychological Study of the Peace Symbol** Michelle Rivera-Clonch, 2023-07-05 This engaging new book uncovers the cultural context behind the peace symbol's emergence its growing significance in the 1960s and its ongoing presence in today's worldwide grassroots and nonviolent social action protests Since its debut in 1958 the peace symbol has become a ubiquitous presence in broadcasted images of protest and resistance yet most citizens are

unaware of the symbol's history or psychological evolution. It is a unique modern symbol in that it is at once an omnipresent and yet entirely unknown entity. This noteworthy text engages readers in fresh and thought-provoking ways around the interdependent relationships of peace and war, recognition and secrets, symbol and chaos, and action and inaction, to name a few. In this book, Rivera Clonch brings a depth psychological analysis to Post World War II's escalating nuclear tensions and rhetoric and links it to today's increasing consciousness around social injustices and nonviolent activism. This is a timely and relevant interdisciplinary case study exploring the peace symbol through the dimensions of cultural secrets and psychological shadow, nuclearized storytelling and symbology, and grassroots nonviolent social action. *A Depth Psychological Study of the Peace Symbol* will be of interest to Jungian and depth psychologists as well as students and scholars of peace studies and psychology.

Apocalyptic Movements in Contemporary Politics C. Aldrovandi, 2014-05-27 This book explores Israeli Religious Zionism and US Christian Zionism by focusing on the Messianic and Millenarian drives at the basis of their political mobilization towards a Jewish colonization of the occupied territories.

The Death and Resurrection of God Don Murray, 2014-01-15 If traditional religion no longer holds you yet you yearn for a deeply spiritual and intellectually satisfying communion with the great Mystery, this book offers the New Story, the Universe Story, that is evolving out of all that has gone before. Author Don Murray invites us into a quantum leap of consciousness that is now happening. He takes us through the 13.7 billion years of an evolving universe and assesses where humanity is and how we can live into a creative future. Quantum physics, depth psychology, the human journey, which includes the biblical story, provide the material with which he weaves the New Story.

What are They Saying about New Testament Apocalyptic? Scott M. Lewis, 2004 Scott Lewis begins his volume focusing on New Testament apocalyptic with Albert Schweitzer's famous 19th-century book *The Quest for the Historical Jesus* that concludes that both the worldview and the message of Jesus were thoroughly apocalyptic. And he brings us to the present with the heated debates generated by the historical Jesus research of the last 20 years and the rebirth of apocalyptic fervor at the beginning of the new millennium. The book focuses on five areas: 1. the attempts since Schweitzer to define the apocalypse genre and its constituent eschatology and theology; 2. the debate over the question concerning the nature of Jesus' teaching and proclamation and whether the apocalyptic statements attributed to him are genuine or products of the early church; 3. the apocalyptic nature of Paul's proclamation and the central role it plays in his moral exhortation, ecclesiology, and spirituality; 4. the nature of the message of the Book of Revelation and the different approaches to its interpretation; 5. the application of apocalyptic theology and eschatology to the life of the church in the form of preaching, ethics, spirituality, and social justice; and 6. a concluding reflection. A special concern of the book is the reappropriation of the apocalyptic tradition by the modern church in a manner that avoids the many misuses of this genre in the past. To this end, it is most important that apocalyptic theology be recognized for what it is: a theology of hope rather than a theology of fear.

The Encyclopedia of Demons and Demonology Rosemary Guiley, 2009 Explores this dark aspect of folklore and

religion and the role that demons play in the modern world Includes numerous entries documenting beliefs about demons and demonology from ancient history to the present **The Snake and the Rope: A Jungian View of Hinduism** George R. Elder,2025-02-15 It is obvious that our culture is undergoing a major transition as are our religions that traditionally carry a culture s values even its vitality Thus it is essential that we understand how religion functions when it is alive and well Studying it elsewhere in another time and place helps us to be objective about the religious life And this survey of Hinduism serves that purpose Since our own religious traditions assume a pre modern world view it is important that we try to interpret them in a modern way Otherwise we lose their wisdom C G Jung s psychology of religion is the most creative interpretation of religion that we have today I show to what extent Jung wrote about Hinduism understood it and how we can apply his insights to our own psycho religious circumstances The Snake and the Rope A Jungian View of Hinduism is a companion to my book The Self and the Lotus A Jungian View of Indian Buddhism 2 vols that is also published by BookLocker

The New Akashic Records Cheryl Trine,2010 Trine presents an in depth yet easily understood history of the Akashic Records and uncovers the ancient connection to divine memory judgment and destiny as the Book of Life She reaches into Hinduism Buddhism and Tibetan Bn to understand the Akasha **Jung's Answer to Job** Paul Bishop,2014-12-18 Greeted with controversy on its publication Answer to Job has long been neglected by many serious commentators on Jung This book offers an intellectual and cultural context for C G Jung s 1952 publication In Jung s Answer to Job A Commentary the author argues that such neglect is due to a failure to understand Jung s objectives in this text and offers a new way of reading the work The book places Answer to Job in the context of biblical commentary and then examines the circumstances surrounding its compositions and immediate reception A detailed commentary on the work discusses the major methodological presuppositions informing it and explains how key Jungian concepts operate in the text Jung s Answer to Job A Commentary unravels Jung s narrative by reading it in the chronological order of the biblical events it analyses and the book to which it refers offering a comprehensive re reading of Jung s text An original argument put across in a scholarly and accessible style provides an essential framework for understanding the work Whilst taking account of the tenets of analytical psychology this commentary underlines Answer to Job s more general significance in terms of cultural history It will be invaluable to students and scholars of analytical psychology the history of ideas intercultural studies comparative literature religion and religious studies

Crossing the Event Horizon Jonathan Zap, 2012-02-24 Crossing the Event Horizon provides evidence that we are both individually and collectively hurtling toward an evolutionary event horizon Using the tools of Jungian psychology the nature of the singularity is defined by its myriad manifestations emerging from the collective unconscious These include dreams motifs and themes found in art science fiction and fantasy literature and films religious cults and the paranormal especially near death experiences and UFO encounters Key aspects of the Singularity Archetype include Logos Beheld visually comprehended linguistic intent often associated with a collective telepathic network Homo gestalt a new species where individuality is conserved but also telepathically networked and a parallelism between the individual event horizon of death and eschaton the collective event horizon of the species Apocalypticism is analyzed as an example of the Singularity Archetype pathologizing A study of the Heaven's Gate saucer suicide cult illustrates what can happen when people become possessed by the Singularity Archetype and are driven by it into delusory projections The Singularity Archetype is viewed apocalyptically by the ego and as a transcendent evolutionary event by the Self and the duality of these views is explored in many examples The evolutionary origins of the ego and its metamorphosis as it approaches the event horizon are explored Evolutionary theory which relates to the Singularity Archetype through a number of dynamic paradoxes is discussed Many popular books and movies are analyzed as permutations of the Singularity Archetype including Avatar Childhood's End Village of the Damned Powder and 2001 A Space Odyssey The Singularity Archetype is a primordial image of human evolutionary metamorphosis which emerges from the collective unconscious How the Archetype Manifests a Composite Picture A rupture of plane event occurs usually threatening the survival of the individual and or species The event is a shock that disrupts the equilibrium of body physical world and also individual collective psyche It is an ontological shock that will be viewed as the worst thing possible by individual collective ego There is another rupture of plane that may actually be the same rupture as above but seen from a cosmic rather than a personal view The shock is revealed to be a transcendent evolutionary event The revelation of the transcendent aspect will often involve spiral motifs and unusual lights Consciousness and communication metamorphose and with them core aspects ego individuality connection to linear time corporeality gender identification social order etc fundamentally transform There is a vision or actualization of release from some or all limits of corporeal incarnation and the emergence of glorified bodies

which have enhanced powers and various degrees of etherialization More visual and telepathic modes of consciousness and communication emerge and this is part of a transformation of individuality into Homo gestalt a new species where individual psyches are networked telepathically The Singularity Archetype may be experienced and even actualized to various degrees by an individual through transcendent and or anomalous experiences such as near death experiences NDEs UFO abduction close encounter experiences kundalini and psychotropic episodes As with encounters with all archetypes individuals and groups attach idiosyncratic material to it such as particular end dates and scenarios Another way of defining the Singularity Archetype in its collective form is as a resonance flowing backward through time of an approaching Singularity at the end of human history The Singularity Archetype relates to both the evolutionary event horizon of the species and for the individual the event horizon of death

Flügel Central to this discussion of creativity madness and civilisation is the difficulty of establishing an appropriate and effective vocabulary and mindset between critics and clinical psychiatrists which would enable them to work together in understanding mental disturbance in creative artists
