2014 Exemplar Plife Science:

Exemplars, Imitation, and Character Formation Eric Yang, 2024-08-22 This volume examines the role and relevance of exemplars and the practice of imitation in character development and formation While the role of exemplars and imitation in spiritual and moral formation has been an integral part of many religious and wisdom traditions in recent times there has been limited theological and philosophical investigation into it and a dearth of interdisciplinary discussion The book brings together relevant research and insights from leading experts within philosophy psychology and theology with a slight emphasis on Christian approaches to exemplars and imitation especially given the reflection on these themes throughout the history of the Christian intellectual and mystical tradition Many of the contributions display an interdisciplinary approach into these issues hence this volume will be of interest to philosophers psychologists theologians and others who work in moral psychology and character formation

Freshwater Mollusks of the World Charles Lydeard, Kevin S. Cummings, 2019-04-02 The definitive resource on the biology and evolution of freshwater mollusks There are more species of freshwater mollusks well over 5 000 than all the mammal species of the world Freshwater mollusks are also arguably the most endangered fauna on the planet Yet few references exist for researchers shell enthusiasts and general readers who are interested in learning more about these fascinating creatures In *Freshwater Mollusks of the World* Charles Lydeard and Kevin S Cummings fill that void with

contributions from dozens of renowned mollusk experts Touching on 34 families of freshwater gastropods snails and 9 families of freshwater bivalves mussels and clams each chapter provides a synthesis of the latest research on the diversity and evolutionary relationships of the family The book also includes a look at how evolving DNA sequencing data techniques help shed light on mollusk taxonomy distribution maps of each family s biogeographic locales a representative photo and distribution map for each of the freshwater mollusk families the latest information on each family s conservation status and how to reverse the habitat destruction modification and pollution that threatens it a discussion of the ecological and economic damages caused by invasive mollusk species as well as their role as disease vectors Mollusks provide us with amazing biogeographical insights their ancient fossil record goes back over 500 million years and their distribution patterns are a reflection of past continental and climate changes The only comprehensive summary of systematic and biodiversity information on freshwater mollusk families throughout the world this reference is a must for malacologists limnologists ichthyologists stream ecologists biogeographers and conservation biologists Contributors Christian Albrecht R diger Bieler Bert Van Bocxlaer David C Campbell Stephanie A Clark Catharina Clewing Robert H Cowie Kevin S Cummings Diana Delicado Hiroshi Fukuda Hiroaki Fukumori Matthias Glaubrecht Daniel L Graf Diego E Guti rrez Gregoric Kenneth A Hayes Yasunori Kano Taehwan Lee Charles Lydeard Nathaniel T Marshall Paula M Mikkelsen Marco T Neiber Timea P Neusser Winston Ponder Michael Schr dl Alena A Shirokaya Bj rjn Stelbrink Carol A Stepien Ellen E Strong Maxim V Vinarski Amy R Wethington Thomas Wilke

Quantitative Methods for Place-Based Innovation Policy Roberta Capello,Alexander Kleibrink,Monika Matusiak,2020-07-31 Place based innovation policy design requires an in depth understanding of territories and their complexity Traditional statistics with a lack of publicly available data at the disaggregated sub sectoral and regional level often do not provide adequate information Therefore new methods and approaches are required so that scientists and experts that can inform decision makers and stakeholders in choosing priorities and directions for their innovation strategies The book replies to such a need by offering advanced mapping methodologies for innovation policies with a special focus on approaches that take into account place based policies

The Twenty-First Century Mechanistic Theory of Human Cognition Diego Azevedo Leite,2020-11-30 This book presents a theoretical critical appraisal of the Mechanistic Theory of Human Cognition MTHC which is one of the most popular major theories in the contemporary field of cognitive science It analyses and evaluates whether MTHC provides a unifying account of human cognition and its explanation The book presents a systematic investigation of the internal and external consistency of the theory as well as a systematic comparison with other contemporary major theories in the field In this sense it provides a fresh look at more recent major theoretical debates in this area of scientific research and a rigorous analysis of one of its most central major theories Rigorous theoretical work is integrated with objective consideration of relevant empirical evidence making the discussions robust and clear As a result the book shows that MTHC provides a significant theoretical contribution for the

field of cognitive science The content is useful for those interested in theoretical and empirical issues concerning major theories in the contemporary field of cognitive science *New Mechanism* João L. Cordovil, Gil Santos, Davide

Vecchi, 2023-12-12 This open access book addresses the epistemological and ontological significance as well as the scope of new mechanism In particular this book addresses the issues of what is new about new mechanism the epistemological and ontological reasons underlying the adoption of mechanistic instead of other modelling strategies as well as the possibility of mechanistic explanation to accommodate a non trivial notion of emergence Arguably new mechanism has been particularly successful in making sense of scientific practice in the molecular life sciences But what about other sciences This book enlarges the context of analysis addressing the issue of the putative compatibility between the current ways of conceiving new mechanism and actual scientific practices in quantum physics chemistry biochemistry developmental biology and the cognitive sciences **Measuring the Evolution Controversy** Avelina Espinosa, Guillermo Paz-y-Miño-C, 2016-05-11

The reality of evolution is indisputable and based on current scientific evidence all people in the world should accept it as fact Yet only 41% of adults worldwide embrace evolution and they do it under the premise that a deity created humans One in every three people is a strict creationist who believes in religious scriptures concerning the origin of our universe and of humans and explicitly rejects that Homo sapiens is an ape when in fact science informs us that humans closest relatives are chimpanzees bonobos gorillas and orangutans Indeed we are all apes Why do people not accept evolution In *Measuring the Evolution Controversy* Guillermo Paz y Mi o C and Avelina Espinosa postulate that the debate over evolution and science versus creationism is inherent in the incompatibility between scientific rationalism empiricism and the belief in supernatural causation religion and faith Belief disrupts distorts delays or stops the comprehension and acceptance of scientific evidence The authors refer to this proposal as the incompatibility hypothesis IH the conceptual foundation of this book Paz y Mi o C and Espinosa explain that the evolution controversy is not only measurable descriptively but also testable as in an ordinary field of science To accomplish this they examine three predictions of IH First chronological conflict and accommodation i e the historical re emergence of antagonism between evolution and religion when advances in science continue to threaten the belief in supernatural causation in such situations creationists rejection of and subsequent partial acceptance of the new scientific discoveries are expected Second change in evolution s acceptance as function of educational attainment i e the positive association between acceptance of evolution and level of education Third change in evolution s acceptance as function of religiosity i e the negative association between acceptance of evolution and level of religious beliefs By relying on an ample assessment of the attitudes towards evolution by highly educated audiences i e research faculty educators of prospective teachers and college students in the United States the authors characterise their understanding of science and evolution personal religious convictions and political ideology The authors make recommendations for improving science and evolution literacy as well as evolution s acceptance and conclude by forecasting a probable global socio cultural landscape in

which acceptance of science and evolution will take place Ecological Reparation Dimitris Papadopoulos, Maria Puig de la Bellacasa, Maddalena Tacchetti, 2023-12 How do we engage with the threat of social and environmental degradation while creating and maintaining liveable and just worlds Researchers from diverse backgrounds unpack this question through a series of original and committed contributions to this wide ranging volume The authors explore practices of repairing damaged ecologies across different locations and geographies and offer innovative insights for the conservation mending care and empowerment of human and nonhuman ecologies This ground breaking collection establishes ecological reparation as an urgent and essential topic of public and scholarly debate **The Research Probe** Sharleen M.
