His diaries and BBC broadcasts uniquely illuminate London concert life from the 1930s to the 1960s while his articles on many composers and musicians, nearly all friends and colleagues, testify to his promotion of French and British music. Examples of his record and concert reviews are included and the book evokes the almost vanished world of a music criticism both humane and strict, paying tribute to music's spontaneous and absolute qualities. It will be of interest to anyone following London concert life in the twentieth century. The inflexible realist in fiction can be faithful only to what he sees and what he sees is inevitably colored by the lens of his real self. For the literary observer of life, there is no way of falsifying the reports which his senses, physical and moral, make to his own brain. If he wishes, he may make alterations in transcribing for his readers, but in so doing, he confesses to himself a departure from truth as he sees it. Pure realism then demands of its apostle both a faithful observation of life and a faithful statement of what he sees. True, the realist uses his artist's privilege of selecting those facts of life which seem best suited to picturing his characters in their natures, their persons, and their careers, for he knows that

many irrelevant confusing and contradictory things happen in the everyday lives of everyday men So in point of practice his realism is not so uncompromising as his theories sound when baldly stated How near any great artist's transcriptions of life approach to absolute truth will always be a question both because we none of us know what is final truth and because realists each seeing life through his own nature will disagree among themselves just as widely as their temperaments their predispositions and their experiences vary Thus we are left to the common sense for our standards and to this common sense we may with some confidence appeal for a judgment Guy de Maupassant was a realist The writer's eye he says in *Sur l'Eau* is like a suction pump absorbing everything like a pickpocket's hand always at work Nothing escapes him He is constantly collecting material gathering up glances gestures intentions everything that goes on in his presence the slightest look the least act the merest trifle But Maupassant was more than a realist he was an artist a realistic artist frank and wise enough to conform his theories to his own efficient literary practice He saw as a realist selected as an artist and then was uncompromising in his literary presentation Here at the outstart another word is needed Maupassant was also a literalist and this native trait served to render his realism colder and more unsympathetic By this I mean that to him two and three always summed up five his temperament would not allow for the unseen imponderable force of spiritual things and even when he mentions the spiritual it is with a sort of tolerant unbelief which scorns to deny the superstitious solace of women weaklings and zealots It was this pervading quality in both character and method which has caused his critics to class him as a disciple of naturalism in fiction However Maupassant's pessimism was not so great that he could not dwell upon scenes of joy but a preacher of hope he never was nor could have been Maupassant led so individual a life was so unnormal in his tastes and ended his career so unusually that common sense decides at once the validity of this one contention his realism was marvellously true in details but less trustworthy in its general results His pictures of incidents were miracles of accuracy his philosophy of life was incomplete morbid and unnatural
