Handbook of Research on Assessment Literacy and Teacher-Made Testing in the Language Classroom White, Eddy, Delaney, Thomas, 2018-11-23 The evaluation of student

performance and knowledge is a critical element of an educator's job as well as an essential step in the learning process for students. The quality and effectiveness of the evaluations given by educators are impacted by their ability to create and use reliable and valuable evaluations to facilitate and communicate student learning. The Handbook of Research on Assessment Literacy and Teacher Made Testing in the Language Classroom is an essential reference source that discusses effective language assessment and educator roles in evaluation design. Featuring research on topics such as course learning outcomes, learning analytics, and teacher collaboration, this book is ideally designed for educators, administrative officials, linguists, academicians, researchers, and education students seeking coverage on an educator's role in evaluation design and analyses of evaluation methods and outcomes.

Instructional Explanations in the Disciplines Mary Kay Stein, Linda Kucan, 2009-11-27 In today's climate of accountability and standards, increasing attention is focused on teacher quality with less emphasis on what teachers actually do to interest and engage students in learning. This path-breaking volume addresses this research problem with a clear definition and a content-specific analysis of the most essential teaching moment: the instructional explanation for vital new perspectives on educational method and process. Rich in examples from science, mathematics, and the humanities, *Instructional Explanations in the Disciplines* explores a variety of interactive contexts for teaching and learning which may be collaborative between teachers, students, and others performed in non-classroom settings or assisted by technology. The book's subject-matter-specific framework reveals key elements in the process such as carefully examining the question to be answered, making connections with what is already known, and developing examples conducive to further understanding. *Instructional Explanations in the Disciplines* is a valuable addition to the education library, giving researchers new methods of unpacking educational process as few books before it.

Inquiry: The Key to Exemplary Science Robert Yager, 2009-06-17 **Handbook of Research on Science Literacy Integration in Classroom Environments** Tai, Chih-Che, Moran, Renee M. R., Robertson, Laura, Keith, Karin, Hong, Huili, 2018-10-12 Secondary schools are continually faced with the task of preparing students for a world that is more connected, advanced, and globalized than ever before. In order to adequately prepare students for their future, educators must provide them with strong reading and writing skills as well as the ability to understand scientific concepts. The Handbook of Research on Science Literacy Integration in Classroom Environments is a pivotal reference source that provides vital research on the importance of cross-curriculum discipline connections in improving student understanding and education. While highlighting topics such as curriculum integration, online learning, and instructional coaching, this publication explores practices in teaching students how to analyze and interpret data as well as reading, writing, and speaking. This book is ideally designed for teachers, graduate-level students, academicians, instructional designers, administrators, and education researchers seeking current research on science literacy adoption in contemporary classrooms.
