Interethnic Relations Emerich K. Francis, 1976 **Ibss: Anthropology: 1978** International Committee for Social Science Information and Documentation, 1990-12-31 First published in 1981 Routledge is an imprint of Taylor Francis an informa company **The Force of Prejudice** Pierre-André Taguieff, 2001 Pierre Andr Taguieff puts forward a powerful thesis that racism has evolved from an argument about races naturalizing inequality between biologically defined groups on the basis of fear of the other to an argument about cultures naturalizing historical differences and justifying exclusion Correspondingly Taguieff shows how antiracism must adopt the strategy that fits the variety of racism it opposes Already viewed as an essential work of reference in France *The Force of Prejudice* is an invaluable tool for identifying and understanding both racism and its antidote in our day **The Blackwell Dictionary of Modern Social Thought** William Outhwaite, 2008-04-15 Modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences Provides an authoritative overview of the main themes of social thought Long essays and entries give full coverage to each topic Covers major currents of thought philosophical and cultural trends and the individual social sciences from anthropology to welfare economics New edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text [Ethnonationalism in the Contemporary World](#) Daniele Conversi, 2004 Essential reading for anyone interested in problems associated with ethnicity and nationalism it offers a guide to understanding the ethnonational forces that underpin much of recent terrorist activity **The Wars Within** Robin M. Williams, 2018-05-31 In *The Wars Within* Robin M Williams Jr brings together decades of thought about ethnic conflicts in an effort to better understand their dynamics and to lessen their disastrous consequences Williams presents a worldwide perspective conscious that many studies of ethnicity focus primarily on the United States The stakes of struggles can involve both material resources such as oil diamonds and gold and sociocultural goods such as group status and cultural distinctiveness Ethnic conflict Williams finds can be portrayed as a set of dynamic processes that may escalate from restrained confrontations over limited issues to devastating ethnic warfare and genocide Throughout Williams attends to present day realities and continually reminds readers that ethnic conflict has human significance and lasting effects His analysis implies that the military and political behavior of the United States profoundly affects whether faraway places attempt ethnic cooperation or shatter into deadly conflict *The Wars Within* ends on a note of mild hope as Williams provides an overview of ways to prevent moderate or resolve severe intrastate violence *The Religion of the Landless* Daniel L. Smith-Christopher, 2015-01-14 Through brilliant new interpretations of biblical exiles Daniel Smith Christopher shows their experience as the most apt model for the Church as witnesses for the peace and justice of God in a strange land [European Constitutional Language](#) András Jakab, 2016-04-15 Provides a systematic analysis of both the historical development and current interpretation of

constitutional law discourse in Europe **Toward a European Nation?** Max Haller, 2019-10-25 This text presents the work of scholars from all over Europe who examine processes of integration and disintegration at the level of nation states federations regions and Europe overall

Sociology, Race, and Ethnicity Harry H. Bash, 1979 Presenting an analysis of American assimilation theory Bash attempts to dissect the concept and what it has come to mean in the United States After tracing the natural history of the assimilation notion and later its theoretical elaboration he explores far more theoretical linkages by way of concept formation and theory construction in the area of racial and ethnic group relations *Theories of Ethnicity* Werner Sollors, 1996-11 Werner Sollors has here brought together such intellectuals as Max Weber Carl Gustav Jung Margaret Mead Georg Simmel Erik Erikson Karl Mannheim Jean Toomer Fredrik Barth and Herbert Gans and pioneering work by a host of other sociologists anthropologists psychologists historians and philosophers from around the world *The Partition of Palestine* Itzhak Galnoor, 2012-02-01 Some seventy five years after the boundaries of the British Mandate for Palestine were set the State of Israel still lacks a defined territory and agreed upon boundaries except for its boundary with Egypt This book examines this unusual situation concentrating especially on the perceptions of territory and boundaries within the Zionist movement Galnoor discusses the period from the first territorial decision in 1919 up to the establishment of the State of Israel in 1948 placing special emphasis on the relatively unknown Zionist Palestinian and Arab positions regarding territorial partition in 1937 And he argues that although dramatic changes have occurred in the international and regional arena the partners to the conflict the security considerations and the international dilemmas the 1937 decision contained the parameters of the choices that have confronted Arab and Israeli leaders ever since His findings are of direct relevance to the ongoing Arab Israeli peace negotiations which once again revolve around the trade off between national goals and territorial aspirations

Mennonites, Politics, and Peoplehood James Urry, 2011-07-15 Mennonites and their forebears are usually thought to be a people with little interest or involvement in politics Mennonites Politics and Peoplehood reveals that since their early history Mennonites have in fact been active participants in worldly politics From western to eastern Europe and through different migrations to North America James Urry's meticulous research traces Mennonite links with kingdoms empires republics and democratic nations in the context of peace war and revolution Urry stresses a degree of Mennonite involvement in politics not previously discussed in literature including Mennonite participation in constitutional reform and party politics and shows the polarization of their political views from conservatism to liberalism and even revolutionary activities Urry looks at the Mennonite reaction to politics and political events from the Reformation onwards and focuses particularly on those people who settled in Russia and their descendants who came to Manitoba Using a wide variety of sources Mennonites Politics and Peoplehood combines an inter disciplinary approach to reveal that Mennonites far from being the Quiet in the Land have deep roots in politics

Côté, Matthew I. Mitchell, Monica Duffy Toft, 2018-07-04 While migration and population settlement have always been an important feature of political life throughout the world the dramatic changes in the pace direction and complexity of contemporary migration flows are undoubtedly unique Despite the economic benefits often associated with global regional and internal migration the arrival of large numbers of migrants can exacerbate tensions and give rise to violent clashes between local populations and recent arrivals This volume takes stock of these trends by canvassing the globe to generate new conceptual empirical and theoretical contributions The analyses ultimately reveal the critical role of the state as both an actor and arena in the migration conflict nexus **The Future of Representative Democracy** Sonia Alonso, John Keane, Wolfgang Merkel, 2011-03-31 The Future of Representative Democracy poses important questions about representation representative democracy and their future Inspired by the last major investigation of the subject by Hanna Pitkin over four decades ago this ambitious volume fills a major gap in the literature by examining the future of representative forms of democracy in terms of present day trends and past theories of representative democracy Aware of the pressing need for clarifying key concepts and institutional trends the volume aims to break down barriers among disciplines and to establish an interdisciplinary dialogue among scholars The contributors emphasise that representative democracy and its future is a subject of pressing scholarly concern and public importance Paying close attention to the unfinished two centuries old relationship between democracy and representation this book offers a fresh perspective on current problems and dilemmas of representative democracy and the possible future development of new forms of democratic representation **Exiled Among Nations** John P. R. Eicher, 2020-01-02 Explores how religious migrants engage with the phenomenon of nationalism through two groups of German speaking Mennonites Walls and Mirrors David G. Gutiérrez, 1995-03-27 Covering more than one hundred years of American history Walls and Mirrors examines the ways that continuous immigration from Mexico transformed and continues to shape the political social and cultural life of the American Southwest Taking a fresh approach to one of the most divisive political issues of our time David Gutiérrez explores the ways that nearly a century of steady immigration from Mexico has shaped ethnic politics in California and Texas the two largest U S border states Drawing on an extensive body of primary and secondary sources Gutiérrez focuses on the complex ways that their pattern of immigration influenced Mexican Americans sense of social and cultural identity and as a consequence their politics He challenges the most cherished American myths about U S immigration policy pointing out that contrary to rhetoric about alien invasions U S government and regional business interests have actively recruited Mexican and other foreign workers for over a century thus helping to establish and perpetuate the flow of immigrants into the United States In addition Gutiérrez offers a new interpretation of the debate over assimilation and multiculturalism in American society Rejecting the notion of the melting pot he explores the ways that ethnic Mexicans have resisted assimilation and fought to create a cultural space for themselves in distinctive ethnic communities throughout the southwestern United States

Nationalism John Hutchinson, Anthony D. Smith, 1994 Nationalism is one of the most powerful forces in the modern world yet its study has only recently gained popularity This reader gives historical depth to the recent debates on nationalism and traces the development of thought on nationalism across a wide range of issues with reference to texts spanning from Ernest Renan's What is a Nation in the 1880s to current views given in the 1990s Issues covered include the definitions of the nation and of nationalism theories of nationalism the origins of nations nationalism in Europe the Third World and within the International System and the future of nationalism itself *Intellectuals and the Nation* Bernhard Giesen, 1998-08-06 This book proposes a cultural theory of national identity and also studies nineteenth century and post war German identity formation
