L'Archipel du Goulag, 1918-1956: Troisième et quatrième parties Aleksandr Isaevich Solzhenitsyn, 1974

L'Archipel du Goulag - édition abrégée inédite Alexandre Soljénitsyne, 2014-06-05 Après la publication en 1962 de son roman Une journée d'Ivan Denissovitch où il dépeignait la vie d'un prisonnier du Goulag Alexandre Soljénitsyne retourna en Russie des centaines de lettres de témoignages sur les camps soviétiques partir de ce matériau il composa l'Archipel du Goulag qui lors de sa parution en Occident en 1974 suscita une prise de conscience des réalités du régime soviétique Devenu un best seller international l'ouvrage fut tiré des millions d'exemplaires avant d'être publié dans le pays de l'auteur Publié en trois volumes aux éditions Fayard 1991-2013 l'ouvrage fait ici l'objet d'une version abrégée inédite conformément la version russe publiée en 2010 par Natalia Soljénitsyne Traduit du russe édition abrégée inédite Préface de Natalia Soljénitsyne Sex, France, and Arab Men, 1962-1979 Todd Shepard, 2018-01-08 The aftermath of Algeria's revolutionary war for independence coincided with the sexual revolution in France and in this book Todd Shepard argues that these two movements are inextricably linked Sex France and Arab Men is a history of how and why from the upheavals of French Algeria in 1962 through the 1970s highly sexualized claims about Arabs were omnipresent in important public French discussions both those that dealt with sex and those that spoke of Arabs Shepard explores how the so-called sexual revolution took shape in a France profoundly influenced by the ongoing effects of the Algerian revolution Shepard's analysis of both events alongside one another provides a frame that renders visible the ways that the fight for sexual liberation usually explained as an American and European invention developed out of the worldwide anticolonial movement of the mid-twentieth century

Complications Claude Lefort, 2007 Complications Communism and the Dilemmas of Democracies together the central concerns of the work of Claude Lefort over the past half century A pivotal figure in French thought Lefort studied under Maurice Merleau-Ponty cofounded with Cornelius Castoriadis the influential journal Socialisme ou Barbarie and famously engaged in a heated debate with Jean-Paul Sartre over the Soviet Union and Communist parties in the West He has influenced generations of political thinkers and throughout his career has offered invaluable leftist non-Communist critiques of both liberalism and Communism It is the prevailing belief that the death of communism was a victory for liberal democracy In Complications however Lefort challenges this interpretation and provides new ways of understanding the rise and fall of the Soviet Union and the Communist phenomenon Lefort engages the work of prominent historians Martin Malia and François Furet and shows how their emphasis on illusion and ideology led to their failure to understand the logic and workings of the Communist Party and its impact on Soviet society and the reasons why so many in the West had Communist sympathies He also maintains that those who regard the end of Communism as the triumph of markets and freedom restrict the scope of democratic thought and the possibility of greater social equality Lefort contends that Communism must be seen as part of a larger history of modernity and believes that the diagnosis of its death is dangerous to the future of democracy In

the tradition of Hannah Arendt and Raymond Aron Lefort complicates the pieties of historical understanding and offers a new approach to thinking about totalitarianism and a more vital democracy Reflections on the Gulag Elena Dundovich, Francesca Gori, Emanuela Guercetti, 2003 **Roland Barthes at the Collège de France** Lucy O'Meara, 2012-12-07 A full length account of Barthes lecture courses given in Paris 1977 80 placing his teaching within institutional intellectual and personal contexts Analysing texts and recordings of the four lectures together with his 1970s output it brings together all the strands of Barthes activity as writer teacher and public intellectual Fatherhood and Motherhood in Israelite and Judean Piety Pieter Arie Hendrik De Boer, 1974-01-01 *From Revolution to Ethics, Second Edition* Julian Bourg, 2017-11-28 Winner CHOICE Outstanding Academic Book Award CHOICE Magazine 2008 Winner Morris D Forkosch Prize for the best book in intellectual history Journal of the History of Ideas 2008 The French revolts of May 1968 the largest general strike in twentieth century Europe were among the most famous and colourful episodes of the twentieth century Julian Bourg argues that during the subsequent decade the revolts led to a remarkable paradigm shift in French thought the concern for revolution in the 1960s was transformed into a fascination with ethics Challenging the prevalent view that the 1960s did not have any lasting effect From Revolution to Ethics shows how intellectuals and activists turned to ethics as the touchstone for understanding interpersonal institutional and political dilemmas In absorbing and scrupulously researched detail Bourg explores the developing ethical fascination as it emerged among student Maoists courting terrorism anti psychiatric celebrations of madness feminists mobilizing against rape and pundits and philosophers championing humanitarianism From Revolution to Ethics provides a compelling picture of how May 1968 helped make ethics a compass for navigating contemporary global concerns In a new preface for the second edition published to mark the fiftieth anniversary of the events Bourg assesses the worldwide influence of the ethical turn from human rights to the return of religion and the new populism Fiction in French - Fiction in Soviet British Library, 2013-02-07 No detailed description available for Fiction in French Fiction in Soviet **Spécialité Humanités, Littérature et Philosophie. Chine : L'archipel oublié Jean-Luc Domenach, 2014-04-01 Alors que le goulag soviétique fait partie de notre mémoire on a oublié qu'il existe toujours en Chine un autre archipel lieu tragique du XXe siècle par son ampleur par son inexorable discipline mais aussi parce que l'entreprise de reforme de la pensée visant briser l'homme pour l'asservir au pouvoir y a poussé son comble l'utopie totalitaire de Mao Tse-tung Résultats de plus de dix ans de recherches le livre de Jean-Luc Domenach met au jour les origines les développements et la situation récente de ce gigantesque système pénitentiaire S'appuyant sur des témoignages souvent inédits en Occident sur des interviews de réfugiés et sur un historique précis de la répression communiste il décrit la vie dans les prisons et les camps de travail où passent des dizaines de millions de Chinois On y trouve ainsi des révélations sur la terreur des premières années et

par exemple l'aide fournie par des experts du goulag soviétique sur l'effroyable famine de 1959-1962 ou encore sur la composition du système de contrôle depuis l'arrivée au pouvoir de Deng Xiaoping. Au total de la terreur utopique des premières années au régime des mafias carcérales l'histoire de l'archipel est celle d'un immense choc à la fois politique et humain qui traduit l'évolution du communisme chinois. Jean-Luc Domenach est directeur du Centre d'Études et de Recherches Internationales et chargé de cours sur la Chine à l'Institut d'Études Politiques de Paris.

L'ombre d'Octobre Pierre Dardot, Christian Laval, 2017-11-02T00:00:00-04:00 Ce qui s'est affublé du nom de communisme depuis 1917 est une catastrophe historique qui continue produire ses effets les plus sombres sur l'humanité en la privant d'alternative. Si l'avenir est confisqué par le néolibéralisme c'est en grande partie à la figure odieuse de la forme hypertrophiée du communisme au XX^e siècle qui hypothèque toute sortie mancipatrice du capitalisme. Or l'idéal communiste de l'auto-mancipation n'était pas vain. Pour le raviver il faut se débarrasser de toute illusion rétrospective, étudier les pratiques des bolcheviks et comprendre comment le communisme en est arrivé à ce retournement statistique. On sera dès lors mieux placé de trouver les nouvelles pratiques et théories qui permettent d'envisager une ouverture des futurs.

The New Demons Simona Forti, 2023-05-25 The Italian philosopher and author of *Totalitarianism* rescues the concept of evil as an element necessary for guidance in political reflection. *Dialogue Canadian Philosophical Review* As long as we care about suffering in the world says political philosopher Simona Forti we are compelled to inquire into the question of evil. But is the concept of evil still useful in a postmodern landscape where absolute values have been leveled and relativized by a historicist perspective? Given our current unwillingness to judge others what signposts remain to guide our ethical behavior? Surveying the nineteenth and twentieth century Western philosophical debates on evil Forti concludes that it is time to leave behind what she calls the Dostoevsky paradigm: the dualistic vision of an omnipotent monster pitted against absolute helpless victims. No longer capable of grasping the normalization of evil in today's world whose structures of power have been transformed this paradigm has exhausted its explanatory force. In its place Forti offers a different genealogy of the relationship between evil and power: one that finally calls into question power's recurrent link to transgression. At the center of contemporary evil she posits the passive attitude towards rule following the need for normalcy and the desire for obedience nurtured by our contemporary mass democracies. In our times she contends evil must be explored in tandem with our stubborn desire to stay alive at all costs as much as with our deep need for recognition: the new modern absolutes. A courageous book *The New Demons* extends an original inspiring call to ethical living in a biopolitical age.

The End of History Barry Cooper, 1984-12-15 History ended according to Hegel according to Kojève with the establishment and proliferation in Europe of states organized along Napoleonic lines: rational, bureaucratic.

homogenous atheist This state lives in some tension with the popular slogan that helped give it birth Liberty Equality Fraternity But there is now also totalitarianism the only new kind of regime according to Arendt created since the national state Man is now in charge of nature technology and society much of political life has become a gavotte elaborating the meaning of the Napoleonic model This interpretation however opposed it seems to common sense has been influential particularly in France where the course of existentialism is unintelligible without taking it into account Professor Cooper argues that it is inherently plausible and examines the arguments of Hegel and Kojve to reveal its consistency and explanatory power And he applies it to more contemporary events the experience of the atomic bomb the Gulag system of extermination and the growth of multinational corporations The work concludes by pulling together the presuppositions and theories of the totalitarian system the Hegelian version of the Napoleonic state and our contemporary technological society Overall the reader will find here a complete and challenging presentation of how the modern world understands its collective life

Lire la communication-monde au XXIe siècle Bertrand Cabedoche, 2023-06-07 Hallowed in course titles and leveraged in the nomenclature of international organizations yet unfit to bring any clarification or synthesis that actually provides structure the objectifying expression communication internationale has no scientific value except as a research object Yet the expression bears meanings that must urgently be put into perspective since it lends itself to discursive construct which often varies greatly according to the crossed and often masked interests of an ever increasing number of actors on a global scale and based on the political cultural fields where these tactical productions are disseminated The first option for an enlightening approach is through the thread of an academically recognized discipline More specifically the introduction of information communication science in France in 1978 opens up a corpus of theoretical approaches and epistemological questionings that are already meaningful although they are limited to a single country Taking notice of the multiple and sometimes competing scientific productions and collaborations that extend this time to whole continents the crossed questioning reveals epistemological theoretical conceptual and methodological inflections that support a provisional state of the research Then the concept of communication monde sketched by Armand

Mattelart and elevated to the rank of structuring concept in the book enables us to read the global stakes of communication as we step into the third millennium and acts as a decentring force against the permanent risks of ethnocentric thinking
