Open Educational Resources (OER) Pedagogy and Practices Zhou, Molly Y.,2019-11-29 Access to learning materials has been an issue within education that has had a profound impact on student outcomes and equality among students New strategies for promoting more equal access to these materials began within institutions of higher learning and can be adapted at lower levels to facilitate equity within educational systems Open Educational Resources OER Pedagogy and Practices is a comprehensive research publication that explores open access to educational materials and its impact on educational cost educational equity and poverty Featuring a range of topics such as instructional design pedagogy and gamification this book is essential for teachers curriculum developers instructional designers principals school boards educational professionals academicians professors administrators educational policymakers researchers and educational agencies

Sociology in Today's World Brian Furze,Cengage Learning Australia,Pauline Savy,2014 Sociology in Today s World explores why sociology is important and relevant to everyday life It teaches students how to think sociologically not just what to think and shows how sociology can help us make sense of our lives It comprehensively covers key aspects and current issues in Australian and New Zealand society whilst emphasising the importance of diversity and a global perspective

The Old U(VA) and I (PB) Frank Briggs,2022-04-06 The Old U VA and I 1961 1965 By Frank Briggs The decade of the 1960s saw sweeping changes at UVA as old barriers fell and students of new backgrounds came Litigation that lasted from the late 1940s through the end of the 1960s eliminated historic barriers to African American and women students No detailed UVA specific narrative has existed until former graduates from two ends of the decade Joel Gardner BA 1970 Rebel Yell to Revolution in 2018 and now Frank Briggs BA 1965 recognized that the University had changed in the most profound ways and used their own experiences to document what happened This book will attract anyone who lived through that heady period It will appeal also to others to women and men who grew up later and who may have wondered why and how the good old days ended and America stepped beyond them Some might say grew up John T Casteen III President Emeritus University of Virginia 1990

2010 Frank Briggs's memoir is a highly entertaining trip in time to an era in UVA history that predated the social upheavals of the late 1960s. We accompany the author through his four years in a cloistered culture of tradition that had not changed over many decades. In a series of revealing and amusing anecdotes we relive the road trips, party weekends, and collegiate shenanigans that dominated the student experience during that period. This is a must read for every Wahoo who lived through that era or anyone who has an interest in the social history of college life prior to the cultural revolution that swept across the country after Briggs's graduation. Joel B. Gardner, Author, *From Rebel Yell to Revolution: My Four Years at UVA 1966-1970*. As an old Beta and in many other respects as one of the older observers of the University, still more or less vertical, I salute Frank Briggs for his most successful undertaking. I have encouraged alumni to write memoirs of their student days, and Frank has done this splendidly. Alexander G. Sandy, Gilliam Professor and University Historian Emeritus, University of Virginia.

Handbook for Teaching Introductory Psychology Michelle Rae Hebl, Charles L. Brewer, Ludy T. Benjamin, Jr., 2001-08-01. Like its predecessors, Volume III of the *Handbook for Teaching Introductory Psychology* provides introductory psychology instructors with teaching ideas and activities that can immediately be put into practice in the classroom. It contains an organized collection of articles from *Teaching of Psychology* (TOP), the official journal of the Society for the Teaching of Psychology, Division 2 of the American Psychological Association. Volume III contains 89 articles from TOP that have not been included in other volumes. Another distinction between this volume and its predecessors is its emphasis on testing and assessment. The book is divided into two sections. Section One, *Issues and Approaches in Teaching Introductory Psychology*, contains 52 articles on critical issues such as how to approach the course, understanding students' interests, perceptions, and motives, students' existing knowledge of psychology, including their misconceptions, a comparison of introductory textbooks, and tips on how to evaluate them, test questions, and student factors affecting exam performance, an overview of different forms of feedback, giving extra credit, and how to deal with academic dishonesty. Section Two consists of 37 articles that present demonstrations, class and laboratory projects, and other techniques to enhance teaching and learning in both the introductory as well as advanced courses in the discipline. This section is organized so as to parallel the order of topics found in most introductory psychology textbooks. Intended for academicians who teach the introductory psychology course and/or oversee grad assistants who teach the course, all royalties of the book go directly to the Society for the Teaching of Psychology to promote its activities to further improve the teaching of psychology.

Religion, Scholarship, and Higher Education Andrea Sterk, 2002-01-17. *Religion, Scholarship, and Higher Education* explores foundational issues surrounding the interaction of religion and the academy in the twenty-first century. Featuring the work of eighteen scholars from diverse institutional, disciplinary, and religious backgrounds, this outstanding collection of essays issues from a three-year Lilly Seminar on Religion and Higher Education. Reflecting the diversity of the seminar participants, this insightful volume presents a wide variety of viewpoints on the role of religion in higher education and different approaches to

religiously informed scholarship and teaching Religion Scholarship and Higher Education is distinct in its orientation toward the personal and the practical Contributors use personal examples to demonstrate how individual religious beliefs and backgrounds shape the way an educator approaches research and teaching The first part of the book addresses foundational issues offering a range of perspectives on the current state of affairs and future prospects for the interrelation of religion and academic endeavor Part II treats specific academic disciplines as they relate to religion and research and provides several models of scholarship grounded in or informed by religious traditions The final section of the volume presents five different approaches to teaching Contributors reflect on how religious perspectives or commitments influence the way in which they understand their role as university or college teachers and carry out their responsibilities in the classroom Sure to capture the interest of scholars teachers and administrators alike this volume features essays from Nicholas Wolterstorff James Turner Alan Wolfe David A Hollinger Mark R Schwehn John McGreevy Nancy T Ammerman Roger Lundin Brian E Daley S J Clarke E Cochran Serene Jones Richard J Bernstein Mark A Noll Denis Donoghue Robert Wuthnow Jean Bethke Elshtain Susan Handelman and Francis Oakley

CliffsAP Physics B & C James R. Centorino, 2004 Suitable for students who are enrolled in AP Physics B or C or who are preparing for the Advanced Placement Examination in AP Physics B or C this book offers hints for answering the free response and multiple choice sections an explanation of the exam formats and a look at how exams are graded

Developing an Online Course Carol A. O'Neil, Cheryl A. Fisher, Susan K. Newbold, 2004 This book takes educators through the necessary steps to transform a traditional course into an online or partially online course which may be part of a traditional nursing education program a continuing education course or a certification program The authors address questions such as How can learning theories be applied online What does class participation mean online What are options for clinical lab experiences What sort of technical support will I need Readers will find
