A Handbook Of International Peacebuilding Into The Eye Of The Storm:

A Handbook of International Peacebuilding John Paul Lederach, Janice Moomaw Jenner, 2002-10-10 This much needed handbook offers conflict resolution professionals working or planning to work in foreign countries a critical step by step guide for dealing with difficult and potentially dangerous disputes in other nations The editors John Paul Lederach and Janice Moomaw Jenner have gathered a stellar panel of seasoned experts who illustrate how to approach international peacebuilding with effective actions and approaches gained through experience that will contribute ultimately to a more positive outcome Based on the experience of the contributors work as global peace brokers the book includes a wide array of guidelines pragmatic approaches and models of constructive culturally appropriate ways to respond to conflict

Peacebuilding Is A Mission Mandate Levi Williams, 2004 This book takes a fresh look at the Christian concepts of mission and discipleship defining them as expanding Gods circle of friends and widening membership in Gods family through transforming conflicts and building relationships on various levels ranging from inter personal to international

Taming Intractable Conflicts Chester A. Crocker, Fen Osler Hampson, Pamela R. Aall, 2004 Some conflicts seem to defy resolution Marked by longevity recurrent violence and militant agendas these intractable conflicts refuse to be settled either on the battlefield or at the negotiating table The longer they fester the stronger the international community s inclination to lose heart and to turn away But explain the authors of this provocative volume effective mediation in intractable conflicts is possible if the mediator knows what to do and when to do it Written from the mediator s point of view Taming Intractable Conflicts lays out the steps involved in tackling the most stubborn of conflicts It first puts mediation in a larger context exploring why mediators choose or decline to become involved what happens when they get involved for the wrong reasons and the impact of the mediator s institutional and political environment It then discusses best mediation tradecraft at different stages at the beginning of the engagement when the going gets very rough during the settlement negotiations and in the post settlement implementation stage Forceful concise and highly readable Taming Intractable Conflicts serves not only as a hands on guide for would be mediators but also as a powerful argument for students of conflict management that intractable conflicts are not beyond the reach of mediation

Scholarship and Christian Faith Douglas Jacobsen, Rhonda Hustedt Jacobsen, 2004-04-08 This book enters a lively discussion about religious faith and higher education in America that has been going on for a decade or more During this time many scholars have joined the debate about how best to understand the role of faith in the academy at large and in the special arena of church related Christian higher education The notion of faith informed scholarship has of course figured prominently in this conversation But argue Douglas and Rhonda Jacobsen the idea of Christian scholarship itself has been remarkably under discussed Most of the literature has assumed a definition of Christian scholarship that is Reformed and evangelical in orientation a model associated with the phrase the integration of faith and learning The authors offer a new definition and analysis of Christian scholarship that respects the insights of

different Christian traditions e g Catholic Lutheran Anabaptist Wesleyan Pentecostal and that applies to the arts and to professional studies as much as it does to the humanities and the natural and social sciences The book itself is organized as a conversation Five chapters by the Jacobsens alternate with four contributed essays that sharpen illustrate or complicate the material in the preceding chapters The goal is both to map the complex terrain of Christian scholarship as it actually exists and to help foster better connections between Christian scholars of differing persuasions and between Christians and the academy as a whole

Special Bibliography Series ,1957 *Networked Regionalism as Conflict Management* Anna Ohanyan,2015-04-15 Most regions of the world are plagued by conflicts that are made insoluble by a confluence of complex threads from history geography politics and culture These frozen conflicts defy conflict management interventions by both internal and external agents and institutions Worse they constantly threaten to extend beyond their local geographies as in the terrorist bombings in Boston by ethnic Chechens or to escalate from skirmishes to full scale war as in Nagorno Karabakh Consequently such conflicts cry out for alternative approaches to the classic state focused and sovereignty based conflict management models that are practiced in traditional diplomacy which most often produce rather short term ad hoc fragmented interventions and outcomes Drawing upon the cases of the South Caucasus the Western Balkans Central America South East Asia and Northern

Ireland Networked Regionalism as Conflict Management offers a theoretical and practical solution to this impasse by arguing for regional collective interventions that involve a long term reengineering of existing conflict management infrastructure on the ground. Such approaches have been attracting the attention of scholars and practitioners alike yet thus far these concepts have rarely involved more than simple prescriptions for regional cooperation between grassroots actors and traditional diplomacy. Specifically says Anna Ohanyan only the cultivation and establishment of regional peace systems can provide an effective path toward conflict management in these standoffs in such intractably divided regions **Pedagogies for**

Building Cultures of Peace Catherine Baillie Abidi, 2018-09-06 Pedagogies for Building Cultures of Peace explores how normalizations of violence are constructed from the perspective of young adults and how pedagogies can be created toward building cultures of peace. Findings show the diverse ways in which enmity or the dehumanized other is constructed including through socialization processes associating difference as deficient systems of exclusion disengaged citizenship and cultures of competition and rivalry. Results also show how critical adult education can reveal hidden forms of power embedded within normalizations of violence creating opportunities for peacebuilding education. By collaboratively engaging in peace research with youth and by explicitly exploring power as a central component of violence violence transformation and peacebuilding education led by youth become imaginable **Wicked Problems** Austin Choi-Fitzpatrick, Douglas

Irvin-Erickson, Ernesto Verdeja, 2022 The ethics of changemaking and peacebuilding may appear straightforward advance dignity promote well being minimize suffering. Sounds simple right. Actually acting ethically when it really matters is rarely straightforward. If someone engaged in change oriented work sets out to do good how should we prioritize and evaluate whose good counts. And how ought we act once we have decided whose good counts. Practitioners frequently confront dilemmas where dire situations may demand some form of response but each of the options may have undesirable consequences of one form or another. Dilemmas are not merely ordinary problems they are wicked problems that is to say they are defined by circumstances that only allow for suboptimal outcomes and are based on profound and sometimes troubling trade offs. Wicked Problems argues that the field of peacebuilding and conflict transformation needs a stronger and more practical sense of its ethical obligations. For example it argues against posing false binaries between domestic and international issues and against viewing violence and conflict as equivalents. It holds strategic nonviolence up to critical scrutiny and shows that do no harm approaches may in fact do harm. The contributors include scholars scholar practitioners in the field and activists on the streets and the chapters cover the role of violence in conflict conflict and violence prevention and resolution humanitarianism community organizing and racial justice social movements human rights advocacy transitional justice political reconciliation and peace education and pedagogy among other topics. Drawing on the lived experiences and expertise of activists educators and researchers Wicked Problems equips readers to ask and answer difficult questions about social change work **New Feminist Christianity** Mary E. Hunt, Diann L. Neu, 2012-01-01 Powerful

insights from ministers theologians activists leaders artists and liturgists who are shaping the future Christianity has been a source of the oppression of women as well as a resource for unleashing women's full humanity Feminist analysis and practice have recognized this Feminist Christianity is reshaping religious institutions and religious life in more holistic inclusive and justice focused ways from the Introduction Feminism has brought many changes to Christian religious practice From inclusive language and imagery about the Divine to an increase in the number of women ministers Christian worship will never be the same Yet even now there is a lack of substantive structural change in many churches and complacency within denominations The contributors to this book are the thought leaders who are shaping and being shaped by the emerging directions of feminist Christianity They speak from across the denominational spectrum and from the many diverse groups that make up the Christian community as it finds its place in a religiously pluralistic world Taken together their voices offer a starting point for building new models of religious life and worship Topics covered include feminist Theological Visions Scriptural Insights Ethical Agendas Liturgical and Artistic Frontiers Ministerial Challenges State Fragility, State Formation, and Human Security in Nigeria M. Okome, 2013-04-17 Since the 1990s attempts at democratic transition have generated hopes for civil society as well as ambivalence about the state The interdisciplinary studies gathered here explore this dynamic through the complex interactions of state fragility self help and self organization in Nigeria Nigeria stands as a particularly interesting case as its multifaceted associational life extends far beyond civil society organizations CSOs and non governmental organizations NGOs as this volume reveals there is a third sector of Nigerian society encompassing everything from community self help programs to ethno religious affiliations to militias Some of these formations have narrow pragmatic aims while others have an explicit socio cultural or political agenda most can be understood as compensating for the state's failure to deliver services and maintain regulatory frameworks By examining the emergence of broader forms of civil society this volume considers their successes while also assessing their costs and contradictions Transforming Nations after the COVID-19 Pandemic Denis H. J. Caro, 2021-01-23 In 2020 the world is in the throes of the COVID 19 global pandemic an epidemic the likes of which humankind has not experienced for decades This book speaks to common and fundamental underlying issues that national communities face from a humanitarian and planetary systems perspective From the globalization initiatives of the last decades a dynamic and interconnected new planetary system order is emerging This book underscores the need for decent ethical healthy and just societies that enable individuals to reach full human potential It explores the future directions of 12 Key Strategic Influencer KSI nations through 18 systemic factors that will shape the contours of future planetary governance this century Finally it proposes a nonconventional systems paradigm to humanitarian challenges Understanding Peace Michael Allen Fox, 2013-11-12 Understanding Peace A Comprehensive Introduction fills the need for an original contemporary examination of peace that is challenging informative and empowering This well researched fully documented and highly accessible textbook moves beyond fixation on war to highlight the human

capacity for nonviolent cooperation in everyday life and in conflict situations After deconstructing numerous ideas about war and explaining its heavy costs to humans animals and the environment discussion turns to evidence for the existence of peaceful societies Further topics include the role of nonviolence in history the nature of violence and aggression and the theory and practice of nonviolence The book offers two new moral arguments against war and concludes by defining peace carefully from different angles and then describing conditions for creating a culture of peace Understanding Peace brings a fresh philosophical perspective to discussions of peace and also addresses down to earth issues about effecting constructive change in a complex world The particular strength of Understanding Peace lies in its commitment to reflecting on and integrating material from many fields of knowledge This approach will appeal to a diverse audience of students and scholars in peace studies philosophy and the social sciences as well as to general interest readers

Political Culture, Soft Interventions and Nation Building Tiffany Jenkins, 2016-01-13 This book raises questions about cultural interventions an area of investigation somewhat overlooked in place of developing a critique of political interventions Whilst political interventions are more explicit coercive and have a wide reaching impact it is important also to examine the way culture is used in attempts to reconstruct society and peoples the soft side of statebuilding where heritage is utilised to play a role in the construction of the nation and the people in memory and identity For it can play a role in legitimizing myths and identifying symbolic historic events and implicitly informs the construction of infrastructure institutions and other aspects of civic life Contributors from the fields of politics anthropology archaeology and sociology examine interventions in state and nation building through cultural methods the soft side of statebuilding including the preservation and promotion of certain heritage the politics of remembrance and monument building and the repatriation of human remains and artefacts to communities in the name of making reparations for past atrocities These are timely contributions Heritage and cultural is too often considered in terms of how tourism might contribute to the economy post conflict neglecting the construction of meaning and memory through decisions about what is preserved or not It will be of special interest to those in the field of cultural studies archaeology and politics as well as international relations This book was published as a special issue of the Journal of Intervention and Statebuilding

Montgomery, 2016-01-12 Whether looking at divided cities or working with populations on the margins of society a growing number of engaged academics have reached out to communities around the world to address the practical problems of living with difference This book explores the challenges and necessities of accommodating difference however difficult and uncomfortable such accommodation may be Drawing on fourteen years of theoretical insights and unique pedagogy CEDAR Communities Engaging with Difference and Religion has worked internationally with community leaders activists and other partners to take the insights of anthropology out of the classroom and into the world Rather than addressing conflict by emphasizing what is shared Living with Difference argues for the centrality of difference in creating community seeking ways

not to overcome or deny differences but to live with and within them in a self reflective space and practice This volume also includes a manual for organizers to implement CEDAR s strategies in their own communities **Reconcile** John Paul Lederach,2014-08-11 Emotionally powerful and full of practical advice and resources PUBLISHERS WEEKLY Reconcile Conflict Transformation for Ordinary Christians by international mediator John Paul Lederach serves as a guidebook for Christians seeking a scriptural view of reconciliation and practical steps for transforming conflict Originally published as The Journey Toward Reconciliation and based on Lederach s work in war zones on five continents this revised and updated book tells dramatic stories of what works and what doesn t in entrenched conflicts between individuals and groups Lederach leads readers through stories of conflict and reconciliation in Scripture using these stories as anchors for peacemaking strategies that Christians can put into practice in families and churches Lederach who has written twenty two books and whose work has been translated into more than twelve languages also offers new lenses through which to view conflict whether congregational conflicts or global terrorism A new section of resources created by mediation professionals professors and pastors offers tools for understanding interpersonal church and global conflict worship resources books and websites for further study and invitations to action in everyday life Free downloadable study guide available here **Perspectives on Multinational Intelligence Cooperation for Peace Operations** ,2008 *Violence Prevention* John Freas,2023-09-06 Violence is a serious problem on our streets in our schools in many homes and between nations This book describes the extent of the problem the causes of violence and the steps each of us can take to prevent it If you are concerned about mass shootings domestic abuse terrorism wars or suicide this book shows how the same prevention strategies can be used to prevent several types of violence This book uses language that is easy to understand and it is intended as a resource for policymakers legislators concerned citizens and community or religious groups that want to find ways to reduce violence in their communities and around the world It could be used to stimulate discussion in small groups or to help someone prepare a presentation It demonstrates the need for resolving conflicts in the early stages It describes ways to address the underlying conditions that tend to predispose a person to violence and how to modify responses to triggering events that might cause a violent response The book also identifies several resources that can be helpful for people who want to get involved in prevention activities and it discusses the use of various defensive strategies that can be used to reduce the chance of violence There is also a chapter that outlines some of the changes that could be made in our society to reduce violence Some chapters also specifically address terrorism civil conflicts and international conflicts and show how they can also be dealt with using the same strategies **Cyberspaces and Global Affairs** Sean S. Costigan,Jake Perry,2016-05-13 From the Facebook revolutions in the Arab world to the use of social networking in the aftermath of disasters in Japan and Haiti to the spread of mobile telephony throughout the developing world all of these developments are part of how information and communication technologies are altering global affairs With the rise of the social web and applications like Facebook YouTube and Twitter

scholars and practitioners of international affairs are adapting to this new information space across a wide scale of issue areas. In conflict resolution dialogues and communication are taking the form of open social networks while in the legal realm where cyberspace is largely lawless space states are stepping up policing efforts to combat online criminality and hackers are finding new ways around increasingly sophisticated censorship. Militaries are moving to deeply incorporate information technologies into their doctrines and protesters are developing innovative uses of technology to keep one step ahead of the authorities. The essays and topical cases in this book explore such issues as networks and networked thinking, information ownership, censorship, neutrality, cyberwars, humanitarian needs, terrorism, privacy, and rebellion, giving a comprehensive overview of the core issues in the field complemented by real world examples. Peacebuilding Paradigms Henry F. Carey, 2020-12-17.
