*Palestine A Modern History* traces the history of Palestine from the late nineteenth century to the outbreak of World War II It examines the Palestinian Arab response to Jewish immigration and Zionist expansion in Palestine From the outset the Palestinian Arabs viewed all Zionist activity in the country as foreign invasion and strongly resisted it However in 1917 the British occupation of Palestine entirely altered the political environment and the Palestinian response had to change accordingly Based on both British and Arab primary sources this book develops a number of interesting arguments about the history of Mandate Palestine It demonstrates the high level of political consciousness amongst the Palestinian Arabs and it shows the importance of social stratification in the nationalist movement It also makes clear the incompatibility of the declared aims of British Policy with its implementation in Palestine In this regard the book explores the important conflicts between the local mandatory authorities and the imperial policies adopted by the British government in London This is an important historical reference work for scholars and researchers of Palestine studies Middle East politics peace and conflict resolution and international relations      *Dance and Authenticity in Israel and Palestine* Elke Kaschl, 2003-01-01 *Dance and Authenticity* is an ethnography of dance performance and cultural form It describes how dabkeh a type of dance performed at Palestinian weddings became a model for the Israeli Jewish debkah as a means of affirming Israeli Jewish belonging and common society The Palestinian dabkeh in turn acquired nationalist meanings especially after the 1967 war and the occupation of the West Bank The book traces the history of these competing and conflicting dance forms basing the argument principally on the ethnographic study of two Palestinian and one Israeli Jewish dance group conducted between 1998 and 1999 The result is a fascinating parallel ethnography showing how the ethnography of dance forms contributes to evolving notions of collective national and political identity in a context of unequal power
