A History Of The French Anarchist Movement 1917 To 1945

Martin Thomas

A History Of The French Anarchist Movement 1917 To 1945:

A History of the French Anarchist Movement, 1917-1945 David Berry, 2002-09-30 Analyzing the French anarchists responses to the Russian and Spanish revolutions and the creation of an international communist movement between the wars this book details the dilemmas facing anarchism at this moment **Jean Grave and the Networks of French**

Anarchism, 1854-1939 Constance Bantman, 2021-02-15 This biography charts the life and fascinating long militant career of the French anarchist journalist editor theorist writer campaigner and educator Jean Grave 1854 1939 from the run up to the 1871 Paris Commune to the eve of the Second World War Through Grave it explores the history of the French and international anarchist communist movement over seven decades its heroic period 1880 1890s shaken by terrorist violence and intense repression the emergence of syndicalism national and international solidarity campaigns the divisions over the First World War and post war division and relegation Through Grave a sedentary transnationalist the study investigates the networked and transnational organisation of the anarchist movement addressing the paradox of Grave s international influence alongside his deep rootedness in Paris by emphasizing the movement s global print culture and staggering circulations **Means and Ends** Zoe Baker, 2023-07-25 An expansive and accessible account of anarchism as a theory of practice A new in depth look at the revolutionary strategy of anarchism in Europe and the United States between 1868 and 1939 Zoe Baker creator of a popular Youtube series on radical history and political theory brings her trademark clarity and accessibility to this debut book Cutting through misperceptions and historical inaccuracies she shows how the reasons

anarchists gave for supporting or opposing particular strategies were grounded in a specific theoretical framework a theory of practice The consistent and coherent heart of anarchism Baker shows is the understanding that as people engage in activity political or otherwise they simultaneously change the world and themselves Put another way the means that revolutionaries propose to achieve social change have to involve forms of activity through which people can become individuals capable of overthrowing capitalism and the state as well as building a better society Behind this simple premise that anarchist ends can only be achieved through anarchist means lies a wealth of fascinating historical and theoretical detail that Baker presents clearly and engagingly **Eyes to the South**, 2011 A comparative study of the porous intellectual and political borders between a colonial power and the colonized **Paris and the Spirit of 1919** Tyler Edward

Stovall, 2012-03-22 This history of Paris in 1919 explores the global implications of French political activism at the end of World War I **Words of a Rebel** Peter Kropotkin, 2022-03-29 Peter Kropotkin remains one of the best known anarchist thinkers and Words of a Rebel was his first libertarian book Published in 1885 while he was in a French jail for anarchist activism this collection of articles from the newspaper Le Revolt sees Kropotkin criticise the failings of capitalism and those who seek to end it by means of its main support the state Instead he urged the creation of a mass movement from below that would expropriate property and destroy the state replacing their centralised hierarchies with federations of self governing

communities and workplaces Kropotkin's instant classic included discussions themes and ideas he returned to repeatedly during his five decades in the anarchist movement Unsurprisingly Words of a Rebel was soon translated into numerous languages including Italian Spanish Bulgarian Russian and Chinese and reprinted time and time again But despite its influence as Kropotkin's first anarchist work it was the last to be completely translated into English This is a new translation from the French original by Iain McKay except for a few chapters previously translated by Nicolas Walter Both anarchist activists and writers they are well placed to understand the assumptions within and influences on Kropotkin's revolutionary journalism It includes all the original 1885 text along with the preface to the 1904 Italian as well as the preface and afterward to the 1919 Russian editions In addition it includes many articles on the labour movement written by Kropotkin for Le Revolt which show how he envisioned getting from criticism to a social revolution Along with a comprehensive glossary and an introduction by Iain McKay placing this work within the history of anarchism as well as indicating its relevance to radicals and revolutionaries today this is the definitive edition of an anarchist classic

New Perspectives on Anarchism, Labour and Syndicalism Constance Bantman, Dave Berry, 2010-08-11 This collection presents exciting new research on the history of anarchist movements and their relation to organised labour notably revolutionary syndicalism Bringing together internationally acknowledged authorities as well as younger researchers all specialists in their field it ranges across Europe and from the late nineteenth century to the beginnings of the Cold War National histories are revisited through transnational perspectives on Britain France Italy Germany Poland or Europe as a whole evidencing a great wealth of cross border interactions and reciprocal influences between regions and countries Emphasis is also placed on individual activist itineraries whether of renowned figures such as Errico Malatesta or of lesser known yet equally fascinating characters whose trajectories offer fresh perspectives on the complex interplay of regional and national political cultures evolving political ideologies activist networks and the individual The volume will be of interest to specialists working on the history of anarchism and or trade unionism as well as the political or social history of the countries concerned but it will also be useful to students and the general reader looking for discussion of the most recent thinking on the historiography of labour and anarchist movements or those wanting a comprehensive overview of the history of syndicalism

Cultural Memories Peter Meusburger, Michael Heffernan, Edgar Wunder, 2011-05-11 The revival of interest in collective cultural memories since the 1980s has been a genuinely global phenomenon Cultural memories can be defined as the social constructions of the past that allow individuals and groups to orient themselves in time and space The investigation of cultural memories has necessitated an interdisciplinary perspective though geographical questions about the spaces places and landscapes of memory have acquired a special significance The essays in this volume written by leading anthropologists geographers historians and psychologists open a range of new interpretations of the formation and development of cultural memories from ancient times to the present day The volume is divided into five interconnected sections The first section outlines the theoretical

considerations that have shaped recent debates about cultural memory The second section provides detailed case studies of three key themes the founding myths of the nation state the contestation of national collective memories during periods of civil war and the oral traditions that move beyond national narrative The third section examines the role of World War II as a pivotal episode in an emerging European cultural memory The fourth section focuses on cultural memories in postcolonial contexts beyond Europe The fifth and final section extends the study of cultural memory back into premodern tribal and nomadic societies

Sex, Violence, and the Avant-garde Richard David Sonn,2010 Sex Violence and the Avant Garde examines the French anarchist movement between the wars from a socio cultural perspective considering the relationship between anarchism and the artistic avant garde and surrealism political violence and terrorism sexuality and sexual politics and gender roles

Albert Camus as Political Thinker Samantha Novello,2010-10-12 An intense genealogical reconstruction of Camus s political thinking challenging the philosophical import of his writings as providing an alternative aesthetic understanding of politics political action and freedom outside and against the nihilistic categories of modern political philosophy and the contemporary politics of contempt and terrorisms

Property is Theft! Pierre-Joseph Proudhon,2011 The definitive English language collection by the first man to call himself an anarchist

The Knights Errant of Anarchy Pietro Di Paola,2013-09-04 This book provides the first comprehensive overview of the structure dynamics sociology and interrelations that characterised the community of Italian anarchist exiles in London

The Liberation of Painting Patricia Leighton,2013-11-08 The years before World War I were a time of social and political ferment in Europe which profoundly affected the art world A major center of this creative tumult was Paris where many avant garde artists sought to transform modern art through their engagement with radical politics In this provocative study of art and anarchism in prewar France Patricia Leighton argues that anarchist aesthetics and a related politics of form played crucial roles in the development of modern art only to be suppressed by war fever and then forgotten Leighton examines the circle of artists Pablo Picasso Juan Gris Franti ek Kupka Maurice de Vlaminck Kees Van Dongen and others for whom anarchist politics drove the idea of avant garde art exploring how their aesthetic choices negotiated the myriad artistic languages operating in the decade before World War I Whether they worked on large scale salon paintings political cartoons or avant garde abstractions these artists she shows were preoccupied with social criticism Each sought an appropriate subject medium style and audience based on different conceptions of how art influences society and their choices constantly shifted as they responded to the dilemmas posed by contradictory anarchist ideas According to anarchist theorists art should expose the follies and iniquities of the present to the masses but it should also be the untrammelled expression of the emancipated individual and open a path to a new social order Revealing how these ideas generated some of modernism s most telling contradictions among the prewar Parisian avant garde The Liberation of Painting restores revolutionary activism to the broader history of modern art

Jean-Paul Sartre's Anarchist Philosophy William L. Remley,2019-08-22 The

influence of anarchists such as Proudhon and Bakunin is apparent in Jean Paul Sartre's political writings from his early works of the 1920s to *Critique of Dialectical Reason* his largest political piece Yet scholarly debate overwhelmingly concludes that his political philosophy is a Marxist one In this landmark study William L Remley sheds new light on the crucial role of anarchism in Sartre's writing arguing that it fundamentally underpins the body of his political work Sartre's political philosophy has been infrequently studied and neglected in recent years Introducing newly translated material from his early oeuvre as well as providing a fresh perspective on his colossal *Critique of Dialectical Reason* this book is a timely reinvigoration of this topic It is only in understanding Sartre's anarchism that one can appreciate the full meaning not only of the *Critique* but of Sartre's entire political philosophy This book sets forth an entirely new approach to Sartre's political philosophy by arguing that it espouses a far more radical anarchist position than has been previously attributed to it In doing so Jean Paul Sartre's *Anarchist Philosophy* not only fills an important gap in Sartre scholarship but also initiates a much needed revision of twentieth century thought from an anarchist perspective

Sexing Political Culture in the History of France, Libertarian Socialism Alex Prichard, Ruth Kinna, Saku Pinta, David Berry, 2017-08-01 The history of anarchist Marxist relations is usually told as a history of factionalism and division These essays based on original research and written especially for this collection reveal some of the enduring sores in the revolutionary socialist movement in order to explore the important too often neglected left libertarian currents that have thrived in revolutionary socialist movements By turns the collection interrogates the theoretical boundaries between Marxism and anarchism and the process of their formation the overlaps and creative tensions that shaped left libertarian theory and practice and the stumbling blocks to movement cooperation Bringing together specialists working from a range of political perspectives the book charts a history of radical twentieth century socialism and opens new vistas for research in the twenty first Contributors examine the political and social thought of a number of leading socialists Marx Morris Sorel Gramsci Guérin C L R James Hardt and Negri and key movements including the Situationist International Socialisme ou Barbarie and Council Communism Analysis of activism in the UK Australasia and the U S serves as the prism to discuss syndicalism carnival anarchism and the anarchistic currents in the U S civil rights movement Contributors include Paul Blackledge Lewis H Mates Renzo Llorente Carl Levy Christian H gsbjerg Andrew Cornell Benoît Challand Jean Christophe Angaut Toby Boraman and David Bates

The French Colonial Mind: Violence, military encounters and colonialism Martin Thomas, 2011-01-01 Violence was prominent in France's conquest of a colonial empire and the use of force was integral to its control and regulation of colonial territories What if anything made such violence distinctly colonial And how did its practitioners justify or explain it These are issues at the heart of *The French Colonial Mind: Violence Military Encounters and Colonialism* The second of two linked volumes this book brings together prominent scholars of French colonial history to explore the many ways in which brutality and killing became central to the French experience and management of empire Sometimes concealed or denied at other times highly publicized

and even celebrated French violence was so widespread that it was in some ways constitutive of colonial identity Yet such violence was also destructive destabilizing for its practitioners and lethal or otherwise devastating for its victims The manifestations of violence in the minds and actions of imperialists are investigated here in essays that move from the conquest of Algeria in the 1830s to the disintegration of France's empire after World War II The authors engage a broad spectrum of topics ranging from the violence of first colonial encounters to conflicts of decolonization Each considers not only the forms and extent of colonial violence but also its dire effects on perpetrators and victims Together their essays provide the clearest picture yet of the workings of violence in French imperialist thought The Sacco-Vanzetti Affair

Moshik Temkin, 2009-05-26 What began as the obscure local case of two Italian immigrant anarchists accused of robbery and murder flared into an unprecedented political and legal scandal as the perception grew that their conviction was a judicial travesty and their execution a political murder This book is the first to reveal the full national and international scope of the Sacco Vanzetti affair uncovering how and why the two men became the center of a global cause celebre that shook public opinion and transformed America's relationship with the world Drawing on extensive research on two continents and written with verve this book connects the Sacco Vanzetti affair to the most polarizing political and social concerns of its era Moshik Temkin contends that the worldwide attention to the case was generated not only by the conviction that innocent men had been condemned for their radical politics and ethnic origins but also as part of a reaction to U S global supremacy and isolationism after World War I The author further argues that the international protest which helped make Sacco and Vanzetti famous men ultimately provoked their executions The book concludes by investigating the affair's enduring repercussions and what they reveal about global political action terrorism jingoism xenophobia and the politics of our own time **Anarchism and eugenics**

Richard Cleminson, 2019-05-22 At the heart of this book is what would appear to be a striking and fundamental paradox the espousal of a scientific doctrine that sought to eliminate dysgenics and champion the fit as a means of race survival by a political and social movement that ostensibly believed in the destruction of the state and the removal of all hierarchical relationships What explains this reception of eugenics by anarchism How was eugenics mobilised by anarchists as part of their struggle against capitalism and the state What were the consequences of this overlap for both anarchism and eugenics as transnational movements **Anarchism and Political Modernity**

Nathan Jun, 2011-11-10 Anarchism and Political Modernity looks at the place of classical anarchism in the postmodern political discourse claiming that anarchism presents a vision of political postmodernity The book seeks to foster a better understanding of why and how anarchism is growing in the present To do so it first looks at its origins and history offering a different view from the two traditions that characterize modern political theory socialism and liberalism Such an examination leads to a better understanding of how anarchism connects with newer political trends and why it is a powerful force in contemporary social and political movements This new volume in the Contemporary Anarchist Studies series offers a novel

philosophical engagement with anarchism and contests a number of positions established in postanarchist theory Its new approach makes a valuable contribution to an established debate about anarchism and political theory It offers a new perspective on the emerging area of anarchist studies that will be of interest to students and theorists in political theory and anarchist studies
