Responses to the Nazi Extermination

They put us again in the train and we had to sit on the wooden floor, packed like herring, head and toes next to each other. They gave us one loaf of bread, period. And that had to last - but we didn't know for how long it had to last. People were dying in the train left and right. Next to me was a Jewish doctor from Vienna and he was dying and it was real dark in the train. He kept on making noises, like were maybe the death rattle from the throat and there were German soldiers with guns sitting in front of us. One of them said, "Quiet, quiet!" But he wasn't quiet because now I think he was unconscious. With his rifle the German started to beat us. He beat me horrible. As a matter of fact I couldn't speak for a whole week. Nothing would come out. After he beat me the German shot the guy and he was dead. The body, of course, stayed there all along. As a matter of fact I sat on him because it was more comfortable to sit on him than on the floor. I still have the aftereffects of that beating. And when I get home I cannot talk. Years later I became president of my hospital's medical staff and chief of doctors at St. Margaret's Hospital. I remember one day there were arguments back and forth among executive committee members. The discussion became heated. And I

I tried for maybe ten minutes. And I never told them why - I became a real workaholic. I tirelessly worked day and night, day and night, day and night. Then, when I was 55 I had a heart attack. I had delivered 92 babies that month. 92 deliveries! All our effort is to make sure the mother and babies are well and healthy. On the other hand the Germans killed millions of children like nothing. You tell me, is there a hell?

A Holocaust Reader Responses To The Nazi Extermination:

Emil L. Fackenheim David Patterson, 2008-03-14 In this revealing book David Patterson explores Fackenheim's rigorous pursuit of a philosophical response to the tragedy of the Holocaust. Fackenheim's writing sheds light on the tensions between Jewish thinking and German philosophy illustrating how elements of the latter were used by the Nazis to justify Jewish annihilation.

Hitler's Shadow War Donald M. McKale, 2006-03-17 In Hitler's Shadow War World War II scholar Donald M. McKale contends that the persecution and murder of the Jews, Slavs and other groups was Hitler's primary effort during the war, not the conquest of Europe. According to McKale, Hitler and the Nazi leadership used the military campaigns of the war as a cover for a genocidal program that centered on the Final Solution. Hitler continued to commit extensive manpower and materials to this shadow war even when Germany was losing the battles of the war's closing years.

The Degradation of Ethics Through the Holocaust Paul E. Wilson, 2023-05-12 This book discusses ethical behavior through the genocidal stages of the Holocaust. Paul E. Wilson first looks at the antisemitism in Germany and Europe beginning in the decades preceding the Nazis' reign of terror and goes on to discuss the ethical decisions made in the initial stages that moved society toward genocide. The author maintains that the stages of genocide represent subtle changes that can be happening within a society in response to the moral choices made by actors. By giving attention to the stages of genocide in the Holocaust, this book contributes to the overall understanding of how the Holocaust was possible and encourages the moral community to join the watch for the development of genocide in the modern world.

A Holocaust Reader Michael L. Morgan, 2001 This book collects important and representative writings that respond to the Nazi atrocities and death camps. Written by theologians, literary figures, cultural critics, philosophers and others, these writings survey the major themes in Western culture that the Holocaust raises and the most provocative and influential responses to these themes and to the Holocaust itself.

The Oxford Handbook of Holocaust Studies Peter Hayes, John K. Roth, 2012-11-22 Few scholarly fields have developed in recent decades as rapidly and vigorously as Holocaust Studies. At the start of the twenty-first century, the persecution and murder perpetrated by the Nazi regime have become the subjects of an enormous literature in multiple academic disciplines and a touchstone of public and intellectual discourse in such diverse fields as politics, ethics and religion. Forward-looking and multi-disciplinary, this handbook draws on the work of an international team of forty-seven outstanding scholars. The handbook is thematically divided into five broad sections. Part One, Enablers, concentrates on the broad and necessary contextual conditions for the Holocaust. Part Two, Protagonists, concentrates on the principal persons and groups involved in the Holocaust and attempts to disaggregate the conventional interpretive categories of perpetrator, victim and bystander. It examines the agency of the Nazi leaders and killers and of those involved in resisting and surviving the assault. Part Three, Settings, concentrates on the particular places, sites and physical circumstances where the actions of the Holocaust's protagonists and the forms of persecution were literally grounded. Part Four, Representations, engages complex

questions about how the Holocaust can and should be grasped and what meaning or lack of meaning might be attributed to events through historical analysis interpretation of texts artistic creation and criticism and philosophical and religious reflection Part Five Aftereffects explores the Holocaust's impact on politics and ethics education and religion national identities and international relations the prospects for genocide prevention and the defense of human rights

Philosophy typically ignores biographical historical and cultural aspects of theorist's lives in an attempt to take a supposedly abstract and objective view of their work This book makes some new conclusions about Arendt's theory by emphasizing how her experience of the world as displayed in her archival materials impacted her thought Some aspects of Arendt's life have been examined in detail before including the fact she was stateless as well as her affair with Heidegger Instead this work explores different topics including the biographical and narrative moments of Arendt's own work the role of archiving in her thought pivotal events that have not been archived her understanding of her own identities and how it affected the role of identity politics in her work Typically group action is underemphasized in Arendt scholarship in comparison to individual

action and often identity politics questions are considered to lie within the realm of the private Although Arendt's theory is problematic when discussing issues concerning identity politics she did think identity politics could be public and political and that effective political actions may occur within groups What makes this project unique are the innovative conclusions made by moving the archival and biographical evidence to the center in order to understand her theory more accurately and within its historical and cultural context This volume will be of interest to professional scholars in Arendt's work but also to those who have a more general interest in her life and theory

Christians & Jews in Dialogue Mary C. Boys, Sara S. Lee, 2012-06-27 Discover the Power of Dialogue to Heal Religious Division How can members of different faith traditions approach each other with openness and respect How can they confront the painful conflicts in their history and overcome theological misconceptions For more than twenty years Professors Mary C Boys and Sara S Lee have explored ways that Catholics and Jews might overcome mistrust and misunderstandings in order to promote commitment to religious pluralism At its best interreligious dialogue entails not simply learning about the other from the safety of one's own faith community but rather engaging in specific learning activities with members of the other faith learning in the presence of the other Drawing upon examples from their own experience Boys and Lee lay out a framework for engaging the religious other in depth With vision and insight they discuss ways of fostering relationships among participants and with key texts beliefs and practices of the other's tradition In this groundbreaking resource they offer a guide for members of any faith tradition who want to move beyond the rhetoric of interfaith dialogue and into the demanding yet richly rewarding work of developing new understandings of the religious other and of one's own tradition

Silence in Modern Irish Literature, 2017-08-21 Silence in Modern Irish Literature is the first book to focus exclusively on the treatment of silence in modern Irish literature It reveals the wide spectrum of meanings that silence carries in modern Irish literature a mark of historical loss a form of resistance to authority a force of social oppression a testimony to the unspeakable an expression of desire a style of contemplation This volume addresses silence in psychological ethical topographical spiritual and aesthetic terms in works by a range of major authors including Yeats Joyce Beckett Bowen and Friel

Open Wounds David Patterson, 2012-03-15 In this book David Patterson sets out to describe why Jews must live but especially think in a way that is distinctly Jewish For Patterson the primary responsibility of post Holocaust Jewish thought is to avoid thinking in the same categories that led to the attempted extermination of the Jewish people The Nazis he says were not anti Semitic because they were racists they were racists because they were anti Semitic and their anti Semitism was furthered by a Western ontological tradition that made God irrelevant by placing the thinking ego at the center of being If the Jewish people in their particularity are chosen to attest to the universal chosenness of every human being then each human being is singled out to assume an absolute responsibility to and for all human beings And that Patterson says is why the anti Semite hates the Jew because the very presence of the Jew robs him of his ego and serves as a constant reminder that we are all forever in debt and that redemption is always yet to be

Thus the Nazis before they killed Jewish bodies were compelled to murder Jewish souls through the degradations of the Shoah But why is the need for a revitalized Jewish thought so urgent today It is not only because modern Jewish thought hoping to accommodate itself to rational idealism is thereby obliged to put itself in league with postmodernists who preach tolerance for everything except biblically based religion beginning with Judaism and who effectively call on Jews as fellow citizens of the global village to disappear It is also because without the Jewish reality of Jerusalem there is only the Jewish abstraction of Auschwitz for in Auschwitz the Jews were murdered not as husbands and wives parents and children but as efficiently numbered units If the Jews Patterson claims are not a people set apart by a Voice that is other than human then the Holocaust can never be understood as evil rather than simply immoral With Open Wounds Patterson aims to make possible a religious response to the Holocaust Post Holocaust Jewish thinking confronting the work of healing the world of tikkun haolam must recover not just Jewish tradition but also the category of the holy in human beings thinking about humanity

The Jew, the Arab Gil Anidjar, 2003 This book argues that in Christian Europe the question of the enemy has for millennia been structured by the historical relation of Europe to both Arab and Jew It provides a philosophical understanding of the background of the current conflict in the Middle East

Pragmemes and Theories of Language Use Keith Allan, Alessandro Capone, Istvan Kecskes, 2017-01-10 This volume offers recent developments in pragmatics and adjacent territories of investigation including important new concepts such as the pragmatic act and the pragmeme and combines developments in neighboring disciplines in an integrative holistic pragmatic approach The young science of pragmatics has from its inception differentiated itself from neighboring fields in the humanities especially the disciplines dealing with language and those focusing on the social and anthropological aspects of human behavior by focusing on the language user in his or her societal environment This collection of papers continues that emphasis on language use and pragmatic acts in their context The editors and contributors share a perspective that essentially considers language as a system for communication and wants to look at language from a societal perspective and accept the view that acts of interpretation are essentially embedded in culture In an interdisciplinary approach some authors explore connections with social theory in particular sociology or socio linguistics some offer a political stance critical discourse analysis others explore connections with philosophy and philosophy of language and several papers address problems in theoretical pragmatics

The Legacy of Hans Jonas Hava Tirosh-Samuelson, Christian Wiese, 2008-08-31 Hans Jonas 1903-1993 was one of the most creative and original Jewish thinkers of the twentieth century This volume offers a retrospective of Jonas's life and works by bringing together historians of modern Germany Judaica scholars philosophers bioethicists and environmentalists to reflect on the meaning of his legacy today From a historian of religions who wrote a path-breaking monograph on Gnosticism Jonas turned to the philosophy of nature extending his existential philosophy and phenomenological analysis to include all forms of life Unique among twentieth-century Jewish philosophers Jonas argued for the possibility of a genuinely symbiotic relationship between humanity and nature which he believed had been suppressed by modern technology Jonas spoke against the human domination of nature on the basis of Jewish sources especially the Bible and Lurianic Kabbalah and he was among the first to define the ethical challenges that modern technology poses to humanity

Philosophy's Treason D. M. Spitzer, 2020-05-05 *Philosophy's Treason* Studies in Philosophy and Translation gathers contributions from an international group of scholars at different stages of their careers bringing together diverse perspectives on translation and philosophy The volume's six chapters primarily look towards translation from philosophic perspectives often taking up issues central to Translation Studies and pursuing them along philosophic lines By way of historical logical and personal reflection several chapters address broad topics of translation such as the entanglements of culture ideology politics and history in the

translation of philosophic works the position of Translation Studies within current academic humanities untranslatability within philosophic texts and the ways philosophic reflection can enrich thinking on translation Two more narrowly focused chapters work closely on specific philosophers and their texts to identify important implications for translation in philosophy In a final critical postscript the volume takes a reflexive turn as its own chapters provide starting points for thinking about philosophy and translation in terms of performativity From philosophers critically engaged with translation this volume offers distinct perspectives on a growing field of research on the interdisciplinarity and relationality of Translation Studies and Philosophy Ranging from historical reflections on the overlap of translation and philosophy to philosophic investigation of questions central to translation to close readings of translation within important philosophic texts *Philosophy's Treason* serves as a useful guide and model to educators in Translation Studies wishing to illustrate a variety of approaches to topics related to philosophy and translation
