Rochester, 2007 This text presents the current and updated teaching of the Orthospinology procedure Written by the author of the landmark text Upper Cervical Subluxation Complex this new book is a step by step thoroughly illustrated guide to the Orthospinology procedure for correcting subluxations The book details the X ray analysis methods used to quantify the subluxation and determine an effective correction vector Subsequent chapters present steps for ensuring the precision of the X ray analysis performing specific adjustments assessing the effectiveness of the adjustment and fine tuning the correction to the individual patient More than 300 photographs and drawings clarify complex points **Down Detour Road** Eric J. Cesal, 2010-08-06 A young architect's search for new architectural values in a time of economic crisis I paused at the stoop and thought this could be the basis of a good book The story of a young man who went deep into the bowels of the academy in order to understand architecture and found it had been on his doorstep all along This had an air of hokeyness about it but it had been a tough couple of days and I was feeling sentimental about the warm confines of the studio which had unceremoniously discharged me upon the world from Down Detour Road What does it say about the value of architecture that as the world faces economic and ecological crises unprecedented numbers of architects are out of work This is the question that confronted architect Eric Cesal as he finished graduate school at the onset of the worst financial meltdown in a generation Down Detour Road is his journey one that begins off course and ends in a hopeful new vision of architecture Like many architects of his generation Cesal confronts

a cold reality Architects may assure each other of their own importance but society has come to view architecture as a luxury it can do without For Cesar this recognition becomes an occasion to rethink architecture and its value from the very core He argues that the times demand a new architecture an empowered architecture that is useful and relevant New architectural values emerge as our cultural values shift from high risks to safe bets from strong portfolios to strong communities and from clean lines to clean energy This is not a book about how to run a firm or a profession it doesn't predict the future of architectural form or aesthetics It is a personal story and in many ways a generational one a story that follows its author on a winding detour across the country around the profession and into a new architectural reality **Catching Babies** Charlotte

G. Borst, 1995 Childbirth is a quintessential family event that simultaneously holds great promise and runs the risk of danger By the late nineteenth century the birthing room had become a place where the goals of the new scientific professional could be demonstrated but where traditional female knowledge was in conflict with the new ways Here the choice of attendants and their practices defined gender ethnicity class and the role of the professional Using the methodology of social science theory particularly quantitative statistical analysis and historical demography Charlotte Borst examines the effect of gender culture and class on the transition to physician attended childbirth Earlier studies have focused on physician opposition to midwifery devoting little attention to the training for and actual practice of midwifery As a result until now we knew little about the actual conditions of the midwife's education and practice **Catching Babies** is the first study to examine the move to physician attended birth within the context of a particular community It focuses on four representative counties in Wisconsin to study both midwives and physicians within the context of their community Borst finds that midwives were not pushed out of practice by elitist or misogynist obstetricians Instead their traditional artisanal skills ceased to be valued by a society that had come to embrace the model of disinterested professional science The community that had previously hired midwives turned to physicians who shared ethnic and cultural values with the very midwives they replaced **Motor Matt's**

"Century" Run; or, The Governor's Courier Stanley R. Matthews, 2023-10-25 In Stanley R Matthews **Motor Matt's Century Run or The Governor's Courier** readers are taken on an exhilarating adventure filled with speed danger and heroism Written in a fast paced and suspenseful style the book is a prime example of early 20th century American pulp fiction Set against the backdrop of the emerging automobile culture the story follows the daring exploits of Motor Matt as he embarks on a high speed mission to deliver an important message The author's vivid descriptions and thrilling narrative keep readers on the edge of their seats throughout the book Stanley R Matthews a prolific writer of adventure stories drew inspiration from the technological advancements and societal changes of his time His fascination with automobiles and the sense of freedom they symbolized is evident in **Motor Matt's Century Run** Through his storytelling Matthews captures the spirit of adventure and innovation that defined the early 1900s I highly recommend **Motor Matt's Century Run or The Governor's Courier** to readers who enjoy action packed narratives and historical fiction Stanley R Matthews engaging writing style and expertly crafted plot

Weak Knowledge Moritz Epple, Annette Imhausen, Falk Müller, 2019-12-18 Im Gegensatz zu landläufigen Vorstellungen sind wissenschaftliche Wissensbestände häufig prekäre Ressourcen. Sie können in bestimmten Situationen aus epistemischen Gründen schwach sein, weil Begründungen oder empirische Evidenz problematisch sind. In anderen Situationen fehlt die kulturelle und soziale Anerkennung oder das fragliche Wissen bleibt schwach, weil es nicht gelingt, es praktisch nutzbar zu machen. Der Band versammelt Beiträge aus allen historischen Epochen und aus einem breiten Spektrum von Wissensgebieten von der Medizin bis zur Klimatologie. **Omnibook**, 1939 CLASSIC MYSTERIES - The Émile Gaboriau Edition

Alton Lee, 2014-03-01 Until recently American legal historiography focused almost solely on national government. Although much of Kansas law reflects U.S. law, the state court's arbitrary powers over labor management conflicts, yellow dog contracts, civil rights, gender issues, and domestic relations set precedents that reverberated around the country. *Sunflower Justice* is a pioneering work that presents the history of a state through the use of its supreme court decisions as evidence. R. Alton Lee traces Kansas's legal history through 150 years of records, shedding light on the state's political, economic, and social history in this groundbreaking overview of Kansas legal cases and judicial biographies. Beginning with the territorial justices and continuing through the late twentieth century, R. Alton Lee covers the dispossession of Native Americans' land, the growth and impact of labor unions, antimonopoly cases against railroad and mining companies, a nine-year state ban on the movie *Birth of a Nation*, and implications and effects of desegregation, as well as the shooting of Dr. George Tiller for performing legal abortions. Because judicial decisions are not made in a vacuum, Lee presents each of the justices in the context of the era and their personal experiences before examining how their decisions shaped Kansas' political, economic, social, and legal history.
