

All of this is because the overall plan, the civic ordering of the city, is missing. There is no imposed and consequently logical pattern such as one sees in the West—and also in Kyoto, Japan's only ordered city. There is much of the natural patterning one discovers in any living, growing organism, but this does not assist the confused Westerner who eventually must discover that the only way to travel profitably about the city is to memorize it.

Once this is accomplished, however, and once the visitor begins to accustom himself to Tokyo, he discovers that both patterns and structures are, in fact, evident—ones, however, he would not find in a modern Western city. There, units are welded together to create residential areas, business areas, etc. Here, these units are independent.

This difference is apparent in the cityscape of Tokyo itself. From any tall building one may look out over the vastness of the metropolis and find that there seems to be many more units—single buildings—than in Western cities. A view of Tokyo is like a pointilistic painting, each dot apparently unattached to the other, each building seemingly alone and independent. Individual architectural styles, building to building, greatly differ and no attempt is made toward any kind of visual cohesion.

As the visitor looks and learns, however, he sees that these variegated units are actually grouped, though not in the way he would expect in a city. The single units form small complexes. In each there is a bank, a supermarket, a flower shop, a pinball parlor. What one sees when one looks closely at Tokyo is a collection of hundreds of villages.

Each is a small town and their numbers make up this enor-
