Lies that Tell the Truth Anne C. Hegerfeldt, 2005 Magic realism has long been treated as a phenomenon restricted to postcolonial literature Drawing on works from Britain *Lies that Tell the Truth* compellingly shows how magic realist fiction can be produced also at what is usually considered to be the cultural centre without forfeiting the mode's postcolonial attitude and aims A close analysis of works by Angela Carter Salman Rushdie Jeanette Winterson Robert Nye and others reveals how the techniques of magic realism generate a complex critique of the West's rational empirical worldview from within a Western context itself Understanding magic realism as a fictional analogue of anthropology and sociology *Lies that Tell the Truth* reads the mode as a frequently humorous but at the same time critical investigation into people's attempts to make sense of their world By laying bare the manifold strategies employed to make meaning magic realist fiction indicates that knowledge and reality cannot be reduced to hard facts but that people's dreams and fears ideas stories and beliefs must equally be taken into account

Asayesh, 2017-08-21 Although the term magical realism appeared in 1925 in pictorial art in Germany it became well known with the boom of magical realist fiction in Latin America in the 1960s Since the 1980s it has become one of the popular modes of writing worldwide Due to its oxymoronic and hybrid nature it has caught the attention of critics Some have called it a postcolonial form of writing because of its prominence in postcolonial countries while others have called it a postmodern mode because of the time of its emergence and the techniques applied in these kinds of novels This book discusses how magical realism was used in the works of three contemporary female writers Indigo or Mapping the Waters 1992 by the British Marina Warner The House of the Spirits 1982 by the Latin American writer Isabel Allende and Fatma a novel of Arabia 2002 by the Saudi Arabian Raja Alem It shows how by applying magical realism these writers empowered women Using revisionary nostalgia these works changed the process of history writing by the powerful showed the presence of women and gave voice to their unheard stories Even the techniques applied in these novels presented the clash with patriarchy and power *Space, Mobility, and Crisis in Mega-Event Organisation* Rodanthi Tzanelli, 2022-11-25 This book

advances an alternative critical posthumanist approach to mega event organisation taking into account both the new and the old crises which humanity and our planet face Taking the delayed Tokyo 2020 Olympic Games as a case study Tzanelli explores mega event crisis and risk management in the era of extreme urbanisation natural disasters global pandemic and technoscientific control Using the atmospheric term irradiation a technology of glamour and transparency as well as bodily penetration by harmful agents and strong affects the book explores this epistemological statement diachronically via Tokyo's relationship with Western forms of domination and synchronically the city as a global cultural political player but victim of climate catastrophes It presents how the Olympic enterprise's flattening of indigenous environmental place making rhythms and the scientisation of space and place in the Anthropocene lead to reductionisms harmful for a viable programme of planetary recovery An experimental study of the mega event is enacted which considers the researcher's analytical tools and

the styles of human and non human mobility during the mega event as reflexive gateways to forms of posthuman flourishing Crossing and bridging disciplinary boundaries the book will appeal to any scholar interested in mobilities theory event and environment studies sociology of knowledge and cultural globalisation The Cambridge Companion to the Twentieth-Century English Novel Robert L.
