The theme of desire is explored through readings of contemporary figures such as Merleau Ponty Bataille Sartre de Beauvoir Levinas Irigaray Barthes Derrida and Derrida A hot timely topic in philosophy today Expands the contemporary debates Sites of Vision David Michael Kleinberg-Levin, 1999 The fourteen contributors to Sites of Vision explore the hypothesis that the nature of visual perception about which philosophers talk must be explicitly recognized as a discursive construction indeed a historical construction in philosophical discourse In recent years scholars from many disciplines have become interested in the construction of the human senses in how the human environment shapes both how and what we perceive Taking a very different approach to the question of construction Sites of Vision turns to language and explores the ways in which the rhetoric of philosophy has formed the nature of vision and how in turn the rhetoric of vision has helped to shape philosophical thought The central role of vision in relation to philosophy is evident in the vocabulary of the discipline in words such as speculation observation insight and reflection in metaphors such as mirroring perspective and point of view and in methodological concepts such as reflective detachment and representation Because the history of vision is so pervasively reflected in the history of philosophy it is possible for both vision and thought to achieve a greater awareness of their genealogy through the history of philosophy The fourteen contributors to Sites of Vision explore the hypothesis that the nature of visual perception about which philosophers talk must be explicitly recognized as a discursive construction indeed a historical construction in philosophical discourse Contemporary Social Theory Anthony Elliott, 2009-01-13 This book is arguably the definitive undergraduate textbook on contemporary social theory Written by one of the world's most acclaimed social theorists Anthony Elliott provides a dazzlingly accessible and comprehensive introduction to modern social theory from the Frankfurt School to globalization theories and beyond In distilling the essentials of social theory Elliott reviews the works of major theorists including Theodor Adorno Herbert Marcuse Michel Foucault Jacques Lacan Jacques Derrida Anthony Giddens Pierre Bourdieu Julia Kristeva Jurgen Habermas Judith Butler Slavoj Zizek Manuel Castells Ulrich Beck Zygmunt Bauman Giorgio Agamben and Manuel De Landa Every social theorist discussed is contextualized in a wider political and historical context and from which their major contributions to social theory are critically assessed This book is essential reading for students and professionals in the fields of social theory sociology and cultural studies as it is both an original enquiry and a consummate introduction to social theory **Recto Verso: Redefining the Sketchbook** Angela Bartram, Nader El-Bizri, Douglas Gittens, 2016-04-08 Bringing together a broad range of contributors including art architecture and design academic theorists and historians in addition to practicing artists architects and designers this volume explores the place of the sketchbook in contemporary art and architecture Drawing upon a diverse range of theories practices and reflections common to the contemporary conceptualisation of the sketchbook and its associated environments it offers a dialogue in which the sketchbook can be understood as a pivotal working tool that contributes to the creative
